Lectures on Greek Poetry. (Reprint.) John William Mackail, 1966 *The growth and influence of classical Greek poetry* Richard Claverhouse Jebb, 1893 **Lectures on Greek Poetry (Classic Reprint)** J. W. Mackail, 2015-07-09 Excerpt from Lectures on Greek Poetry The lectures contained in this volume were given during the last four years from the Chair of Poetry in the University of Oxford With these lectures is also now incorporated the substance of a paper read before the Classical Association at its General Meeting at Birmingham in October 1908 While the lectures were planned in relation to one another as parts of a single continuous scheme the circumstances of their delivery at long intervals and to an audience which like poetry itself is being perpetually renewed implied a large amount of recapitulation and repetition In revising them for publication I have thought it best not to alter their form very materially in this respect and I hope that the amount of repetition still left will not be found excessive while it may serve to emphasise more effectively the central ideas by which I have been guided throughout particularly as regards the poetical value of the Greek poets and the way in which Greek poetry as poetry may best be read so as to disengage its living virtue Like the lectures on English poets already published last year under the title of The Springs of Helicon this volume deals with one chapter in the larger and more comprehensive study of the Progress of Poetry About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Lectures on Greek Poetry* J. W. Mackail, 1972-01-01 Lectures on Greek Poetry Gerson Schade, 2016 The first part of the book is a series of lectures on Greek poetic texts ranging from the archaic to the pre Hellenistic age i e from the eighth to the fourth century BC The main figures as well as their literary setting are discussed Moreover important topics determining the literary output are evaluated too as for instance the opposition between orality and literacy The second part of the monograph consists of an introduction to Homer's Iliad The pervading idea of this part is to show that Homer's Iliad may well be the work of a single poetic genius able to include in his work much older and orally conceived parts This series of lectures provides a selection of classical texts that presents typical examples of Greek poetry Not only are passages explained and commented on that are relevant to the European poetic tradition but also a selection of literary analysis and interpretation is provided that may help generally to understand poetic texts Since literary texts cannot be properly understood without their historical background some basic material of that kind is also constantly provided Last but not least broader issues are introduced how is a text made and in what way may it reflect the audience's

The Growth and Influence, of Classical Greek Poetry R. C. Jebb, 2015-07-03 Excerpt from The Growth and Influence of Classical Greek Poetry Lectures Delivered in 1892 on the Percy Turnbull Memorial Foundation in the Johns Hopkins University The Percy Turnbull Memorial Lectureship of Poetry was established in the Johns Hopkins University Baltimore in 1889 by Mr and Mrs Lawrence Turnbull in memory of their son Percy Graeme Turnbull The first course was given 1891 by Mr Edmund Clarence Stedman on The Nature and Elements of Poetry and was followed in 1892 by the course contained in this volume The lectures are printed as they were delivered with the exception of a few very slight changes Their aim is to exhibit concisely but clearly the leading characteristics of the best classical Greek poets and to illustrate the place of ancient Greece in the general history of poetry I should like the book to be considered as a member of a series to which other volumes by other writers will doubtless in due course be added a series deriving unity from the Turnbull foundation and associated with the University whose place among elder sisters is already one of such peculiar distinction About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
