Rethinking the Theatre of the Absurd Carl Lavery,Clare Finburgh Delijani,2015-11-05 Rethinking the Theatre of the Absurd is an innovative collection of essays written by leading scholars in the fields of theatre performance and eco criticism which reconfigures absurdist theatre through the optics of ecology and environment As well as offering strikingly new interpretations of the work of canonical playwrights such as Beckett Genet Ionesco Adamov Albee Kafka Pinter Shepard and Churchill the book playfully mimics the structure of Martin Esslin s classic text The Theatre of the Absurd which is commonly recognised as one of the most important scholarly publications of the 20th century By reading absurdist drama for the first time as an emergent form of ecological theatre Rethinking the Theatre of the Absurd interrogates afresh the very meaning of absurdism for 21st century audiences while at the same time making a significant contribution to the development of theatre and performance studies as a whole The collection s interdisciplinary approach accessibility and ecological focus will appeal to students and academics in a number of different fields including theatre performance English French geography and philosophy It will also have a major impact on the new cross disciplinary paradigm of eco criticism

Atrocity, Punishment, and International Law Mark A. Drumbl,2007-04-30 This book argues that accountability for extraordinary atrocity crimes should not uncritically adopt the methods and assumptions of ordinary liberal criminal law Criminal punishment designed for common criminals is a response to mass atrocity and a device to promote justice in its aftermath This book comes to this conclusion after reviewing the sentencing practices of international national and local

courts and tribunals that punish atrocity perpetrators Sentencing practices of these institutions fail to attain the goals that international criminal law ascribes to punishment in particular retribution and deterrence Fresh thinking is necessary to confront the collective nature of mass atrocity and the disturbing reality that individual membership in group based killings is often not maladaptive or deviant behavior but rather adaptive or conformist behavior This book turns to a modern and adventurously pluralist application of classical notions of cosmopolitanism to advance the frame of international criminal law to a broader construction of atrocity law and towards an interdisciplinary contextual and multicultural conception of justice

The Hungarian Nominal Functional Sequence Éva Dékány, 2021-03-09 The Hungarian Nominal Functional Sequence combines the methods of syntactic cartography with evidence from compositional semantics in a comprehensive exploration of the structure of Noun Phrases Proceeding from the lexical core to the top of DP it uses

Hungarian as a window on the underlying universal functional hierarchy of Noun Phrases but it also regularly complements and supports the analysis with cross linguistic evidence The book works out a minimal map of the extended NP in the sense that the proposed hierarchy only has projections which host overt material and it does not draw on semantically empty word order projections Topics which receive special attention include the syntax of classifiers demonstratives proper names possessive NPs and plural pronouns
