thoughts on the decisions surrounding the publication of the Anti Climacus writings The Sickness unto Death and especially Practice in Christianity Kierkegaard's reader gets the sense both of a gathering storm by the close of the last journal in this volume the famous attack on Christendom is less than three years away and a certain hesitancy What needs reforming Kierkegaard insists is not the doctrine or the Church but existences i e lives

Kierkegaard's Journals and Notebooks, Volume 6 Søren Kierkegaard, 2013-01-06 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Volume 6 of this 11 volume series includes four of Kierkegaard's important NB journals Journals NB11

through NB14 covering the months from early May 1849 to the beginning of 1850. At this time Denmark was coming to terms with the 1848 revolution that had replaced absolutism with popular sovereignty while the war with the German states continued and the country pondered exactly what replacing the old State Church with the Danish People's Church would mean. In these journals Kierkegaard reflects at length on political and especially on ecclesiastical developments. His brooding over the ongoing effects of his fight with the satirical journal *Corsair* continues and he also examines and re-examines the broader personal and religious significance of his broken engagement with Regine Olsen. These journals also contain reflections by Kierkegaard on a number of his most important works including the two works written under his new pseudonym Anti Climacus: *The Sickness unto Death* and *Practice in Christianity* and his various attempts at autobiographical explanations of his work. And all the while the drumbeat of his radical critique of Christendom continues and escalates. Kierkegaard wrote his journals in a two column format: one for his initial entries and the second for the extensive marginal comments that he added later. This edition of the journals reproduces this format, includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced.

Kierkegaard's Journals and Notebooks, Volume 7 Søren Kierkegaard, 2014-10-05

For over a century the Danish thinker Søren Kierkegaard (1813-55) has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought, psychology and contemporary aesthetics, especially literary theory. Despite his relatively short life, Kierkegaard was an extraordinarily prolific writer, as attested to by the 26 volume Princeton University Press edition of all of his published writings. But Kierkegaard left behind nearly as much unpublished writing, most of which consists of what are called his journals and notebooks. Kierkegaard has long been recognized as one of history's great journal keepers, but only rather small portions of his journals and notebooks are what we usually understand by the term diaries. By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects: philosophical, religious, political, personal. Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought. We can witness the genesis of his published works, to be sure, but we can also see whole galaxies of concepts, new insights and fragments, large and small, of partially or almost entirely completed but unpublished works. Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself. Volume 7 of this 11 volume series includes six of Kierkegaard's important NB journals: Journals NB15 through NB20, covering the months from early January 1850 to mid-September of that year. By this time it had become clear that popular sovereignty, ushered in by the revolution of 1848 and ratified by the Danish constitution of 1849, had come to stay and Kierkegaard now intensified his criticism of the notion that everything, even matters involving the human soul, could be decided by balloting. He also continued to direct his barbs at the established Danish Church and its clergy, particularly Bishop J. P. Mynster and Professor H. L. Martensen, at the press and at the attempt by

modern philosophy to comprehend the incomprehensibility of faith Kierkegaard's reading notes include entries on Augustine the Stoics German mystics Luther pietist authors and Rousseau while his autobiographical reflections circle around the question of which if any of several essays explaining his life and works he ought to publish Perhaps unsurprisingly Kierkegaard's more personal reflections return once again to his public feud with M A Goldschmidt and his broken engagement to Regine Olsen Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced New York, Ny, USA Notebook: Blank Journal Diary Memoir Log Logue N.
