Great Military Leaders William T. Worthington, 2002 Great Military Leaders A Bibliography with Vignettes Loathing Lincoln John McKee Barr, 2014-04-07
While most Americans count Abraham Lincoln among the most beloved and admired former presidents a dedicated minority has long viewed him not only as the worst president in the country's history but also as a criminal who defied the Constitution and advanced federal power and the idea of racial equality In Loathing Lincoln historian John McKee Barr surveys the broad array of criticisms about Abraham Lincoln that emerged when he stepped onto the national stage expanded during the Civil War and continued to evolve after his death and into the present The first panoramic study of Lincoln's critics Barr's work offers an analysis of Lincoln in historical memory and an examination of how his critics on both the right and left have frequently reflected the anxiety and discontent Americans felt about their lives From northern abolitionists troubled by the slow pace of emancipation to Confederates who condemned him as a black Republican and despot to Americans who blamed him for the civil rights movement to more recently libertarians who accuse him of trampling the Constitution and creating the modern welfare state Lincoln's detractors have always been a vocal

minority but not one without influence By meticulously exploring the most significant arguments against Lincoln Barr traces the rise of the president's most strident critics and links most of them to a distinct right wing or neo Confederate political agenda According to Barr their hostility to a more egalitarian America and opposition to any use of federal power to bring about such goals led them to portray Lincoln as an imperialistic president who grossly overstepped the bounds of his office In contrast liberals criticized him for not doing enough to bring about emancipation or ensure lasting racial equality Lincoln's conservative and libertarian foes however constituted the vast majority of his detractors More recently Lincoln's most vociferous critics have adamantly opposed Barack Obama and his policies many of them referencing Lincoln in their attacks on the current president In examining these individuals and groups Barr's study provides a deeper understanding of American political life and the nation itself

Best Little Stories: Voices of the Civil War C. Brian Kelly, 2015-07-01 The Civil War You Never Knew Behind the conflict that divided a nation and forever changed its citizens are the riveting tales of the men and women who made an impact in the Civil War both on and off the battlefield Drawn from the writings of soldiers slaves politicians and military leaders Best Little Stories Voices of the Civil War extends beyond the statistics and battle accounts to present the intensely personal human side of the conflict Fascinating characters come to life including James Alexander Walker who served with honor under Stonewall Jackson even after he was booted from the Virginia Military Institute for talking back to the notoriously stodgy Professor Jackson Charles Strahan a Confederate veteran who made strides to reconcile the Blue and Gray when he raised money to erect a monument to honor his former enemy the soldiers of the Union army Gen Julius H Stahel winner of the Medal of Honor who was egregiously omitted from the official after action report on the battle of Piedmont Virginia despite having led the Union forces to victory after suffering from a gunshot wound

Robert E. Lee and the Rise of the South Cathy East Dubowski, 1991 Recounts the life of the general who commanded the Southern Army during the Civil War *Bonds of Affection* Matthew S. Holland, 2007-10-04 Notions of Christian love or charity strongly shaped the political thought of John Winthrop Thomas Jefferson and Abraham Lincoln as each presided over a foundational moment in the development of American democracy Matthew Holland examines how each figure interpreted and appropriated charity revealing both the problems and possibilities of making it a political ideal Holland first looks at early American literature and seminal speeches by Winthrop to show how the Puritan theology of this famed 17th century governor of the Massachusetts Colony he who first envisioned America as a City upon a Hill galvanized an impressive sense of self rule and a community of care in the early republic even as its harsher aspects made something like Jefferson's Enlightenment faith in liberal democracy a welcome development Holland then shows that between Jefferson's early rough draft of the Declaration of Independence and his First Inaugural Jefferson came to see some notion of charity as a necessary complement to modern political liberty However Holland argues it was Lincoln and his ingenious blend of Puritan and democratic insights who best fulfilled the promise of this nation's bonds of affection With his recognition of the imperfections

of both North and South his humility in the face of God's judgment on the Civil War and his insistence on charity for all including the defeated Confederacy Lincoln personified the possibilities of religious love turned civic virtue Weaving a rich tapestry of insights from political science and literature and American religious history and political theory Bonds of Affection is a major contribution to the study of American political identity Matthew Holland makes plain that civic charity while commonly rejected as irrelevant or even harmful to political engagement has been integral to our national character The book includes the full texts of Winthrop's speech A Model of Christian Charity Jefferson's rough draft of the Declaration and his First Inaugural and Lincoln's Second Inaugural

