Handbook of Research on Increasing the Competitiveness of SMEs Perez-Uribe, Rafael, Ocampo-Guzman, David, Salcedo-Perez, Carlos, Piñeiro-Cortes, Lorena, Ramirez-Salazar, Maria Del Pilar, 2019-12-06 Countries have been competing against each other in order to attract financial investment and human capital for decades. However, emerging economies have a long way to go before they achieve the same levels of competitiveness as a developed economy. Lack of firm institutions, inadequate infrastructure and a lack of trust in the legal system are urgent and unavoidable factors that emerging economies must address. The Handbook of Research on Increasing the Competitiveness of SMEs provides innovative insights on integrating, adapting and building models and strategies compatible with the development of competitiveness in small and medium enterprises in emerging countries. The content within this publication examines quality management, organizational leadership and digital security. It is designed for policymakers, entrepreneurs, managers, executives, business professionals, academicians, researchers and students.
