Kevin Harrison, Tony Boyd

Georges Sorel His Thoughts And Works:

Georges Sorel-His Thoughts and Works Georges Sorel, Mukherjee S., S. Ramaswamy, 1998-10-31 Biographical Dictionary of Literary Influences John Powell, 2000-10-30 Over the past two decades the process of cultural development and in particular the role of reading has been of growing interest but recent research has been episodic and idiosyncratic In this biographical dictionary research devoted specifically to the reading habits of 19th century individuals who shaped Western culture is brought together for the first time While giving prominent coverage to literary and political figures the volume s 270 entries also include musicians painters educators and explorers Each entry includes brief biographical information a concise summary of literary influences on the subject and clear direction for further research The book provides a practical tool for scholars wishing to trace the reading experience of important Western cultural figures Subjects were selected from the people most responsible for the cultural development of Europe Britain and the British Empire and the Americas between 1800 and 1914 Although selective the sample of 270 figures is substantial enough to suggest broad cross cultural habits and effects enabling scholars to better understand the relationship between reading and culture In an introductory essay Powell explores the patterns and relationships that can be discerned from the entries The first of three anticipated volumes the book is an important step forward in researching the role of reading in cultural development **Truth and Ideology** Hans Barth, 2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 **Political Symbolism in Modern Europe** Seymour Drescher, 2020-07-24 By collectively concentrating on the theme of political symbolism in modern Europe the contributors to this volume have chosen to honor a revered teacher and colleague by developing a set of variations on one of his primary scholarly concerns The essays deal with familiar domains in the history of European culture religion science philosophy theater popular culture and social ideologies They attempt to focus on their individual subjects as studies of the ways in which the terms of cultural discourse have been shaped and elaborated by social position and the inherently political nature of such discourse The essays also trace attempts to capture assent or compliance to particular world views which have had profound cultural and political consequences Many essays deal with the vocabularies of strategically located elites consciously or unconsciously shaping discourse to enhance their role in the European social hierarchy Others turn to the problem of the dynamics of symbolic reception and reception by popular audiences A third group of thematic essays deals with case studies of world views dominated by political metaphors of group identity and differentiation which became dominant in Western Europe toward the end of the nineteenth century class nation sex age and race The essays in the volume deal with George Mosse and political symbolism the medical model of cultural crisis in fin de siècle France cultural uses of fatigue in the nineteenth century Mar

burg neo Kantian thought and German popular culture the Ostjude as a cultural symbol in German anti-Semitism the function of myth and symbol in Georges Sorel feminism and eugenics in Edwardian England Darwinism and the working class in Germany science and religion in early modern Europe popular theater and socialism in fin de siècle France political symbolism in the paintings of the German war of liberation generational discourse in pre World War I France and cultural implications of national socialist religion **Fitzroy Dearborn Chronology of Ideas** Melinda Corey, George

Ochoa, 2013-07-04 The Code of Hammurabi Martin Luther's Ninety-five Theses The radical notions that launched the French Revolution The beliefs that propelled the American Civil Rights movement These are only a few of the thousands of concepts described in this remarkable chronicle of intellectual history Presenting the ideas of philosophers prophets scholars critics educators revolutionaries and reformers the Fitzroy Dearborn Chronology of Ideas concentrates on the famous as well as infamous concepts that have changed the world Here too are the historical turning points that resulted from the application of those ideas the natural flow of the American Revolution from the concept of democratic liberalism for example or the Russian Revolution from Marxism **Persuasions and Prejudices** Irving Louis Horowitz, 1989-01-01 With the presumption that review essays and statements written for special occasions may reveal as much about the writer as those written about Irving Louis Horowitz has collected thirty-five years of his criticism and commentary Included are comments on the famous near famous and infamous sociologists political scientists and assorted literary figures in between Taken as a whole this volume will surprise and delight readers who are acquainted with Horowitz's other works as well as those who are interested in the people he writes about Written with characteristic verve and nerve these statements sometimes combine two or more reviews into one statement often of substantial length Altogether the collection gives a picture of twentieth-century social science as an ongoing dialogue within itself about the nature of social reality as well as the nature of the disciplines seeking to define that reality The results are sometimes serious other times amusing but uniformly compelling The book covers Arendt to Zetterberg and such major figures in between as Becker Bell de Jouvenel Mills Parsons Solzhenitsyn and more than eighty other leading lights who have had an effect on the contemporary social landscape All are critically examined sometimes positively other times negatively Long recognized as a major figure in his own right Horowitz writes with the kind of refreshing frankness experts will appreciate and the general reader will understand The underlying assumption behind the volume giving its disparate parts a unified characteristic is that together these observations on others amount to a general theory of social science held by the author Whether his larger ambition is accepted or disputed there is no doubt that the volume provides a standard against which to measure the literary quality of reviewing in the world of professional social research *Toward the Critique of Violence* Walter Benjamin, 2021-06-22 Marking the centenary of Walter Benjamin's immensely influential essay *Toward the Critique of Violence* this critical edition presents readers with an altogether new fully annotated translation of a work that is widely recognized as a classic of modern political theory The volume includes twenty

one notes and fragments by Benjamin along with passages from all of the contemporaneous texts to which his essay refers. Readers thus encounter for the first time in English provocative arguments about law and violence advanced by Hermann Cohen, Kurt Hiller, Erich Unger, and Emil Lederer. A new translation of selections from Georges Sorel's *Reflections on Violence* further illuminates Benjamin's critical program. The volume also includes for the first time in any language a bibliography Benjamin drafted for the expansion of the essay and the development of a corresponding philosophy of law. An extensive introduction and afterword provide additional context. With its challenging argument concerning violence, law, and justice, which addresses such topical matters as police violence, the death penalty, and the ambiguous force of religion, Benjamin's work is as important today as it was upon its publication in Weimar Germany a century ago.

