## **Fever Twelve Stories:**

*Fever* John Edgar Wideman, 1991-01-01      **Fever** John Edgar Wideman, 1990-10-01 By turns subtle and intense disturbing and elusive the stories in this collection are ultimately connected by themes of memory and loss reality and fabrication and by a richness of language that rests lightly on its carefully foundation      **Philadelphia Stories** Samuel Otter, 2013-01-02 In *Philadelphia Stories* Samuel Otter finds literary value historical significance and political urgency in a sequence of texts written in and about Philadelphia between the Constitution and the Civil War Historians such as Gary B Nash and Julie Winch have chronicled the distinctive social and political space of early national Philadelphia Yet while individual writers such as Charles Brockden Brown Edgar Allan Poe and George Lippard have been linked to Philadelphia no sustained attempt has been made to understand these figures and many others as writing in a tradition tied to the city's history The site of William Penn's Holy Experiment in religious toleration and representative government and of national Declaration and Constitution near the border between slavery and freedom Philadelphia was home to one of the largest and most influential free African American communities in the United States The city was seen by residents and observers as the laboratory for a social experiment with international consequences Philadelphia would be the stage on which racial character would be tested and a possible future for the United States after slavery would be played out It would be the arena in which various residents would or would not demonstrate their capacities to participate in the nation's civic and political life Otter argues that the Philadelphia experiment the term used in the nineteenth century produced a largely unacknowledged literary tradition of peculiar forms and intensities in which verbal performance and social behavior assumed the weight of race and nation      **Colonial and Post-Colonial Incarceration** Graeme Harper, 2001-12-27 The first study to deal extensively and comparatively with capture imprisonment and punishment in colonial and postcolonial cultures Offering textual as well as historical analysis each chapter focuses on a specific national or regional arena Each also provides foundational insight into the social economic and cultural conditions prevalent in colonial societies Chapters written by a wide range of international specialists include coverage of the early modern to the contemporary period as well as coverage of cultural arenas from Europe to Asia Australia northern and southern Africa and North America      *The Oxford Book of American Short Stories* Joyce Carol Oates, 1992 This volume offers a survey of American short fiction in 59 tales that combine classic works with different unexpected gems which invite readers to explore a wealth of important pieces by women and minority writers Authors include Amy Tan Alice Adams David Leavitt and Tim O'Brien      **The Life and Work of John Edgar Wideman** Keith E. Byerman, 2013-08-27 Challenging Successful Controversial All terms used to accurately describe African American novelist and autobiographer John Edgar Wideman This book examines his life and work and the connections between them *The Life and Work of John Edgar Wideman* is ideal for readers who might not be familiar with Wideman's work or those who may have been intimidated by descriptions of his writings Through its coverage of Wideman's life from several generations

back to the present and explanations of how Wideman makes use of life experiences this book breaks down barriers for new readers and enables them to better relate and connect to his writing Author Keith E Byerman discusses Wideman's book length works of fiction and nonfiction as well as some of his shorter journalistic pieces The book emphasizes how Wideman integrates family and personal experience into what is typically labeled postmodern writing and explains how he has evolved as a public intellectual who supplies shrewd commentary on subjects such as the prison system terrorism and the role of sports in American society

*Infectious Rhythm* Barbara Browning, 2013-06-17 Barbara Browning follows the trail of infectious rhythm from the ecstatic percussion of a Brazilian carnival group to the eerily silent video image of the LAPD beating a man like a drum Throughout she identifies the metaphoric strain of contagion which both celebrates the diasporic spread of African culture and serves as the justification for its brutal repression The essays in this book examine both the vital and violent ways in which recent associations have been made between the AIDS pandemic and African diasporic cultural practices including religious worship music dance sculpture painting orature literature and film While pointing to the lengthy and complex history of the metaphor of African contagion Browning argues that in its politicized life affirming embodiment the figure might actually teach us to respond to epidemia humanely

**Schelling's Game Theory** Robert V. Dodge, 2012-02-07 Nobel Prize winner Thomas Schelling taught a course in game theory and rational choice to advanced students and government officials for 45 years In this book Robert Dodge provides in language for a broad audience the concepts that Schelling taught Armed with Schelling's understanding of game theory methods and his approaches to problems the general reader can improve daily decision making

**The Haiti Exception** Alessandra Benedicty-Kokken, Kaiama L. Glover, Mark Schuller, Jhon Picard Byron, 2016-06-01 A collection of essays from international critics that considers the ways and extent of Haiti's exceptionalisation its perception in multiple arenas as definitively unique with respect not only to the countries of the North Atlantic but also to the rest of the Americas

