Field Guide To The Invisible:

A Field Guide to the Invisible Wayne Biddle, 1998-05-15 In this witty and captivating blend of science humor metaphysics and popular culture a Pulitzer Prize winning author catalogs the invisible sphere that surrounds us Much of everyday experience takes place beyond the range of our senses And in our contemporary predicament where so much seems beyond personal control what is invisible generates an index of what we are A Field Guide to the Invisible is a layman's guide to the inescapable stew we're in a thought provoking catalogue of life's ingredients that are literally out of sight and therefore too often out of mind In medieval times everyone knew the air was rife with menacing spirits the souls of unbaptized babies graveyard ghouls winged demons who could rip the unwary from the world of the senses In our own age of chronic low dose exposure to sundry radiations of infections from exotic microbes of a biosphere so radically changed by the hand of man that the natural protections it once provided are no longer assured it is still the invisible that worries us most A Field Guide to the Invisible maps points in a parallel world ignored at our peril that we inhabit simultaneously with the one before our very eyes
