German Limited Liability Company:

The GmbH Klaus J. Müller, 2015-11 The GmbH Klaus J. Müller, 2006-01-01 The German limited liability company the GmbH is by far the most commonly used legal form in Germany It is in particular of interest to those who want apart from enjoying the benefit of limited liability a legal form that can be flexibly structured This book familiarizes the reader with the legal rules applicable to the GmbH It should however not be considered to be a substitute for professional advice More than a decade s scholarly interest in and practical experience with the GmbH inspired me to write this book In my practice I have predominantly been confronted with the GmbH as an entity forming part of a large group of companies That is why I have placed the emphasis of the book on GmbHs that are held by corporate shareholders rather than by natural persons Many structures and concepts of the German legal system do not translate into an equivalent structure or concept of the Anglo American legal system and vice versa It is therefore a demanding challenge to describe German legal concepts in the English language I am fully aware of this challenge and have tried my best to avoid shortcomings or ambiguities in this regard I have also attempted to state the law in clear and simple terms and hope the attempt has succeeded Many thanks go to Mr Benjamin Letzler Harvard Law School who thoroughly reviewed the manuscript and offered many valuable suggestions to make it more digestible for the non German reader **Deutsche Gesellschaft Mit Beschränkter Haftung** Burkhardt W. Founding Limited Companies (Ltds) in Germany

Tobias Georg Schmidt, 2009-12 In a globalized Europe in which everything is merging together especially the economies and keeping pace with the rapid development of the Internet one can ill afford not to take a look at the Limited company The English Limited seems to be an alternative to the German GmbH In the course of groundbreaking decisions made by the European Court of Justice a new legal platform for economic activity is made available in Germany So far it seems to be an attractive one The fast and uncomplicated establishment of the company as well as the rather liberal rules of capitalization are typically perceived as advantages of the Limited compared to the German GmbH However the limited being a foreign type of company is first of all an alien element in the German legal system Just 2005 Preface There are many questions to be answered and there is additionally a certain amount of legal uncertainty to be reasoned with concerning the decision of whether or not to choose the limited over the German GmbH Also the peculiarities perspectives and risks of the limited are widely unknown to the general public The purpose of this book is to provide an analysis of how an English private company limited by shares based in Germany may offer an alternative to German forms of business organization for entrepreneurs The perspectives and risks that come hand in hand with such an establishment will also be interpreted To begin with I will shortly explain the history of British companies This is then followed firstly by an overview of the types of companies in England and secondly the two types of businesses known to British company law in which liability may be limited to the paid in company assets A discussion of the new rulings of the European Court of Justice ECJ followed by the topics of freedom of establishment incorporation theory and real seat theory are also presented The next chapter explicitly examines
