Geriatrics In Ayurveda:

Geriatric Care in Ayurveda - Preventive Aspect Dr. Rakesh Shukla, 2018-04-02 Ageing is a process of physical psychological and social change in multi dimensional aspects Elderly was once defined as being age 65 or above but the growing number of active and healthy older people has caused that definition to expand to young old 65 to 75 old old 75 to 85 and oldest old 85 and beyond The over 85 age group is the one that is growing most rapidly The term Geriatrics is made by union of two Greek words first geras old age iatrike medical treatment thus the study of all aspects of aging including physiological pathological psychological economical and sociological problems is termed as geriatrics their synonym is gerontology While term aging means growing old or maturing and these are the progressive changes in human body and mind related to passage of time There is no any precise method for determining the rate or degree of aging Aging is an inevitable physiological process why senile changes occur in the body mind system is not yet clear *Geriatrics in Ayurveda* S. Suresh Babu, M. Madhavi, 2001 *Gerontology and Geriatrics for NPs and PAs - E-Book* Jill R. Beavers-Kirby, Freddi I. Segal-Gidan, 2023-03-23 Written by NPs and PAs who have a wealth of experience in the care of older adults across all practice settings Gerontology and Geriatrics for NPs and PAs takes an evidence based approach to both gerontology and geriatrics incorporating the latest national and international guidelines and standards of care This first of its kind text takes an interprofessional teamwork based approach that reflects Interprofessional Education Collaborative IPEC core competencies as well as the unique perspectives that NPs and PAs each bring to the collaborative care of older adults Covers both primary care and acute care of older adults and fully addresses both graduate level and practitioner core competencies necessary for optimal care of older adults Places a strong emphasis on wellness including nutrition and the Healthy People 2020 targets normal aging common syndromes of aging disease management patient safety particularly in acute care settings and a patient centered care approach Features vibrant full color illustrations a full color design for ease of navigation and graduate level learning features that include Key Points at the end of each chapter for quick reference and exam preparation Addresses a wide range of topics specifically focused on the common medical problems of older adults with chapters logically organized for efficient study and quick clinical reference Evolve Instructor site with an image collection and test bank is available to instructors through their Elsevier sales rep or via request at <https://evolve.elsevier.com> India's Elderly Uma Charan Pati, Monalisa Mohapatra, Subhankari Pati, 2025-06-09 This book is the result of a number of significant contributions of multidisciplinary character made by experts working on issues associated with our ever growing elderly population The book proposes policies and measures to be put in place to manage the growing elderly brigade with love affection care and compassion and to tap into the benefits of the demographic The volume encapsulates highly relevant dimensions of geriatrics and gerontology such as aging and cognition sleep quality and circadian rhythm ontology of aging and psycho social theories and issues of gerontology Along with quality of life and functional independence in old age other

areas of intervention have been prosed regarding lifestyle factors chronic diseases life satisfaction and subjective well being healthcare through Ayurveda globalization and environmental awareness

Topics in Biomedical Gerontology Pramod C. Rath,Ramesh Sharma,S. Prasad,2016-10-20 This book presents a collection of articles on various aspects of current research on aging These include model systems cellular biochemical and molecular aspects of experimental aging research as well as selected intervention studies on age related diseases Aging is a global challenge to human society Children are always in a hurry to become adults while adults produce offspring and add to the gene pool However after adulthood or the attainment of reproductive maturity all physiological parameters of the living organism start to undergo the aging process Old age sets in slowly but surely and usually continues for a prolonged period If vigor and vitality are the main advantages of adulthood old age offers the rewards of experience and maturity Biologists ask questions such as Why do we age How do we become old Is it possible to slow down postpone or even prevent aging In turn medical experts ask What are the diseases associated with old age Are there medicines that can help affected elderly patients In fact both groups are asking themselves how can we add more health to old age Healthy aging is the dream of every individual But to achieve this it is fundamental that we first understand the cellular biochemical and molecular basis of the aging process in mammalian cells tissues and intact living organisms which can serve as experimental model systems in Biomedical Gerontology Once the biology of aging is understood at the genetic and molecular levels interventional approaches to aging and its associated diseases may be easier to plan and implement at the preclinical level
