Hollywood Sports Movies and the American Dream Grant Wietenfeld,2022 Through the heart of Hollywood cinema runs an unexpected current of progressive politics Sports movies a genre that has flourished since the mid seventies evoke the American dream and therefore represent the nation to itself in idealized form Once considered mere credos for Reaganism s fantasies of an atomized society movies from Rocky 1976 to Ali 2001 dream of democratic participation and recognition more than individual success for in every case off field relationships take precedence over on field competition Arranged chronologically Hollywood Sports Films and the American Dream is a critical study of six major sports films that re tells the story of multiculturalism s gradual adoption in the latter third of the 20th century and rewrites contemporary understandings of the sports film For author Grant Wietenfeld the mainstream s first minority heroes are paradoxically white ethnic rural working class men exemplified by Rocky Slap Shot 1977 and The Natural 1984 and Black brown and women characters follow in White Men Can t Jump 1992 A League of Their Own 1992 and Ali But despite their insistence on community and diversity these popular dramas show limited faith in civic institutions and point to the limits of inclusion and participation in the post Civil Rights era Hannah Arendt Jeffrey Alexander and others inform Wietenfeld s original analysis and commentary on the political significance of popular culture as he insists on the cinema s capabilities as an engine for democracy untethered from more conventional democratic institutions Reading these familiar movies from another angle paints a fresh picture of how the United States has imagined democracy since its bicentennial and renews the political efficacy of one of the most popular genres in film history Alternatives in Print ,1977 , *The Bahá'í Faith and African American Studies* Layli Maparyan,Loni Bramson,2023-01-09 The Baha i Faith and African American Studies Perspectives on Racial Justice provides readers who may already have basic or even advanced familiarity with the struggle for racial justice in

Cope, 1996-12-31 Included in this collection of documents from the twentieth century ecumenical movement are passages from texts produced by assemblies conferences and studies of the World Council of Churches and similar bodies covering three areas of historical concern within modern ecumenism faith and order life and work and mission and evangelism **A Theology of Power and Privilege** Joseph Caldwell, 2024-08-22 A Theology of Power and Privilege makes the bold assumption that it is possible to develop an antiracist theology within a constructive evangelical theological method It examines Black Liberation Theology's claims of embedded racism within White theological systems and then asks both if Reformed North American Evangelicalism evidences racism within its theology and if so how might that be addressed biblically and doctrinally while remaining true to the theological essence of evangelicalism Along the way the author engages critically with an evangelical tradition represented by John Calvin Jonathan Edwards Charles Hobbs and Carl F H Henry and considers it in the light of the critique of James Cone Having identified racism within the theological tradition the author then offers a constructive evangelical theology of power and privilege that he accesses as truly antiracist In pursuit of this theological conclusion the author explores biblical texts on liberation subjection and obedience and applies his conclusions to constructive work on the Doctrine of God This is done within an evangelical hermeneutical methodology that privileges the biblical text This book will be of interest to evangelicals who are engaged in debates around race racism and social justice either theologically or historically and theologians generally interested in the application of hermeneutics to theological method It will also be of interest to anyone regardless of tradition as a guide to how white theologians can take seriously the contributions and value of the Black intellectual tradition to their work **Race and Racialization** Tania Das Gupta, 2007 This provocative volume will influence the way people think of race and racialization It provides a thorough examination of these complex and intriguing subjects with historical comparative and international contributions Edited as a theoretically strong cohesive whole this book unites a remarkable ensemble of academic thinkers and writers from a diversity of backgrounds Themes of ethnocentrism cultural genocide conquest and colonization disease and pandemics slavery and the social construction of racism run throughout *What went wrong with Britain?* Steven Kettell, Peter Kerr, Daniela Tepe, 2025-07-22 A unflinching audit of the damage done by fourteen years of Conservative government What went wrong with Britain presents a comprehensive account of the devastating legacy left by the Conservative government Shining a light into every dark corner the book exposes the full extent of the damage inflicted on the country's economy social fabric and political integrity When the Conservatives were voted out of government in July 2024 they left behind a miserable record of rising poverty inequality and division This book reveals the forces that have driven the country to the point of crisis from austerity and economic mismanagement to sheer political dysfunction Each chapter offers new insights into the far reaching consequences of government policies that prioritised ideology personal ambition and party politics over the public good Examining the rise of

populism the politics of Brexit the UK's response to the pandemic and the steady erosion of public trust this shocking account of the legacy of Conservative government from 2010 to 2024 is a must read for anyone who wants to understand exactly what went wrong with Britain *Routledge International Handbook of Contemporary Racisms* John Solomos, 2020-02-25

The study of contemporary forms of racism has expanded greatly over the past four decades Although it has been a focus for scholarship and research for the past three centuries it is perhaps over this more recent period that we have seen important transformations in the analytical frames and methods to explore the changing patterns of contemporary racisms The Routledge International Handbook of Contemporary Racisms brings together thirty four original chapters from international experts that address key features of contemporary racisms The Handbook has a truly global orientation and covers contemporary racisms in both the western and non western geopolitical environments In terms of structure the volume is organized into ten interlinked parts that include Theories and Histories Contemporary Racisms in Global Perspective Racism and the State Racist Movements and Ideologies Anti Racisms Racism and Nationalism Intersections of Race and Gender Racism Culture and Religion Methods of Studying Contemporary Racisms and the End of Racism These parts contain chapters that draw on original theoretical and empirical research to address the evolution and changing forms of contemporary racism The Handbook is framed by a General Introduction and by short introductions to each part that provide an overview of key themes and concerns Written in a clear and direct style and from a conceptual multidisciplinary and international perspective the Handbook will provide students scholars and practitioners with an overview of the most pressing issues of Racisms in our time
