## **Ibadan Penkelemes Years A Memoir 1946 65:**

**Ibadan** Wole Soyinka, 2001 Ibadan is the third volume in Wole Soyinka's series of memoirs the sequel to Ake and Isara In a mixture of fact and fiction to protect the innocent and nail the guilty and shape an often intolerable reality it tells of the coming of age of a writer and political activist and of a nation's betrayal

**African Memoirs and Cultural Representations** Toyin Falola, 2023-02-14 Traditions and cultures represent a set of persisting or prevailing beliefs social practices oral linguistic and values that define an individual's way of life In other words in memoir writing the emphasis is often to propagate a unilateral need or embrace of self identity However the dominant narrative and method of analysis in this study holds the notion and privileges that tradition and cultures imbibed by memoirists are sometimes subverted refashioned or reworked due to the strand of experiences or realities they encounter in different spaces as their narration develops Thus memoirists embrace indifference and open mindedness which is also greatly explored in the context of autobiography

**Wole Soyinka: Literature, Activism, and African Transformation** Bola Dauda, Toyin Falola, 2021-09-09 This timely and expansive biography of Wole Soyinka the Nigerian writer Nobel laureate and social activist shows how the author's early years influence his life's work and how his writing in turn informs his political engagement Three sections spanning his life major texts and place in history connect Soyinka's legacy with global issues beyond the borders of his own country and indeed beyond the African continent Covering his encounters with the widespread rise of kleptocratic rule and international corporate corruption his reflection on the human condition of the North South divide and the consequences of postcolonialism this comprehensive biography locates Wole Soyinka as a global figure whose life and works have made him a subject of conversation in the public sphere as well as one of Africa's most successful and popular authors Looking at the different forms of Soyinka's work plays novels and memoirs among others this volume argues that Soyinka used writing to inform mobilize and sometimes incite civil action in a decades long attempt at literary social engineering

**Wole Soyinka** Adam Lecznar, 2024-09-05 This book presents a new way of looking at Wole Soyinka's engagement with the classical past Nigerian author and activist Wole Soyinka was the first Black African author to win the Nobel Prize for Literature 1986 and his oeuvre has become seminal to postcolonial literature The frequent references to Greece and Rome that appear across Soyinka's writings most explicitly in his 1973 play The Bacchae of Euripides A Communion Rite have often received short shrift in scholarship on the author At best these references have been understood as elements of Soyinka's prodigiously inclusive humanism At worst Soyinka's critics argue that the invocations of a Graeco Roman past testify to the neocolonial cultural affinities that make Soyinka a problematic figure in postcolonial literary history Adam Lecznar challenges these readings arguing that Soyinka's authorial outlook is informed by a hybrid form of classicism in which he aligns the legacy of Greece and Rome with the African cultural heritage to form a narrative of literary and cultural value that looks beyond the ancient Mediterranean This book turns a spotlight on how Soyinka's appeals to Greece

and Rome inform his reflections on Africa's ancient past Yoruba belief and the modern significance of tragedy Lecznar contends that Soyinka's notion of classicism is not solely dependent on the memory of the Graeco Roman past Rather it draws innovatively on a global cultural heritage to advance revolutionary and futural narratives of history and identity

*African Literatures in English* Gareth Griffiths,2014-09-19 Here is an introduction to the history of English writing from East and West Africa drawing on a range of texts from the slave diaspora to the post war upsurge in African English language and literature from these regions Postcolonial Identity in Wole Soyinka Mpalive-Hangson Msiska,2007 Soyinka's representation of postcolonial African identity is re-examined in the light of his major plays novels and poetry to show how this writer's idiom of cultural authenticity both embraces hybridity and defines itself as specific and particular For Soyinka such authenticity involves recovering tradition and inserting it in postcolonial modernity to facilitate transformative moral and political justice The past can be both our enabling future and our nemesis In a distinctive approach grounded in cultural studies *Postcolonial Identity in Wole Soyinka* locates the artist's intellectual and political concerns within the broader field of postcolonial cultural theory arguing that although ostensibly distant from mainstream theory Soyinka focuses on fundamental questions concerning international culture and political identity formations the relationship between myth and history tradition and modernity and the unresolved tension between power as a force for good or evil Soyinka's treatment of the relationship between individual selfhood and the various framing social and collective identities so the book argues is yet another aspect linking his work to the broader intellectual currents of today Thus Soyinka's vision is seen as central to contemporary efforts to grasp the nature of modernity His works conceptualize identity in ways that promote and modify national perceptions of Africanness rescuing them from the colonial and neocolonial logic of cultural denigration in a manner that fully acknowledges the cosmopolitan and global contexts of African postcolonial formation Overall what emerges from the present study is the conviction that in Soyinka's work it is the capacity to assume personal and collective agency and the particular choices made by particular subjects at given historical moments that determine the trajectory of change and ultimately the nature of postcolonial existence itself *Postcolonial Identity in Wole Soyinka* is a major and imaginative contribution to the study of Wole Soyinka African literature and postcolonial cultural theory and one in which writing and creativity stand in fruitful symbiosis with the critical sense It should appeal to Soyinka scholars to students of African literature and to anyone interested in postcolonial and cultural theory **Handbook of Autobiography / Autofiction** Martina Wagner-Egelhaaf,2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e.g the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid

transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers
