How to Grow a Navy Geoffrey Till, 2022-09-02 This book examines the large but neglected topic of the development of maritime power from both an historical and a contemporary point of view Navies have never been more important than they are now in a century becoming as widely expected increasingly and profoundly maritime The growing competition between China and Russia with the United States and its allies and partners around the world is essentially sea based The sea is also central to the world s globalised trading system and to its environmental health Most current crises are either sea based or have a critical maritime element to them What happens at sea will help shape our future Against that background this book uses both history and contemporary events to analyse how maritime power and naval strength has been and is being developed In a reader friendly way it seeks to show what has worked and what has not and to uncover the recurring patterns in maritime and naval development which explain past present and future success and failure It reflects on the historical experience of all navies but in particular it poses the question of whether China is following the same pattern of naval development illustrated by Britain at the start of the 18th century which led to two centuries of naval dominance This book will be of much interest to students of maritime power naval studies and strategic studies as well as to naval professionals around the world

Steamship Nationalism Mark A. Russell, 2020-04-15 *Steamship Nationalism* is a cultural social and political history of the S S *Imperator* *Vaterland* and *Bismarck* Transatlantic passenger steamships launched by the Hamburg Amerikanische Packetfahrt Aktien Gesellschaft HAPAG between 1912 and 1914 they do not enjoy the international fame of their British counterparts most notably the *Titanic* Yet the *Imperator* class liners were the largest most luxurious passenger vessels built before the First World War In keeping with the often overlooked history of

its merchant marine as a whole they reveal much about Imperial Germany in its national and international dimensions As products of business decisions shaped by global dynamics and the imperatives of international travel immigration and trade HAPAG s giant liners bear witness to Germany s involvement in the processes of globalization prior to 1914 Yet this book focuses not on their physical but on their cultural construction in a variety of contemporaneous media including the press and advertising on both sides of the Atlantic At home they were presented to the public as symbolic of the nation s achievements and ambitions in ways that emphasize the complex nature of German national identity at the time Abroad they were often construed as floating national monuments and as such facilitated important encounters with Germany both virtual and real for the populations of Britain and America Their overseas reception highlights the multi faceted image of the European superpower that was constructed in the Anglo American world in these years More generally it is a pointed indicator of the complex relationship between Britain the United States and Imperial Germany

The Industrial Revolution Stewart Ross,2008 This volume tells the story of the revolution that created the modern industrial world in which we live today charting the move of industrialisation from 1850 in Western Europe and the USA right up to the end of the 19th century when it reached Russia and Japan

Seize the Trident Douglas R. Burgess,2005 The superliners of the Gilded Age so eclipsed their predecessors in size splendor and speed that they remain potent symbols of elegance arrogance and industrial might nearly a century after the last ones were built They carried a flood of immigrants to America even as they reflected and magnified the frightening forces that were pushing Europe blindly into World War I In a crowning irony Germany s prize liners were used against her to carry American doughboys to the trenches of Europe Seize the Trident is a parable of imperial ambitions and ultimate tragedy set against the ostentatious backdrop of the Edwardian age when dreams had no limits and the only standard of supremacy was excess

The Titanic Eugene L. Rasor,2001-09-30 Promoted as virtually unsinkable the ultimate luxury liner the largest ship in the world the RMS Titanic sank on its maiden voyage in April 1912 taking some 1 500 people to their death Aboard the ship were the wealthy and famous as well as hundreds of immigrants seeking a new life in America The most dramatic marine disaster of modern times the Titanic tragedy captured the interest and imagination of the entire world The intensity of interest in the catastrophe has increased particularly after discovery of the wreck off the coast of Newfoundland in the mid 1980s The resulting literature is vast including both scholarly and popular sources Covering more than the published literature the book also surveys memorabilia artifacts cultural icons music film and exhibitions Divided into three sections the work opens with a historiographical survey of the literature then includes descriptive lists of more peripheral material and concludes with a bibliography of 674 entries All items covered in the historiographical survey are included in the bibliography This useful guide will appeal to researchers both laymen and scholars interested in the Titanic
