(4) Drawing from Hierarchical and Symbolic Objects

[illegible]

No ruling, measure, or other device, resting or suspended, or a group of objects, will be given. Candidates should have gone through a graduated series of exercises, simple first, for the purpose (a) of acquiring by direct study and a knowledge of the form, structure, and other characteristics of perspective in identifying their appearance, and (b) only while the objects are in sight, for the purpose (c) of identifying them when they are not in sight. The exercises should not be too numerous, and should be suggested by the instructor.

Free-Arm and Industrial Drawing

Serial Drawing

"moving" consists in building up forms, just as objects can be built up in clay. The "dot" is the starting point, and this is made to grow into larger shapes, by enlargement and other additions. It is quite an evolutionary or accretive process, when the wholeness grows slowly upwards, until, because they want a whole, they have to draw a good outline of it in outline drawing.

International Handbook on Geographical Education Rod Gerber, 2013-03-09 I am very pleased to have been asked by Rod Gerber to provide a preface to such a book Not least because of the twenty four chapters eight are written by former students or colleagues with whom I have worked in the past and whom I still meet at conferences on geographical education It is with a certain pride and joy that I note the progress which has been made in geographical education both in its day to day teaching and in research in the twenty years following the end of my term of office as Chair of the Commission on Geographical Education of the International Geographical Union CGEIUG My successors Joe Stoltman Hartwig Haubrich Rod Gerber and now Lea Houtsonen have done much and are continuing to work hard to foster the development of geographical education This book is proof if proof were needed that the international collaboration in this field is alive and well with contributions coming from all the continents except Antarctica It would be a moribund subject that remained unaffected in one way or another by developments on the great world stage as Fairgrieve 1926 would have put it And as Rod Gerber shows the issues of globalisation of cultural encounters of differing value systems of new technologies of variable economic development and of environmental quality all feature as topics which influence and are influenced by geographical education