Understanding political ideas and movements Kevin Harrison, Tony Boyd, 2018-07-30. This electronic version has been made available under a Creative Commons BY-NC-ND open access license. Written specifically to cover the A2 component of the GCE Government and Politics A level. Provides a comprehensive introduction to the various political ideas and movements that have shaped the modern world. Underpinned by the work of major thinkers such as Marx, Locke, Weber, Hobbes, and Foucault, the book examines political concepts including the state and sovereignty, the nation and democracy, representation and legitimacy, freedom, equality, and rights, obligation and citizenship. Addresses traditional theoretical subjects such as socialism, Marxism, and nationalism, as well as contemporary movements such as environmentalism, ecogism, and feminism. Written in a clear, accessible style, including a number of student-friendly features such as chapter summaries, key points to consider, definitions, and pointers to further sources of information.

Georges Sorel's Study on Vico Eric Brandom, Tommaso Giordani, 2019-12-09. Georges Sorel's *Study on Vico* is a revelatory document of the depths and stakes of French social thought at the end of the 19th century. What brought Sorel to the 18th-century Neapolitan theorist of history? Acute awareness of the limitations of Marxist thought in his day, a profound concern with the material underpinnings of language, law, and culture, and the imperative to understand the possibilities of revolutionary change. We find here a different Sorel, one who speaks in surprising ways to the 21st century. The translation is accompanied by an introduction and by a set of notes which situate the text both in Sorel's overall intellectual trajectory and in the fin de siècle debates from which it emerged.

The Routledge Dictionary of Twentieth-Century Political Thinkers Robert Benewick, Philip Green, 2002-09-11. This edition has been revised and extended to include eleven new entries on Berlin, Chomsky, Derrida, Rorty, and many others. Comprising 169 entries, it also includes non-Western political thinkers.

The 20th Century O-Z Frank N. Magill, 2013-05-13. Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an

historical context and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

Mainlining Marx John L. Stanley, 2018-01-16 In recent years a host of Western Marxists have tried to emancipate Marx from responsibility for various unsavory doctrines. Political theorists have argued that Marx can avoid the weight of Stalinism and also the various theories such as positivism, naturalism, Darwinism, technological determinism and the dialectics of nature that support Marxism. In the course of building up their defense of Marx, these modern critics have developed an elaborate but often confusing rationale whose premise consists of attributing many of the nefarious tendencies of Marxism to Engels, particularly the latter's philosophy of nature. In *Mainlining Marx*, John L. Stanley sets Marx's view of nature back in its proper perspective. Stanley challenges the new orthodoxy of prominent Marxist scholars who see a fundamental dichotomy between Marx and Engels, with the latter believing in cosmic superlaws and the former adhering to historically grounded ones. Stanley argues both Marx and Engels used historical and transhistorical laws at various times. He is highly critical of those who abstract theoretical principles out of texts Marx wrote with specific and historical political goals in mind. He takes issue as well with critics who posit a Marxian belief in communism as against natural needs and further challenges the new orthodoxy in his analysis of Marx's dissertation, showing that from the beginning Marx's thought was grounded in materialist determinism. Supplementing the chapters on Marx and his critics, the volume concludes with an essay on Georges Sorel's approach to textual analysis and interpretation, showing how Sorel far in advance of his time realized the impossibility of completely objective analysis and the inevitable distortion of the subject under study. Throughout this volume, Stanley's critical approach utilizes Sorel's illuminating insights to point out the distortions in modern Marxian analysis. Challenging and original, *Mainlining Marx* is a major contribution to the study of Marxism. It will be read by economists, political scientists and intellectual historians.

Dictionary of World Biography: The 20th century, O-Z Frank Northen Magill, Christina J. Moose, Alison Aves, 1999-11 Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

Piero Gobetti's New World David Ward, 2010-01-01 Piero Gobetti's *New World* is both an introduction to Gobetti's thought and an in-depth study of the three main questions on which his writings focus: the relationship between Italian history and fascism, the nature of a genuine antifascist political culture and the crisis of Italian liberalism in his day.

Transformations of Populism in Europe and the Americas John Abromeit, York Norman, Gary Marotta, Bridget Maria Chesterton, 2015-11-19 The recent resurgence of populist movements and parties has led to a revival

of scholarly interest in populism This volume brings together well established and new scholars to reassess the subject and combine historical and theoretical perspectives to shed new light on the history of the subject as well as enriching contemporary discussions In three parts the contributors explore the history of populism in different regions theories of populism and recent populist movements Taken together the contributions included in this book represent the most comprehensive and wide ranging study of the topic to date Questions addressed include What are the essential characteristics of populism Is it important to distinguish between left and right wing populism How can the transformation of populist movements be explained This is the most thorough and up to date comparative historical study of populism available As such it will be of great value to anyone researching or studying the topic *The Early Church at Work and Worship - Volume 2* Everett Ferguson, 2014-06-27 This is the second volume of Ferguson s collected essays and includes some of his most memorable work especially on laying on of hands **The Early Church at Work and Worship, Vol II** Everett Ferguson, 2014-12-25 This is the second volume of Ferguson s collected essays and includes some of his most memorable work **The Ricardian Socialists** Esther Lowenthal, 1912 Universal Foreigner: The Individual And The World Robert W Cox, 2013-11-15 The book shows one individual s the author experience of the world through contacts with government officials and scholars in the Middle East and Asia Europe and Latin America during the post Second World War years up to the later 1960s and then that individual s reflections and study during the succeeding decades up to and including the first decade of the 21st century concerning the future of the world and the critical choices that confront the world both in inter state relations and in maintaining the security of the biosphere **The University Magazine** McGill University, 1907
