government produced no clear media guidelines for dealing with world crises and media coverage increasingly came to be focused on domestic conflicts rather than international ones In the absence of a clearly defined threat no dominant media frame replaced the time worn Cold War in media reporting Mass media has been recognized as an important intermediary between the government and the population In this context this study examines network coverage of seven post Cold War crises ranging from Cuba to Mexico occurring in the Caribbean Basin between 1990 and 1996 to evaluate the framing of these events by the various media covering them In providing context for understanding these crises this examination reviews U S policy in each case and discovers a strong correlation between the level of U S involvement in the crisis and the amount of media attention generated By appearing on the news or not the president along with key Cabinet members were able to define whether an event constituted a crisis for the United States In instances where the media received little guidance from Washington officials on the implications for the United States the media did attempt to provide explanations of events however coverage tended to be minimal Case studies include the recording and coding of language used as positive negative and neutral ambiguous

When Media Goes to War Anthony DiMaggio, 2010-02-01 In this fresh and provocative book Anthony DiMaggio uses the war in Iraq and the United States confrontations with Iran as his touchstones to probe the sometimes fine line between news and propaganda Using Antonio Gramsci s concept of hegemony and drawing upon the seminal works of Noam Chomsky Edward Herman and Robert McChesney DiMaggio combines a rigorous empirical analysis and clear lucid prose to enlighten readers about issues essential to the struggle for a critical media and a functioning democracy If as DiMaggio shows our newspapers and television news
