Georges Bataille and Contemporary Thought Will Stronge, 2017-10-19 Georges Bataille s influence upon 20th century philosophy is hard to overstate His writing has transfixed his readers for decades exerting a powerful influence upon Foucault Blanchot and Derrida amongst many others Today Bataille continues to be an important reference for many of today s leading theorists

such as Giorgio Agamben Roberto Esposito Jean Luc Nancy and Adrianna Caverero His work is a unique and enigmatic combination of mystical phenomenology politics anthropology and economic theory sometimes adopting the form of literature sometimes that of ontology This is the first book to take Bataille s ambitious and unfinished Accursed Share project as its thematic guide with individual contributors isolating themes concepts or sections from within the three volumes and taking them in different directions Therefore as well as providing readings of Bataille s key concepts such as animality sovereignty catastrophe and the sacred this collection aims to explore new terrain and new theoretical problems Georges Bataille and Contemporary Thought acts simultaneously as a companion to Bataille s three volume secular theodicy and as a laboratory for new syntheses within his thought

Georges Bataille Rodolphe Gasché, 2012-10-24 This book investigates what Bataille in The Pineal Eye calls mythological representation the mythological anthropology with which this unusual thinker wished to outflank and undo scientific and philosophical anthropology Gasché probes that anthropology by situating Bataille s thought with respect to the quaternumvirate of Schelling Hegel Nietzsche and Freud He begins by showing what Bataille s understanding of the mythological owes to Schelling Drawing on Hegel Nietzsche and Freud he then explores the notion of image that constitutes the sort of representation that Bataille s innovative approach entails Gasché concludes that Bataille s mythological anthropology takes on Hegel s phenomenology in a systematic fashion By reading it backwards he not only dismantles its architecture he also ties each level to the preceding one replacing the idealities of philosophy with the phantasmatic representations of what he dubs low materialism Phenomenology Gasché argues thus paves the way for a new science of phantasms

Eroticizing Aesthetics Tim Themi, 2021-06-03 Bringing together Bataille with Lacan and Nietzsche Tim Themi examines the role of aesthetics implicit in each and how this invokes an erotic process celebrating the real of what is usually excluded from articulation Bataille came to deem eroticism as the standpoint from which to grasp humanity as a whole based on his understanding of our transition to humanity being founded on a series of taboos placed on inner animality An erotic outlet for the latter was historically the aesthetic dimensions of our religions but Bataille s view of how this was gradually diminished has much in keeping with Nietzsche s critique of Christian Platonic dualism and Lacan s of the desexualised Good of Western metaphysics Building from these often surprising proximities Themi closely examines Bataille s many interventions into the history of aesthetics from his confrontations with Breton s surrealism to his own novels and encounter with the animal cave paintings of Lascaux radically re illuminating the corollary phenomena of Dionysos in Nietzsche s philosophy and the

jouissance enjoyment of transgression in the psychoanalysis of Lacan A new ethical criterion for aesthetic works and creations on this basis becomes possible

Threshold Rob Doyle, 2020-01-23 A wild sleazy drug filled odyssey Doyle's maverick novel deserves the accolades coming its way Independent The best work to date from a writer who gets better and better with each release Irish Independent A masterclass in what not to do New Statesman His best book so far riddling irreverent fearless TLS Rob has spent most of his confusing adult life wandering writing and imbibing literature and narcotics in equally vast doses Now stranded between reckless youth and middle age between exaltation and despair his travels have acquired a de facto purpose the immemorial quest for transcendent meaning On a lurid pilgrimage for cheap thrills and universal truth Doyle's narrator takes us from the menacing peripheries of Paris to the drug fuelled clubland of Berlin from art festivals to sun kissed islands through metaphysical awakenings in Asia and the brink of destruction in Europe into the shattering revelations brought on by the psychedelic DMT A dazzling intimate and profound celebration of art and ageing sex and desire the limits of thought and the extremes of sensation Threshold confirms Doyle as one of the most original writers in contemporary literature

