Gascoigne, 2017-03-08 While much research has been done on experiential learning opportunities in study abroad settings

providing a collection of chapters highlighting research based innovations in experiential learning in domestic settings The  
book focuses on three experiential learning contexts community engagement experiences professional engagement  
experiences and other unique experiential contexts such as language camps and houses The collection focuses on the US  
context but the research projects and curricular innovations described here can serve as models for educators working in  
other local contexts and will encourage interested practitioners to explore experiential learning opportunities in their local  
areas It will also provide the reader with a better understanding of this growing field of inquiry and should appeal to
