Why is there an "Islamic government" in Iran, a country that had more than a century of *secular*, anti-imperialist movement? Why did this change occur, perhaps anachronistically, in the last decades of the twentieth century? These are the kinds of questions that presumably would remain in the background when reading the narratives and eyewitness accounts in this volume. Yet the primary purpose of this volume is the narration of "everyday life—stories of everyday people in their battle for survival, tales of young men and women fighting for happiness, . . . [together with] the words of those who are carrying the burden of [some] twenty years of an untold tragedy" (2). What tragedy, one may ask? The tragedy of "ordinary people assaulted by multiple forms of [state] violence, a ballad of people living in constant fear, anxiety, and despair" (3). Yet against all this, the author hopes to demonstrate that "the children of the Islamic Republic are creating a growing movement for tolerance, pluralism, and the right to live a free life" (3).

Chapter 1 examines the 1997 landslide election of M. Khatami, a reform candidate, whose overwhelming election to the presidency of the Islamic Republic is a vote of no confidence against the foundation of the republic, the *velayat-e faghih* (the rule of supreme Islamic jurisconsult). Against this background, Yaghmaian portrays an atmosphere of optimism, defiance, and challenge that is seemingly leading to the rise of "new" social movements for rights in the Islamic Republic of Iran.

Chapter 2 is a narrative of state oppression, terrorism, and violence. It is also about the mass murdering of the opposition, including political figures, activists, intellectuals, and writers by covert, off-the-shelf, and unofficial state functionaries attached to the Ministry of Information in Iran. These political assassinations were headline news in the aftermath of the election of Khatami, a presumed reform-minded president of the republic. There are many personal narratives in this book. But here, tragically, the most interesting story is when the author himself was arrested while holding a late-afternoon casual conversation with a female student of his, in one of Tehran's city parks. Yaghmaian writes, tremblingly, that he was taken into custody, insulted, beaten, searched, and then forcefully interrogated:

The guards searched my bag. My heart nearly stopped beating. I trembled. "I am finished," I said to myself. Will they see the copy of the *Communist Manifesto* in my bag? Will they find the five pages of questions from the philosopher about the constitution, the *faghih* and his absolute power, the Islamic hejāb, and all the other symbols of the violation of basic human rights in the Islamic Republic? . . . Engulfed in fear, I watched the copy of the *Manifesto* in the hands of the man in plainclothes. . . . Holding the *Manifesto* and searching the bag, the man in plainclothes shouted: "What is this?" He had found my Swiss Army knife. "Possession of a weapon," he cried. I protested. He insulted me and threatened me with more violence. "Possession of a weapon." . . . "Take your bag," shouted the man . . . while placing the *Manifesto* in my bag. . . . Cold sweat rolling down my face. . . . [T]he man in plainclothes had no interest in the content of my bag. He was in search of other signs of "cultural invasion" in my bag. I was saved. (41)

Dissent Ralph Young, 2015-04-24 Historian Ralph Young's *Dissent: The History of an American Idea* covers both the liberal and conservative movements that changed American history. A Ralph Waldo Emerson Award Finalist, one of *Bustle's* Books For Your Civil Disobedience Reading List, Ralph Young's stunningly comprehensive volume examines the key role dissent has played in shaping the United States, focusing on those who from colonial days to the present dissented against the ruling paradigm of their time, from the Puritan Anne Hutchinson and Native American chief Powhatan in the seventeenth century to the Occupy and Tea Party movements in the twenty-first. At its founding, the United States committed itself to lofty ideals. When the promise of those ideals was not fully realized by all Americans, many protested and demanded that the United States live up to its promise. Women fought for equal rights, abolitionists sought to destroy slavery, workers organized unions, Indians resisted white encroachment on their land, radicals angrily demanded an end to the dominance of the moneyed interests, civil rights protestors marched to end segregation, antiwar activists took to the streets to protest the nation's wars, and reactionaries, conservatives, and traditionalists in each decade struggled to turn back the clock to a simpler, more secure time. Some dissenters are celebrated heroes of American history, while others are ordinary people frequently overlooked, but whose stories show that change is often accomplished through grassroots activism. *Dissent* emphasizes how these Americans responded to what they saw as the injustices that prevented them from fully experiencing their vision of America. A must read for any citizen interested in making a stronger democracy. Pulitzer Prize-winning author Heather Ann Thompson.

