Taoism, Teaching, and Learning John P. Miller, 2022-06-29 The ancient Chinese philosophy of Taoism contains profound wisdom about the cosmos, nature, human life and education. Taoism seeks to be in harmony with nature and using it as a guide can help us live in a way that is healing to both ourselves and the planet. Taoism Teaching and Learning identifies key aspects of Taoist thought and highlights how these principles can promote a holistic approach to teaching and learning. In particular, this book offers educators guidelines and pedagogical examples for how to instil a perspective of interconnectedness into their classrooms. It sheds light on how philosophical Taoism articulates a vision of the universe and life that mirrors the actual realities of nature. Providing frameworks and methods for teaching and learning based on the interconnectedness of life, Taoism Teaching and Learning develops an inspiring vision for education and helps us to see our world in a deeply holistic and meaningful way.

Inclusion and Early Years Practice Kathy Brodie, Keith Savage, 2015-02-20 Inclusion is a difficult, complex issue for which there are no off-the-shelf answers. To be an effective practitioner, it is necessary to identify what makes each situation and circumstance unique and use this knowledge to develop strategies and approaches that are appropriate. This timely new text examines the key perceptions, perspectives and concepts around inclusion in the Early Years. Drawing on real-life experiences of practitioners, it considers the questions practitioners are likely to come across in their professional lives and how they might genuinely go about meeting the needs of all the children in their care. The book covers all aspects of inclusion, including special educational needs, gender and sexuality, multiculturalism, multilingualism, Roma and traveller communities and economic wellbeing. Each chapter features case studies to develop reflective thinking, boxed examples to illustrate key points, questions to promote discussion and debate, annotated further reading lists. With case studies drawn from current research and thinking points which encourage reflective practice, this book will be essential reading for students on early childhood studies programmes and early years foundation degrees that wish to become reflective and critically aware practitioners.

Teacher Education in Diverse Settings Larry Prochner, Ailie Cleghorn, Anna Kirova, Christine Massing, 2016-09-27 Teacher Education in Diverse Settings presents a study of initial educator preparation in three social contexts: a training program for immigrant child care educators in Canada, a pre and lower primary specialization in a teacher education program in Namibia, and a partnership

between the Misak indigenous communities in Colombia and the University of Cauca to deliver courses for educators within their communities In each setting the book explores the relationships between indigenous ways of thinking and western discourse in reference to the preparation of educators whether they be teachers community leaders or newly arrived immigrants in Canada In each case the authors focus is on the tensions between the local understandings and global ideas and the creation of space for diverse but intersecting worldviews The book s goal is to investigate ways that teacher educators parents and communities can better prepare children for the realities of schooling while preserving the integrity of local norms and values through educator preparation programs

Design, Make, Play Margaret Honey,2013-03-12 Design Make Play Growing the Next Generation of STEM Innovators is a resource for practitioners policymakers researchers and program developers that illuminates creative cutting edge ways to inspire and motivate young people about science and technology learning The book is aligned with the National Research Council s new Framework for Science Education which includes an explicit focus on engineering and design content as well as integration across disciplines Extensive case studies explore real world examples of innovative programs that take place in a variety of settings including schools museums community centers and virtual spaces Design Make and Play are presented as learning methodologies that have the power to rekindle children s intrinsic motivation and innate curiosity about STEM science technology engineering and mathematics fields A digital companion app showcases rich multimedia that brings the stories and successes of each program and the students who learn there to life
