P. Simpson

Fictive Theories Towards A Deconstructive And Utopian Political Imagination:

Fictive Theories S. McManus, 2005-06-03 *Fictive Theories* is a significant and innovative intervention in key debates in political theory concerning the ways theory should be philosophically grounded and the task that political theory should set itself Susan McManus argues that political theory has been grounded in controlling fictions from fictions of human nature to morals laws that function to close possibility Starting by interrogating the often hidden work of fictions in political theories she argues that all theorizing is a form of world creating Rather than hiding the fictions at work in political theory McManus argues that theory should become self consciously fictive and that there are political and ethical advantages to so doing She then develops a uniquely deconstructive and utopian understanding of the project of political theory grounded in the fictive a creative and future oriented imagination Rather than seeking to provide blueprints of how a polity should be organized fictive theories seek to fabricate futures through the anticipatory articulation of possibility Drawing on a rich range of thinkers from the traditions of political theory Hobbes Rousseau Kant deconstructive theory Roland Barthes Jacques Derrida and utopian studies Ernst Bloch this book will be of interest to researchers teachers and students in the fields of political theory utopian studies literary theory and cultural studies *Fictive Theories* Susan McManus, 2001 **Punk Rock and German Crisis**

C. Shahan, 2013-12-04 1977 is usually associated with West German terrorism but it witnessed another cultural watershed punk music A new reckoning with the legacy of political and aesthetic spaces this book argues the centrality of punk music for understanding crises of state and terrorist violence American racism and German fascism and aesthetic production

Anti-Americanism in European Literature J. Gulddal, 2011-12-19 Pursues the hypothesis that fictional literature has been instrumental in the development and dissemination of European anti Americanism from the early 1800s to today Focusing on Britain France and Germany it offers analyses of a range of canonical literary works in which resentful hostility towards the United States is a predominant feature *The Novel-Essay, 1884-1947* S. Ercolino, 2014-04-08 The novel essay emerged in France in the last quarter of the nineteenth century and reached its highest formal complexity in Austria and Germany during the interwar period Here Ercolino argues that it is crucial for a renovated understating of the history of the novel in modernity **Musical Revolutions in German Culture** M. Hall, 2014-10-23 Drawing upon the philosophical insights of Friedrich Schlegel Walter Benjamin Theodor W Adorno and Blixa Bargeld this book explores the persistence of a critical deconstructive approach to musical production consumption and reception in the German cultural sphere of the last two centuries

German-Jewish Literature in the Wake of the Holocaust P. Bos, 2005-06-03 Combining cultural history and literary analysis this study proposes a new and thought provoking reading of the changing relationship between Germans and Jews following the Holocaust Two Holocaust survivors whose work became uniquely successful in the Germany of the 1980s and 1990s Grete Weil and Ruth Kluger emerge as exemplary in their contributions to a postwar German discussion about the Nazi legacy that had largely excluded living Jews While acknowledging that the German audience for the works of Holocaust

survivors began to change in the 1980s this study disputes the common tendency to interpret this as a sign of greater willingness to confront the Holocaust arguing instead that it resulted from a continued German misreading of Jews criticisms By tracing the particular cultural political impact that Weil s and Kluger s works had on their German audience it investigates the paradox of Germany s confronting the Holocaust without necessarily confronting the Jews as Germans Furthermore for the authors this literature also had a psychological impact their return to the German language and to Germany is read not as an act of mourning or nostalgia but rather as a public call to Germans for a dialogue about the Nazi past as a way to move into the public realm the private emotional and psychological battles resulting from German Jews exclusion from and persecution by their own national community *German Postwar Films* W. Wilms,W. Rasch,2008-11-24 This volume offers a cultural aesthetic and critical reappraisal of German rubble films produced in the immediate aftermath of the Second World War and constructs their meaning in a historical context Local History, Transnational Memory in the Romanian Holocaust V. Glajar,J. Teodorescu,2011-04-25 This book explores the memory of the Romanian Holocaust in Romanian German Israeli and French cultural representations The essays in this volume discuss first hand testimonial accounts letters journals drawings literary texts and films by Elie Wiesel Paul Celan Aharon Appelfeld Norman Manea Radu Mihaileanu among others Transformations of the New Germany R. Starkman,2006-02-04 This collection demonstrates the persistence of the initial anxieties about a united Germany and its rapid absorption of the German Democratic Republic and also suggests a potential optimism that despite much contemporary domestic disenchantment the new Germany continues to thrive as a European democracy endeavouring to confront its past *The Transition to Sustainable Living and Practice* Liam Leonard,John Barry,2009-12-21 Offers a series of insights into real alternatives to the economic malaise with an examination of key themes such as transition towns traditional villages new green financial concepts the sustainable utopia sustainability and activism ecofeminism green protectionism intentional communities and a green philosophy of money **German Unification** P. Caldwell,R. Shandley,2011-10-10 This wide ranging collection brings together contributions from historians political scientists policymakers and others to provide much needed perspective on the unification of Germany as it actually played out in real historical time Weimar Culture Revisited J. Williams,2011-01-31 Weimar Culture Revisited is the first book to offer an accessible cross section of new cultural history approaches to the Weimar Republic This collection uses an interdisciplinary approach and focuses on the everyday workings of Weimar culture to explain the impact and meaning of culture for German s everyday lives during this fateful era The Turkish Turn in Contemporary German Literature L. Adelson,2005-08-19 Challenging the commonplace that suspends migrants between two worlds this study turns a refreshingly curious eye to complex cultural relations and literary novelties wrought by Turkish migration to Germany At interpretive and historic crossroads involving dialogue and storytelling genocide and taboo and capital and labour in the 1990s This book illuminates far reaching imaginative effects that literatures of migration can engender In critical

