Lebans From Privatization Labour Ibues In Developing And Transitional Countries:

Lessons from Privatization Rolph van der Hoeven, György Sziráczki, 1997 This book assesses the labor market consequences of privatization in developing countries the Republic of Korea India and Mexico and transition economies Bulgaria the Czech Republic Eastern Germany and Hungary during the first half of the 1990s Based on over 20 case studies in seven countries it considers the effect of privatization on productivity and on the level and structure of employment The evolving patterns of industrial relations in privatized firms and the subsequent changes in wages remuneration systems and non wage benefits are also examined

Limits to Privatization Marianne Beishem, Oran R Young, Ernst Ulrich von Weizsacker, Matthias Finger, 2012-04-27 Limits to Privatization is the first thorough audit of privatizations from around the world It outlines the historical emergence of globalization and liberalization and from analyses of over 50 case studies of best and worst case experiences of privatization it provides guidance for policy and action that will restore and maintain the right balance between the powers and responsibilities of the state the private sector and the increasingly important role of civil society The result is a book of major importance that challenges one of the orthodoxies of our day and provides a benchmark for future debate

Labor Issues in Infrastructure Reform Public-Private Infrastructure Advisory Facility, 2004 Fears of job loss and changes in employment status have often led workers and unions to oppose privatization and to take actions that delay or block reforms Many developing country governments have been reluctant to undertake reforms because of labor opposition and the political costs involved Such difficulties are often compounded by concerns about the social impact of reforms particularly in countries where social safety nets and labor markets are lacking The objective of the Toolkit which includes a CD ROM is to provide practical tools and information to help policy makers and practitioners deal with these sensitive issues The Toolkit helps governments identify and select appropriate strategies and approaches offers guidelines for design and implementation based on best practice and actual experience and indicates the factors influencing the choice of strategy and options The Toolkit is illustrated with examples checklists and templates that walk decision makers through best practice methodologies

The World Bank Research Observer, 2004 Privatization and Labor Sunita Kikeri, 1998 Despite its importance labor is one of the least addressed issues in privatization The lack of information on the employment impact of privatization has exacerbated the fears and concerns of governments and workers alike This paper examines the effects of privatization on labor and analyzes the mechanisms that governments can use to minimize the political and social costs of labor restructuring in privatization by drawing on the experience of mixed economies

The Politics of Privatisation and Trade Union Mobilisation Pablo Ghigliani, 2010 This is a comparative study of how workers and their unions respond to privatisation Drawing upon research from a variety of disciplines the author examines the push toward privatisation in diverse national settings its profound impact on organised labour and the often innovative responses of workers and their unions in the affected industries By means of a detailed analysis of the privatisation of the electricity industries in the United

Kingdom and Argentina and the various initiatives of workers and their trade unions in these two countries this book offers an engaging comparative case study that sheds new light on key issues in contemporary labour studies the strategic choices available to workers and their organisations when faced with the radical restructuring of their industries the types of resources available to trade unions and how they are mobilised and the impact of widespread worker unrest on their organisations This book also provides fresh insight into the use of mobilisation theory in the field of labour studies The author employs mobilisation theory to make sense of worker and trade union responses to privatisation and he argues that this theoretical framework can be useful for cross national comparisons

Privatization, Social Impact, and Social Safety Nets Mr.Sanjeev Gupta,Mr.Henry Ma,Mr.Christian Schiller,1999-05-01 Privatization promotes economic efficiency and growth thereby reinforcing macroeconomic adjustment In the short run however it can lead to job losses and wage cuts for workers and higher prices for consumers This paper discusses these impacts and the fiscal implications of privatization It then reviews various methods of privatization and finds that public sales and auctions can have more negative effects on workers but maximize the government s revenue gains Policymakers options for mitigating the social impact of privatization are surveyed and experiences under adjustment programs reviewed

