Winthrop's Journal, "History of New England," 1630-1649 John Winthrop, 1908 **American Literature Before 1880**

Robert Lawson-Peebles, 2003-11-13 American Literature Before 1880 attempts to place its subject in the broadest possible international perspective. It begins with Homer looking westward and ends with Henry James crossing the Atlantic eastward. In between, the book examines the projection of images of the East onto an as yet unrecognised West, the cultural consequences of Viking, Colombian, and then English migration to America, the growth and independence of the British American colonies, the key writers of the new Republic, and the development of the culture of the United States before and after the Civil War. It is intended both as an introduction for undergraduates to the richness and variety of American Literature and as a contribution to the debate about its distinctive nature. The book therefore begins with a lengthy survey of earlier histories of American Literature. **Modernity, Metatheory, and the Temporal-Spatial Divide** Michael

Kimaid, 2015-03-27 This book is about how modernity affects our perceptions of time and space. Its main argument is that geographical space is used to control temporal progress by channeling it to benefit particular political, economic, and social interests or by halting it altogether. By incorporating the ancient Greek myth of the Titanomachy as a conceptual metaphor to explore the elemental ideas of time and space, the author argues that hegemonic interests have developed spatial hierarchy into a comprehensive system of technocratic monoculture which interrupts temporal development in order to maintain exclusive power and authority. This spatial stasis is reinforced through the control of historical narratives and geographical settings. While increasingly comprehensive, the author argues that this state of affairs can best be challenged by focusing on the development of unmappable places which presently exist within the socio-spatial matrix of the modern world. **The**

Oxford Handbook of Early American Literature Kevin J. Hayes, 2008-02-06 The Oxford Handbook of Early American Literature is a major new reference work that provides the best single volume source of original scholarship on early American literature. Comprised of twenty-seven chapters written by experts in their fields, this work presents an authoritative in-depth and up-to-date assessment of a crucial area within literary studies. Organized primarily in terms of genre, the chapters include original research on key concepts as well as analysis of interesting texts from throughout colonial America. Separate chapters are devoted to literary genres of great importance at the time of their composition that have been neglected in recent decades, such as histories, promotional literature, and scientific writing. New interpretations are offered on the works of Benjamin Franklin, Jonathan Edwards, and Dr. Alexander Hamilton, while lesser-known figures are also brought to light. Newly vital areas like print culture and natural history are given full treatment. As with other Oxford Handbooks, the contributors cover the field in a comprehensive yet accessible way that is suitable for those wishing to gain a good working knowledge of an area of study and where it's headed. *Separate Paths* Jean R. Soderlund, 2022-07-15 Winner of the 2024 McCormick Prize from the New Jersey Studies Academic Alliance. *Separate Paths: Lenapes and Colonists in West New Jersey*

War and Colonization in the Early American

Northeast Christoph Strobel, 2023-04-25 This book takes a new approach by synthesizing the work of scholars of military and Indigenous history to provide the first chronologically ordered region wide and long term narrative history of conflict in the Early American Northeast War and Colonization in the Early American Northeast focuses on war and society European colonization and Indigenous peoples in New England from the pre Columbian era to the mid eighteenth century It examines how the New English used warfare against Native Americans as a way to implement a colonial order These conflicts shaped New English attitudes toward Native Americans which further aided in the marginalization and the violent targeting of these communities At the same time this volume pays attention to the experiences of Indigenous peoples It explores pre Columbian Native American conflict and studies how colonization altered the ways of warfare of Indigenous people Native Americans contested New English efforts at colonization and used violent warfare strategies and raids to target their enemies often quite successfully However in the long run depending on time and geographic location conflict and colonization led to dramatic and violent changes for Native Americans This volume is an essential resource for academics students academic libraries and general readers interested in the history of New England military Native American or U S history *Colonial Intimacies* Ann Marie Plane, 2018-09-05 In 1668 Sarah Ahhaton a married Native American woman of the Massachusetts Bay town of Punkapoag confessed in an English court to having committed adultery For this crime she was tried found guilty and

publicly whipped and shamed she contritely promised that if her life were spared she would return to her husband and continue faithful to him during her life yet although he should beat her again These events recorded in the court documents of colonial Massachusetts may appear unexceptional in fact they reflect a rapidly changing world Native American marital relations and domestic lives were anathema to English Christians elite men frequently took more than one wife while ordinary people could dissolve their marriages and take new partners with relative ease Native marriage did not necessarily involve cohabitation the formation of a new household or mutual dependence for subsistence Couples who wished to separate did so without social opprobrium and when adultery occurred the blame centered not on the fallen woman but on the interloping man Over time such practices changed but the emergence of new types of Indian marriage enabled the legal social and cultural survival of New England's native peoples The complex interplay between colonial power and native practice is treated with subtlety and wisdom in *Colonial Intimacies* Ann Marie Plane uses travel narratives missionary tracts and legal records to reconstruct a previously neglected history Plane's careful reading of fragmentary sources yields both conclusive and fittingly speculative findings and her interpretations form an intimate picture moving and often tragic of the familial bonds of Native Americans in the first century and a half of European contact

Fortification and Its Discontents from Shakespeare to Milton Adam N. McKeown, 2019-01-08 *Fortification and Its Discontents from Shakespeare to Milton* gives new coherence to the literature of the early modern Atlantic world by placing it in the context of radical changes to urban space following the Italian War of 1494-1498 The new walled city that emerged in the sixteenth and seventeenth centuries on both sides of the Atlantic provided an outlet for a wide range of humanistic fascinations with urban design composition and community organization but it also promoted centrality of control and subordinated the human environment to military functionality Examining William Shakespeare Edmund Spenser John Winthrop and John Milton this volume shows how the literature of England and New England explores and challenges the new walled city as England struggled to define the sprawling metropolis of London translate English urban spaces into Ireland and North America and later survive a long civil war

Cities of Empire Tristram Hunt, 2014-11-25 An original history of the most enduring colonial creation the city explored through ten portraits of powerful urban centers the British Empire left in its wake At its peak the British Empire was an urban civilization of epic proportions leaving behind a network of cities which now stand as the economic and cultural powerhouses of the twenty-first century In a series of ten vibrant urban biographies that stretch from the shores of Puritan Boston to Dublin Hong Kong New Delhi Liverpool and beyond acclaimed historian Tristram Hunt demonstrates that urbanism is in fact the most lasting of Britain's imperial legacies Combining historical scholarship cultural criticism and personal reportage Hunt offers a new history of empire excavated from architecture and infrastructure from housing and hospitals sewers and statues prisons and palaces Avoiding the binary verdict of empire as good or bad he traces the collaboration of cultures and traditions that produced these influential urban centers the work of an army of administrators officers

entrepreneurs slaves and renegades In these ten cities Hunt shows we also see the changing faces of British colonial settlement a haven for religious dissenters a lucrative slave trading post a center of global hegemony Lively authoritative and eye opening Cities of Empire makes a crucial new contribution to the history of colonialism