conversation with Arjun Appadurai Seyla Benhabib Homi Bhabha Rey Chow Andreas Huyssen Dominick LaCapra Doris Sommer and many others Adelson probes history and aesthetics as surprisingly twinned indices of national and global transformation at the millennial turn

Exile, Science and Bildung D. Kettler, G. Lauer, 2016-09-23 The history of American universities is punctuated by shifts in the terms on which the mission of higher education is defined and debated A dramatic moment with lasting effects came with the introduction of German speaking exile intellectuals in the Hitler era In Germany the academic culture of the early twentieth century was torn by the struggle between Wissenschaft and Bildung two symbolic German terms whose lack of precise English equivalents is a sign of the different configuration in America The studies in this book examine the achievements of numerous influential migr intellectuals against the background of their mediation between the two cultural traditions in science and liberal studies In showing the richness of reciprocal influences the book challenges claims about the disruptive influence of exile culture on the American mind

Power, Resistance and Conflict in the Contemporary World Athina Karatzogianni, Andrew Robinson, 2009-10-16 Examines the operation of network forms of organization in social resistance movements in relation to the integration of the world system the intersection of networks and the possibility of social transformation

Fascism and Neofascism E. Weitz, A. Fenner, 2016-09-27 The dramatic transformations of the the 1990s the end of the Cold War the establishment of political liberties and market economies in Eastern Europe German unification quickly led commentators to proclaim the end of all ideologies and the complete triumph of liberal capitalism Just as quickly however right wing extremism began a surge in Europe that has not significantly abated to this day Fascism and Neofascism is a collection of essays that is distinctive in two important ways First unlike most volumes which cover either historical fascism or the recent radical right Fascism and Neofascism spans both periods Secondly this volume also aims to bring newer modes of inquiry rooted in cultural studies into dialogue with more traditional ways of viewing fascism The editors approach is deliberately interdisciplinary even eclectic

Russians in Britain Jonathan Pitches, 2012-03-12 From Komisarjevsky in the 1920s to Cheek by Jowl s Russian sister company almost a century later Russian actor training has had a unique influence on modern British theatre Russians in Britain edited by Jonathan Pitches is the first work of its type to identify a relationship between both countries theatrical traditions as continuous as it is complex Unravelling new strands of transmission and translation linking the great Russian migr practitioners to the second and third generation artists who responded to their ideas Russians in Britain takes in Komisarjevsky and the British theatre establishment Stanislavsky in the British conservatoire Meyerhold in the academy Michael Chekhov in the private studio Littlewood s Theatre Workshop and the Northern Stage Ensemble Katie Mitchell Declan Donnellan and Michael Boyd Charting a hitherto untold story with historical and contemporary implications these nine essays present a compelling alternative history of theatrical practice in the UK

Reimagining the European Family P. Simpson, 2013-12-18 Re imagining the Family explores contemporary films and literature about the effects of legal and illegal

immigration on the structure and the stories of the contemporary European family with a focus on Germany *Germans, Poland, and Colonial Expansion to the East* R. Nelson, 2009-02-02 This incisive collection probes the history of colonialism within Europe and posits that Eastern Europe was in fact Germany's true colonial empire Through a series of interdisciplinary essays ranging from 1850 to the European Union of today this collection explores the idea that Germany's relationship with Poland and Eastern Europe had many similarities to the practice of overseas colonialism As the contributing scholars aptly demonstrate the history of Germany's relationship with Poland contains all the trappings of the classic colonial encounter from its structures of power and control racism and cultural chauvinism to the implementation of wholesale scientific experimentation in a lawless environment
