Geerken,2025-06-06 From 1963 to 1981 Horst H Geerken lived in the new born Republic of Indonesia at a time of upheaval after the end of almost 350 years of colonial rule and exploitation by the Netherlands In both his professional and private activities he constantly came across German Japanese and Indonesian eyewitnesses who had lived through the Japanese occupation and the presence of the German navy in Indonesia The relations between the German Reich and what was then the Dutch East Indies were obviously closer and more varied than had been previously assumed Hardly anyone was aware that Hitler was extremely interested in this distant archipelago and that thousands of German officers and seamen were in action in East and South East Asia Who knows that German U boats and auxiliary cruisers penetrated deep into the Pacific and that the German Navy used the Kerguelen Islands in the South Polar Sea as a secret base Or that Hitler gave massive support to the independence movements in Indonesia and India Many of the German naval personnel chose to make Indonesia their home after the war and joined the Indonesian freedom fighters The Second World War heralded the end of the colonial era in Asia especially in South East Asia The role played in this process by the Third Reich should not be underestimated The collaboration between the Axis powers especially that between German and Japan with all its problems is also investigated There was a lively exchange of new weapons technology There was even the re creation of a German Radar system in Japan under the

management of a German engineer Documents from the Third Reich's Foreign Ministry published here for the first time show how brutally and inhumanely the German men women and children in the Dutch internment camps in the East Indies were treated by their captors These documents are supported by evidence from contemporary witnesses The author has encapsulated his many years of research in the two volumes of Hitler's Asian Adventure It is a fascinating documentation of the German Navy's involvement in a theatre of war that has until now been neglected by historians *The Elephant of Belfast* S. Kirk Walsh, 2021-04-06 Inspired by true events this vivid and moving story of a young woman zookeeper and the elephant she's compelled to protect through the German blitz of Belfast during WWII speaks to not only the tragedy of the times but also to the ongoing sectarian tensions that still exist in Northern Ireland today perfect for readers of historical and literary fiction alike Belfast October 1940 Twenty year old zookeeper Hettie Quin arrives at the city docks in time to meet her new charge an orphaned three year old Indian elephant named Violet As Violet adjusts to her new solitary life in captivity and Hettie mourns the recent loss of her sister and the abandonment of her father new storm clouds gather A world war rages threatening a city already reeling from escalating tensions between British Loyalists and those fighting for a free and unified Ireland The relative peace is shattered by air raid sirens on the evening of Easter Tuesday 1941 Over the course of the next five hours hundreds of bombs rain down upon Belfast claiming almost a thousand lives and decimating the city Dodging the debris and carnage of the Luftwaffe attack Hettie runs to the zoo to make sure that Violet is unharmed The harrowing ordeal and ensuing aftermath set the pair on a surprising path that highlights the indelible singular bond that often brings mankind and animals together during horrifying times Inspired by a largely forgotten chapter of World War II S Kirk Walsh deftly renders the changing relationship between Hettie and Violet and their growing dependence on each other for survival and solace *The Elephant of Belfast* is a complicated and beguiling portrait of hope and resilience and how love can sustain us during the darkest moments of our lives

Harvey Goldman, 2023-09-01 This sequel to Harvey Goldman's well received *Max Weber and Thomas Mann* continues his rich exploration of the political and cultural critiques embodied in the more mature writings of these two authors. Combining social and political thought, intellectual history and literary interpretation, Goldman examines in particular Weber's *Science as a Vocation* and *Politics as a Vocation* and Mann's *The Magic Mountain* and *Doctor Faustus*. Goldman deals with the ways in which Weber and Mann sought an antidote to personal and cultural weakness through practices for generating strength, mastery and power, drawing primarily on ascetic traditions at a time when the vitality of other German traditions was disappearing. Power and mastery concerned both Weber and Mann especially as they tried to resolve problems of politics and culture in Germany. Although their resolutions of the problems they confronted seem inadequate, they show the significance of linking social and political thought to conceptions of self and active worldly practices. Trenchant and illuminating, Goldman's book is essential reading for anyone interested in political theory, social thought and the intellectual history of Germany. This sequel to Harvey Goldman's well received *Max Weber and Thomas Mann* continues his rich exploration of the political and cultural critiques embodied in the more mature writings of these two authors.