The Phantom of the Ego Nidesh Lawtoo, 2013-10-01 The Phantom of the Ego is the first comparative study that shows how the modernist account of the unconscious anticipates contemporary discoveries about the importance of mimesis in the formation of subjectivity Rather than beginning with Sigmund Freud as the father of modernism Nidesh Lawtoo starts with Friedrich Nietzsche's antimetaphysical diagnostic of the ego his realization that mimetic reflexes from sympathy to hypnosis to contagion to crowd behavior move the soul and his insistence that psychology informs philosophical reflection Through a transdisciplinary comparative reading of landmark modernist authors like Nietzsche Joseph Conrad D H Lawrence and Georges Bataille Lawtoo shows that before being a timely empirical discovery the mimetic unconscious emerged from an untimely current in literary and philosophical modernism This book traces the psychological ethical political and cultural implications of the realization that the modern ego is born out of the spirit of imitation it is thus strictly speaking not an ego but what Nietzsche calls a phantom of the ego The Phantom of the Ego opens up a Nietzschean back door to the unconscious that has mimesis rather than dreams as its via regia and argues that the modernist account of the mimetic unconscious makes our understanding of the psyche new

Philosophizing Madness from Nietzsche to Derrida Angelos Evangelou, 2017-08-12 Drawing connections between madness philosophy and autobiography this book addresses the question of how Nietzsche's madness might have affected his later works It also explores why continental philosophy after Nietzsche is so fascinated with madness and how it re considers re evaluates and re valorizes madness To answer these questions the book analyzes the work of three major figures in twentieth century French philosophy who were significantly influenced by Nietzsche Bataille Foucault and Derrida examining the ways in which their responses to Nietzsche's madness determine how they understand philosophy as well as philosophy's relation to madness For these philosophers posing the question about madness renders the philosophical subject vulnerable and

implicates it in a state of responsibility towards that about which it asks Out of this analysis of their engagement with the question of madness emerges a new conception of autobiographical philosophy which entails the insertion of this vulnerable subject into the philosophical work to which each of these philosophers adheres or resists in different ways *TASTE* Andrea Pavoni, Danilo Mandic, Caterina Nirta, Andreas Philippopoulos-Mihalopoulos, 2018-07-25 Taste usually occupies the bottom of the sensorial hierarchy as the quintessentially hedonistic sense too close to the animal the elemental and the corporeal and for this reason disciplined and moralised At the same time taste is indissolubly tied to knowledge To taste is to discriminate emit judgement enter an unstable domain of synaesthetic normativity where the certainty of metaphysical categories begins to crumble This second title in the Law and the Senses series explores law using taste as a conceptual and ontological category able to unsettle legal certainties and a promising tool whereby to investigate the materiality of law s relation to the world For what else is law s reduction of the world into legal categories if not law s ingesting the world by tasting it and emitting moral and legal judgements accordingly Through various topics including coffee wine craft cider and Japanese knotweed this volume explores the normativities that shape the way taste is felt and categorised within and beyond subjective phenomenological and human dimensions The result is an original interdisciplinary volume complete with seven speculative recipes dedicated to a rarely explored intersection with contributions from artists legal academics philosophers anthropologists and sociologists **Gordon Matta-Clark** Antonio Sergio Bessa, Jessamyn Fiore, 2017-01-01 This revealing book looks at the groundbreaking work of Gordon Matta Clark 1943 1978 whose socially conscious practice blurred the boundaries between contemporary art and architecture After completing a degree in architecture at Cornell University Matta Clark returned to his home city of New York where he initiated a series of site specific works in derelict areas of the South Bronx The borough s many abandoned buildings the result of economic decline and middle class flight served as Matta Clark s raw material His series Bronx Floors dissected these structures performing an anatomical study of their ravaged urban landscape Moving from New York to Paris with Conical Interserct a piece that became emblematic of artistic protest Matta Clark applied this same method to a pair of seventeenth century row houses slated for demolition as a result of the Centre Pompidou s construction This compelling volume grounds Matta Clark s practice against the framework of architectural and urban history stressing his pioneering activist inspired approach as well as his contribution to the nascent fields of social practice and relational aesthetics Architecture Martin van der Linden, 2021-03-12 The question of what architecture is answered in this book with one sentence Architecture is space created for human activities The basic need to find food and water places these activities within a larger spatial field Humans have learned and found ways to adjust to the various contextual difficulties that they faced as they roamed the earth Thus rather than adapting humans have always tried to change the context to their activities Humanity has looked at the context not merely as a limitation but rather as a spatial situation filled with opportunities that allows through intellectual interaction to change these limitations Thus humanity has