Urban Triage James Kyung-Jin Lee, 2004 In the 1980s America witnessed an explosion in the production popularity and influence of literary works by people of color and a decade long economic downturn that severely affected America's inner cities and the already disadvantaged communities of color that lived there Marked by soaring levels of unemployment homelessness violence drug abuse and despair this urban crisis gave the lie to the American dream particularly when contrasted with the success enjoyed by the era's iconic stockbrokers and other privileged groups whose fortunes increased dramatically under Reaganomics In *Urban Triage* James Kyung Jin Lee explores how these parallel trends of literary celebration and social misery manifested themselves in fictional narratives of racial anxiety by focusing on four key works Alejandro Morales's *The Brick People* John Edgar Wideman's *Philadelphia Fire* Hisaye Yamamoto's *A Fire in Fontana* and Tom Wolfe's *The Bonfire of the Vanities* Each of these fictions he finds addresses the decade's racial ethnic and economic inequities from differing perspectives Morales's revisions of Chicano identity Yamamoto's troubled invocation of the affinities between African Americans and Asian

Americans the problematic connections between black intellectuals and the black community aired by Wideman and Wolfe's satirization of white privilege Drawing on the fields of literary criticism public policy sociology and journalism Lee deftly assesses the success with which these multicultural fictions engaged in the debates over these issues and the extent to which they may actually have alienated the very communities that their creators purported to represent Challenging both the uncritical celebration of abstract multiculturalism and its simplistic vilification Lee roots *Urban Triage* in specific instances of multiracial contact and deeply informed readings of works that have been canonized within ethnic studies and of those that either remain misunderstood or were misguided from the start James Kyung Jin Lee is assistant professor of English and Asian American studies at the University of Texas at Austin *Faithful Vision* James W. Coleman, 2009-08-01

This is a marvelous and sustained discussion of faithful vision and its significant influence on African American literature American Literature In *Faithful Vision* James W. Coleman places under his critical lens a wide array of African American novels written during the last half of the twentieth century In doing so he demonstrates that religious vision not only informs black literature but also serves as a foundation for black culture generally The Judeo-Christian tradition according to Coleman is the primary component of the African American spiritual perspective though its syncretism with voodoo hoodoo a religion transported from West Africa through the West Indies and New Orleans to the rest of black America also figures largely Reviewing novels written mainly since 1950 by writers including James Baldwin Randall Kenan Toni Morrison John Edgar Wideman Alice Walker Gloria Naylor Erna Brodber and Ishmael Reed among others Coleman explores how black authors have addressed the relevance of faith especially as it relates to an oppressive Christian tradition He shows that their novels no matter how critical of the sacred or supernatural or how skeptical the characters' viewpoints ultimately never reject the vision of faith With its focus on religious experience and tradition and its wider discussion of history philosophy gender and postmodernism *Faithful Vision* brings a bold critical dimension to African American literary studies An insightful interrogation of the complexities of religious discourse in the African American literary tradition Because it superbly translates complex spiritual ethos into literary tradition this remarkable book is a must for anyone interested in intersections of the sacred and the secular in black cultural productions Southern Literary Journal *Faithful Vision* both looks intently into faith and shows us how to look Christianity and Literature **Developing an Outstanding Core Collection** Carol Alabaster, 2010-02-26 Carol Alabaster focuses on developing a collection with high quality materials while saving time and money **From Within the Frame** Bertram D. Ashe, 2013-03-07 The book explores the written representation of African American oral storytelling from Charles Chesnutt Zora Neale Hurston and Ralph Ellison to James Alan McPherson Toni Cade Bambara and John Edgar Wideman At its core the book compares the relationship of the frame tale an inside the text storyteller telling a tale to an inside the text listener with the relationship between the outside the text writer and reader The progression is from Chesnutt's 1899 frame texts in which the black spoken voice is contained by a white narrator listener to

Bambara's sixties era example of a frameless spoken voice text to Wideman's neo frame text of the late 20th century

Sovereign Lives Jenny Edkins, Michael J. Shapiro, Veronique Pin-Fat, 2012-10-02 For International Relations scholars discussions of globalization inevitably turn to questions of sovereignty How much control does a country have over its borders people and economy Where does that authority come from *Sovereign Lives* explores these changes through reading of humanitarian intervention human rights discourses securitization refugees the fragmentation of identities and the practices of development