The Handbook of Economic Development and Institutions Jean-Marie Baland,François Bourguignon,Jean-Philippe Platteau,Thierry Verdier,2020-01-21 The definitive reference on the most current economics of development and institutions The essential role that institutions play in understanding economic development has long been recognized across the social sciences including in economics Academic and policy interest in this subject has never been higher The Handbook of Economic Development and Institutions is the first to bring together in one single volume the most cutting edge work in this area by the best known international economists The volume s editors themselves leading scholars in the discipline provide a comprehensive introduction and the stellar contributors offer up to date analysis into institutional change and its interactions with the dynamics of economic development This book focuses on three critical issues the definitions of institutions in order to argue for a causal link to development the complex interplay between formal and informal institutions and the evolution and coevolution of institutions and their interactions with the political economy of development Topics examined include the relationship between institutions and growth educational systems the role of the media and the intersection between traditional systems of patronage and political institutions Each chapter covering the frontier research in its area and pointing to new areas of research is the product of extensive workshopping on the part of the contributors The definitive reference work on this topic The Handbook of Economic Development and Institutions will be essential for academics researchers and professionals working in the field

The Oxford Handbook of Criminology Alison Liebling,Shadd Maruna,Lesley McAra,2017 Beginning with the history of criminology this updated and revised edition deals with topics as diverse as policing substance abuse juvenile crime statistics prisons victims and organised crime in Britain

Strategic Communication for

Privatization, Public-private Partnerships, and Private Participation in Infrastructure Projects Daniele

Calabrese, 2008-01-01 Strategic Communication for Privatization Public Private Partnerships and Private Participation in Infrastructure reviews the experiences of the World Bank and its clients in employing public communication programs during the processes of privatization and private sector participation Drawing from academic and policy research as well as from case studies it highlights good practices and identifies lessons learned through an examination of success and failures This book recommends principles of strategic communication and offers a methodology for researching and analyzing the communication issues associated with privatization and private sector participation It includes an operational approach to design and implementation of public communication programs for the various forms of privatization and public private initiatives This publication is the eighth in a series of Working Papers sponsored by the Development Communication Division DevComm of the World Bank's External Affairs Vice Presidency This series is designed to share innovations and lessons learned in the application of strategic communication in development projects Together with other donors NGOs and private sector partners DevComm seeks to mainstream the discipline of development communication in development practice

Labour Relations in Development Alex Fernández Jilberto, Marieke Riethof, 2002-08-22 This timely and well written collection explores the impact of economic reforms in developing and transitional economies across the world In a first of its kind this book examines such issues as in depth cross regional analysis of the pressures for global integration labour costs and their determinants crucial factors in the success of econo

Privatization in Competitive Sectors Sunita Kikeri, John R. Nellis, 2002 Takes stock of the empirical evidence on privatization outcomes during the 1990s Includes an annotated bibliography of studies notably their methodology and main findings

Legal Aspects of Privatisation Bulent Seven, 2002 The main aims of this thesis are as follows a To present a comprehensive analysis of the concept of privatisation its origins and limits b To identify the legal and institutional framework for privatisation in different European countries from a comparative perspective c To define and analyse particularly legal issues which arise during the privatisation transactions e g labour law competition law etc d To evaluate which features of the successful legal and organisational framework of privatisation have been successful so as to provide guidelines for those individuals and organisations participating in the privatisation exercises This work found out that there is no simple internationally applicable recipe for privatisation various legal methods and techniques can be used to privatise state owned enterprises Because each country has different circumstances it is impossible to provide a unique model for privatisation each country needs to design its own model according to its circumstances Privatisation is an essential but insufficient element for structural economic reform in the economy and society Privatisation is not a panacea it is not the solution to every economic and administrative problem selling an enterprise to the private sector does not mean an end to all problems Also privatisation is not an overnight process or a magic touch it will be a lengthy process Furthermore a decision that something can be privatised does not mean that it

should be privatised In that context privatisation is not good or bad it is an economic and social instrument If it is well designed it may bring substantial benefits to the economy and society In many countries many state owned enterprises particularly the ones which are financially weak have still not been privatised This finding revealed that the privatisation process will be in the political and economic agenda for at least few more decades Privatisation and Labour Restructuring Gopal Ganesh,2008 On privatisation and labour restructuring in India and Sri Lanka From Conflict to Recovery in Africa Tony Addison,2003-02-13 Revitalizing private sectors 4 Transforming states Conclusions For a list of contributions go to the full text area of this record Activities of the ILO, 1998-99 International Labour Office,2000
