Georgia Plantation and Historical Homes Cookbook Susan C. Trudeau, 1994 **Georgia, Plantation and Historic Homes Cookbook** Ken Raveill, 1990-07 Georgia's Historical Recipes Valerie J. Frey, 2025-05

Georgia's Historical Recipes is an exploration of our state's oldest recipes from the antebellum period through World War II as painstakingly researched by Georgia archivist Valerie J. Frey. This volume begins with a discussion of old recipes as primary sources and what they can tell us about the history and culture of their era and how to bring them to life in modern kitchens. Frey then moves into fifty sections that can be read alone yet allow readers to build an understanding of how foodways evolved over time. Some sections highlight a single recipe illustrating how changes in technology, agriculture, transportation, communication, and social patterns led to changes in Georgia kitchens. Most of the recipes are previously unpublished, waiting in archives to be rediscovered. Other sections explore our oldest cookbooks, offering biographical and cultural background information that makes them more meaningful. For the first time, Georgians have a list of the state's early cookbooks and its cooking experts. Readers will learn where to find Georgia's oldest recipes and discover many examples to whet their appetites literally and figuratively for a taste of Georgia's past.

"My" Official Georgia Geechee Cookbook Sharon Kaye Hunt RD, 2015-03-20

THE GEECHEE COOKBOOK My Official Geechee Cookbook highlights Geechee low country cooking and food preparations that were popularized on the Georgia's barrier sea islands from the early 1700s until up to the end of the Civil War. A special effort has been made to include the similarities of possible African culture and slaves' tradition on each island. Recorded history has been included about each area. Although much of the history has been lost, the slaves made do with what they were able to simulate from their culture. The efforts in this cookbook have been dedicated to the impact of the Geechee contributions to the state of Georgia. Some people in Georgia call themselves Gullah. However, my grandmother was a Geechee. The research honors her heritage. Gullahs are popular in the low country areas of the Carolinas. My Official Geechee Cookbook is a result of my research with certain people who said they were Geechee and collected recipes from these people. The cookbook is not comprehensive of all Geechees' recipes. Historical influences surrounding the Geechees' survival on the Georgia sea coastline from slavery until present day have been examined.

Winner of the James Beard Cookbook of the Year award, *Smokehouse Ham, Spoon Bread, Scuppernong Wine* combines delicious recipes of Appalachian cuisine with the folklore surrounding the area's pioneer and present-day homesteaders. A modern-day classic, *Smokehouse Ham, Spoon Bread, Scuppernong Wine* serves up scrumptious Blue Ridge hill country food and folklore in celebration of the fine people, rich traditions, and natural beauty found in one of the South's most treasured regions. Each page is packed with engaging stories on moonshine and bourbon, corn bread and biscuits, and the succulent glory of wild game and smokehouse ham. Simple and often surprising recipes for home cooks call forth memories of grandma's kitchen table, and photographs bring to life the history of the trees, foothills, and mountain towns. Medicine in the Old South Ronald Numbers,Todd L. Savitt,1999-03-01 With a few notable exceptions historians have tended to ignore the role that science and medicine played in the antebellum South The fourteen essays in Science and Medicine in the Old South help to redress that neglect by considering scientific and medical developments in the early

nineteenth century South and by showing the ways in which the South's scientific and medical activities differed from those of other regions. The book is divided into two sections. The essays in the first section examine the broad background of science in the South between 1830 and 1860; the second section addresses medicine specifically. The essays frequently counterpoint each other. In the first section, Ronald Numbers and Janet Numbers argue that the South's failure to keep pace with the North in scientific areas resulted from demographic factors. William Scarborough asserts that slavery produced a social structure that encouraged agricultural and political careers rather than scientific and industrial ones. Charles Dew offers a strong indictment of slavery, suggesting that the conservative influence of the institution severely discouraged the adoption of modern technologies. Other essays examine institutions of higher learning in the South, southern scientific societies, and the relationship between science and theology. The section on medicine in the Old South also examines the ways in which the medical needs and practices of the Old South were both similar to and distinct from those of other regions. K. David Patterson argues that slavery in effect imported African diseases into the Southeast and created a modified West African disease environment. James H. Cassedy points out that land management policies determined by slavery—land clearing, soil exhaustion—also helped create a distinctive disease environment. Other contributors discuss southern public health problems, domestic medicine, slave folk beliefs, and the special medical needs of blacks. *Science and Medicine in the Old South* is a long overdue examination of these segments of the southern cultural milieu. These essays will do much to clarify misconceptions about the time and the region; moreover, they suggest directions for future research.