created within the world their own contextual bubble that firmly stands against the larger context it is set in The key notion of the book is that architecture is space carved out of and against the context and that this process is deterministic

Metaphors of Economy, 2016-08-01 In recent years the metaphor of economy has proved to have an immense explanatory power in literary and cultural criticism Everything can be expressed and analysed in terms borrowed from political economy Language texts social structures and cultural relationships can be construed in the dynamic terms made available by the metaphor of economy and more specifically the economy of the metaphor The metaphor of economy allows to show the dynamic processes of exchange circulation and interested negotiation The essays in this volume display approaches to cultural and discursive practices derived from the methods and texts of economics They provide a body of literary and cultural criticism founded upon economic paradigms which makes apparent the genealogy of our economic thought and the suggestion that looking at human exchange can enrich our understanding of culture The interest of this volume is manifold it gives a historical account of the development of economics elucidates the emergence of theories governed by economic metaphors and clarifies the impact of the metaphor on theories of textuality It also provides an exchange between economists and literary and cultural critics by combining literary and cultural criticism with economics and covers a wide range of topics which are of interest to scholars from various disciplines This volume provides a critical exchange which hopes to enrich both economics and literature

Negative Certainties Jean-Luc Marion, 2020-10-28 Now in paperback Jean Luc Marion's groundbreaking philosophy of human uncertainty In *Negative Certainties* renowned philosopher Jean Luc Marion challenges some of the most fundamental assumptions we have developed about knowledge that it is categorical predicative and positive Following Descartes Kant and Heidegger he looks toward our finitude and the limits of our reason He asks an astonishingly simple but profoundly provocative question in order to open up an entirely new way of thinking about knowledge Isn't our uncertainty our finitude and rational limitations one of the few things we can be certain about Marion shows how the assumption of knowledge as positive demands a reductive epistemology that disregards immeasurable or disorderly phenomena He shows that we have experiences every day that have no identifiable causes or predictable reasons and that these constitute a very real knowledge a knowledge of the limits of what can be known Establishing this negative certainty Marion applies it to four aporias or issues of certain uncertainty the definition of man the nature of God the unconditionality of the gift and the unpredictability of events Translated for the first time into English *Negative Certainties* is an invigorating work of epistemological inquiry that will take a central place in Marion's oeuvre

The Ethics of Doing Nothing Blosser, Andrew, 2023-03-02 Addresses the obsession with material production by proposing rituals of inoperativity such as Sabbath keeping vigils and fiestas to change our understanding of what it means to be human

Radical Sacrifice Terry Eagleton, 2018-01-01 A trenchant analysis of sacrifice as the foundation of the modern as well as the ancient social order The modern conception of sacrifice is at once cast as a victory of self discipline over desire and condescended to as destructive

and archaic abnegation But even in the Old Testament the dual natures of sacrifice embodying both ritual slaughter and moral rectitude were at odds In this analysis Terry Eagleton makes a compelling argument that the idea of sacrifice has long been misunderstood Pursuing the complex lineage of sacrifice in a lyrical discourse Eagleton focuses on the Old and New Testaments offering a virtuosic analysis of the crucifixion while drawing together a host of philosophers theologians and texts from Hegel Nietzsche and Derrida to the Aeneid and The Wings of the Dove Brilliant meditations on death and eros Shakespeare and St Paul irony and hybridity explore the meaning of sacrifice in modernity casting off misperceptions of barbarity to reconnect the radical idea to politics and revolution