The Routledge International Handbook of Feminisms in Social Work Carolyn Noble, Shahana Rasool, Linda Harms-Smith, Gianinna Muñoz-Arce, Donna Baines, 2024-06-03 This handbook highlights innovative and affect-driven feminist dialogues that inspire social work practice, education, and research across the globe. The editors have gathered the many at times silenced feminist voices and their allies together in this book, which reflects current and contested feminist landscapes through 52 chapters from leading feminist social work scholars from the many branches and movements of feminist thought and practice. The breadth and width of this collection encompasses work from diverse socio-political contexts across the globe, including Central and South America, Africa, Asia, the Middle East, Europe, North America, Aotearoa, New Zealand, and Australia. The book is divided into six parts as follows: Decoloniality, Indigeneity, and Radical Theorising; Feminist Social Work in Fields of Practice; Academy and Feminist Research; The Politics of Care; Allyship; Profeminisms and Queer Perspectives; Social Movements; Engaging with the Environment; and the More than Human. The above sections present the diverse feminisms that have influenced social work, which provides a range of engaging, informative, and thought-provoking chapters. These chapters highlight that feminists still face the battle of working towards ending gender-based violence, discrimination, exploitation, and oppression, and therefore it is urgent that we feature the many contemporary examples of activism, resistance, best practice, and opportunities to emphasise the different ways feminisms

remain central to social work knowledge and practice It will be of interest to all scholars and students of social work and related disciplinary areas including the social and human sciences global and social politics and policy human rights environmental and sustainability programmes citizenship and women s studies *Modern America and the Legacy of the Founding* Ronald J. Handbook of Conflict Management Research Oluremi B. Ayoko,Neal M. Ashkanasy,Karen A. Jehn,2014-07-31 This unique book draws together current thoughts and research in conflict management Specifically it brings a wealth of knowledge from authorities in the field on emerging issues such as power in conflict cognition and emotions in conflict leading **Diversity and Dissent** Howard Louthan,Gary B. Cohen,Franz A. J. Szabo,2011-03-01 Early modern Central Europe was the continent s most decentralized region politically and its most diverse ethnically and culturally With the onset of the Reformation it also became Europe s most religiously divided territory and potentially its most explosive in terms of confessional conflict and war Focusing on the Holy Roman Empire and the Polish Lithuanian Commonwealth this volume examines the tremendous challenge of managing confessional diversity in Central Europe between 1500 and 1800 Addressing issues of tolerance intolerance and ecumenism each chapter explores a facet of the complex dynamic between the state and the region s Catholic Protestant Orthodox Utraquist and Jewish communities The development of religious toleration one of the most debated questions of the early modern period is examined here afresh with careful consideration of the factors and conditions that led to both confessional concord and religious violence **Shades of Freedom** A. Leon Higginbotham Jr.,1998-06-11 Few individuals have had as great an impact on the law both its practice and its history as A. Leon Higginbotham Jr A winner of the Presidential Medal of Freedom the nation s highest civilian honor he has distinguished himself over the decades both as a professor at Yale the University of Pennsylvania and Harvard and as a judge on the United States Court of Appeals But Judge Higginbotham is perhaps best known as an authority on racism in America not the least important achievement of his long career has been *In the Matter of Color* the first volume in a monumental history of race and the American legal process Published in 1978 this brilliant book has been hailed as the definitive account of racism slavery and the law in colonial America Now after twenty years comes the long awaited sequel *In Shades of Freedom* Higginbotham provides a magisterial account of the interaction between the law and racial oppression in America from colonial times to the present demonstrating how the one agent that should have guaranteed equal treatment before the law the judicial system instead played a dominant role in enforcing the inferior position of blacks The issue of racial inferiority is central to this volume as Higginbotham documents how early white perceptions of black inferiority slowly became codified into law Perhaps the most powerful and insightful writing centers on a pair of famous Supreme Court cases which Higginbotham uses to portray race relations at two vital moments in our history The *Dred Scott* decision of 1857 declared

that a slave who had escaped to free territory must be returned to his slave owner Chief Justice Roger Taney in his notorious opinion for the majority stated that blacks were so inferior that they had no right which the white man was bound to respect For Higginbotham Taney s decision reflects the extreme state that race relations had reached just before the Civil War And after the War and Reconstruction Higginbotham reveals the Courts showed a pervasive reluctance if not hostility toward the goal of full and equal justice for African Americans and this was particularly true of the Supreme Court And in the Plessy v Ferguson decision which Higginbotham terms one of the most catastrophic racial decisions ever rendered the Court held that full equality in schooling or housing for instance was unnecessary as long as there were separate but equal facilities Higginbotham also documents the eloquent voices that opposed the openly racist workings of the judicial system from Reconstruction Congressman John R Lynch to Supreme Court Justice John Marshall Harlan to W E B Du Bois and he shows that ironically it was the conservative Supreme Court of the 1930s that began the attack on school segregation and overturned the convictions of African Americans in the famous Scottsboro case But today racial bias still dominates the nation Higginbotham concludes as he shows how in six recent court cases the public perception of black inferiority continues to persist In *Shades of Freedom* a noted scholar and celebrated jurist offers a work of magnificent scope insight and passion Ranging from the earliest colonial times to the present it is a superb work of history and a mirror to the American soul
