This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book without typos from the publisher. Not indexed. Not illustrated. 1898 edition. Excerpt: PERIOD I The Colonial Time to the End of the 18th Century. CHAPTER I The Settlement Of Tidewater Virginia. N the history of German immigration to the English colonies of North America during the last century Virginia takes a prominent share, says the late Vice Governor of Illinois Gustav Koerner. 1 and he might have dated this statement back to the earliest time of colonization. The early immigration of Germans to Virginia differs essentially; it must be admitted from that under the leadership of Win Perin and Franz Pastorius to Pennsylvania, for unlike these it was not organized or compact. With the forenamed there came at once a large number of Germans to the New World; numerous additions followed and they kept together and founded German settlements which have preserved their national character to this day. But into Virginia the Germans immigrated singly without a leader of their own nationality and without connection among themselves. Not until the beginning of the eighteenth century a German mass immigration commenced from North Carolina, Pennsylvania, New Jersey and the Fatherland. The first comers scattered during the first decades of the colony over all its various sections and yet the influence of this immigration proved of the greatest value to the development of Virginia. or Attanough Komouch, the Indian name of the country. 1 *Das deutsche Element in den Ver Staaten von Xord Amerika* von G Koerner. Seite 403. Cincinnati, Ohio, 1880. The civilization of all countries began with the tilling of the soil or agriculture and this was the case too in the old mother colony. It is generally admitted that no part of the United States possesses greater natural advantages for the production of cereals, vegetables.
