A Journalist's Diplomatic Mission John Maxwell Hamilton, Robert Mann, 2012-12-07 At the height of World War I in the winter of 1917-1918 one of the Progressive era's most successful muckracking journalists Ray Stannard Baker 1870-1946 set out on a special mission to Europe on behalf of the Wilson administration While posing as a foreign correspondent for the New Republic and the New York World Baker assessed public opinion in Europe about the war and postwar settlement American officials in the White House and State Department held Baker's wide ranging trenchant reports in high regard After the war Baker remained in government service as the president's press secretary at the Paris Peace Conference where the Allied victors dictated the peace terms to the defeated Central Powers Baker's position gave him an extraordinary vantage point from which to view history in the making He kept a voluminous diary of his service to the president beginning with his voyage to Europe and lasting through his time as press secretary Unlike Baker's published books about Wilson leavened by much reflection his diary allows modern readers unfiltered impressions of key moments in history by a thoughtful inside observer Published here for the first time this long neglected source includes an introduction by John Maxwell Hamilton and Robert Mann that places Baker and his diary into historical context

Central Ideas in the Development of American Journalism Marvin N. Olasky, 2015-07-16 Originally published in 1991 This fascinating book of journalism history outlines the author's concepts of the three central ideas in journalism which have evolved through time The first is the Official Story that which state authorities wanted people to know the second the Corruption Story emphasised the abuse of authority by those in power and

focused on a willingness to oppose the official and tell the specific detail and the third the Oppression Story where journalists present the cause of events as down to external influences and work to change the social environment The book narrates the history from its European beginnings in the 16th and 17th Centuries up to the early 20th Century expressing how all interpretive journalism has a philosophic world view component and understanding journalism history entails understanding these insights of the times

Newspaper City Phillip Gordon Mackintosh,2017-04-24 In Newspaper City Phillip Gordon Mackintosh scrutinizes the reluctance of early Torontonians to pave their streets He demonstrates how Toronto's two liberal newspapers the Toronto Globe and Toronto Daily Star nevertheless campaigned for surface infrastructure as the leading expression of modern urbanity despite the broad resistance of property owners to pay for infrastructure improvements under local improvements by laws To boost paving newspapers used their broadsheets to fashion two imagined cities for their readers one overrun with animals dirt and marginal people the other civilized modern and crowned with clean streets However the employment of capitalism to generate traditional public goods such as concrete sidewalks asphalt roads regulated pedestrianism and efficient automobilism is complicated Thus the liberal newspapers promotion of a city of orderly infrastructure and contented people in actual Toronto proved strikingly illiberal Consequently Mackintosh's study reveals the contradictory nature of newspapers and the historiographical complexities of newspaper research

The Alchemy of Illness Kat Duff,1993 Illness is a universal experience There is no privilege that can

make us immune to its touch We are taught to assume health illnesses being just temporary breakdowns in the well oiled machinery of the body But illness has its own geography its own laws and commandments At a time when the attention of the whole nation is focused on health care Kat Duff inquires into the nature and function of illness itself Duff a counselor in private practice in Taos New Mexico wrote this book out of her experience with chronic fatigue syndrome but what she has to say is applicable to every illness and every one of us For those who are sick this book offers solace and recognition For those who care for them either physically or emotionally it offers inspiration and compassion Finally this fresh perspective on healing reveals how every illness is a crucible that tries our mettle tests our limits and provides us with an unparalleled opportunity to integrate its lessons into our lives **Ladies and Gentlemen on Display** Charlene M. Lewis,2001-12-29 Each summer between 1790 and 1860 hundreds and eventually thousands of southern men and women left the diseases and boredom of their plantation homes and journeyed to the healthful and entertaining Virginia Springs While some came in search of a cure most traveled over the mountains to enjoy the fashionable society and participate in an array of social activities At the springs visitors as well as their slaves interacted with one another and engaged in behavior quite different from the picture presented by most historians In the leisurely and pleasure filled environment of the springs plantation society s hierarchies became at once more relaxed and more contested its rituals and rules sometimes changed and reformed and its gender divisions often softened and blurred In Ladies and Gentlemen on Display Charlene Boyer Lewis argues that the Virginia Springs provided a theater of sorts where contests for power between men and women fashionables and evangelicals blacks and whites old and young and even northerners and southerners played out away from the traditional roles of the plantation In their pursuit of health and pleasure white southerners created a truly regional community at the springs At this edge of the South elite southern society shaped itself defining what it meant to be a Southerner and redefining social roles and relations