Regimental Publications & Personal Narratives of the Civil War: Southern, Border, and Western states and territories ; Federal troops ; Union and Confederate biographies, 1967 **Voices of the Army of the Potomac** Vincent L. Burns, 2021-10-29 Finalist 2021 Army Historical Foundation

Distinguished Writing Awards As historian David W Bright noted in Race and Reunion The Civil War in American Memory No other historical experience in America has given rise to such a massive collection of personal narrative literature written by ordinary people This massive collection of memoirs recollections and regimental histories make up the history of the Civil War seen through the eyes of the participants This work is an overview of what Civil War soldiers and veterans wrote about their experiences It focusses on what veterans remembered what they were prepared to record and what they wrote down in the years after the end of the war In an age of increased literacy many of these men had been educated whether at West Point Harvard or other establishments but even those who had received only a few years of education chose to record their memories The writings of these veterans convey their views on the cataclysmic events they had witnessed but also their memories of everyday events during the war While many of them undertook detailed research of battles and campaigns before writing their accounts it is clear that a number were less concerned with whether their words aligned with the historical record than whether they recorded what they believed to be true This book explores these themes and also the connection between veterans writing their personal war history and the issue of veterans pensions Understanding what these veterans chose to record and why is important to achieving a deeper understanding of the experience of these men who were caught up in this central moment in American life

Death, Disease, and Life at War Christopher Loperfido, 2017-07-19 A collection of letters from a Union surgeon in the American Civil War revealing what life was like for a doctor and a soldier in that era Union surgeon James Dana Benton witnessed firsthand the suffering and death brought about by the ghastly wounds infections and diseases that wreaked havoc to both the Union and Confederate armies A native of New York Dr Benton penned a series of letters throughout the war to his family relating his experiences with the 111th New York Infantry as an assistant surgeon and later with the 98th New York as surgeon This unique correspondence which covers a wide array of topics beyond medicine and the treatment of the injured is the basis of Death Disease and Life at War The Civil War Letters of Surgeon James D Benton 111th and 98th New York Infantry Regiments 1862 1865 Dr Benton was present for some of the

war's most gruesome and important battles including Gettysburg, Cold Harbor, and the siege of Petersburg. He was also present for the fall of Harper's Ferry, Abraham Lincoln's second Inaugural address, and the collapse of Richmond. His pen offers an insightful and honest look into the everyday life of not only a Union surgeon but also an officer who suffered the same basic hardships other soldiers in the ranks endured. Christopher Loperfido's *Death, Disease, and Life at War* is a valuable addition to the Civil War bookshelf. More than 600,000 men perished in the Civil War, and many more were wounded or fell ill. Prompt and timely attention from an army surgeon was often the difference between life and death. James Benton's letters home provide a compelling glimpse into the everyday life of these doctors, their concerns and frustrations, their patients and colleagues, the places visited, and their opinions on the war. I commend Christopher Loperfido for bringing this interesting slice of the war to light. Scott L. Mingus Sr., award-winning author of *Confederate General William B. Smith: From Virginia's Statehouse to Gettysburg Scapegoat*, Loperfido's excellent arrangement of Benton's letters provides a compelling look at the life of a Union doctor during a time when the practice of medicine was still primitive and an understanding of health in general was scanty at best. *Death, Disease, and Life at War* is another valuable piece to the puzzle of understanding what it was like to serve in the Civil War. Meg Groeling, author of *The Aftermath of the Battle: The Burial of the Civil War Dead*.
