Iban Shamanism An Analysis Of The Ethnographic Literature:

Iban Shamanism Penelope Graham, 1987 Shamanism Mariko Namba Walter, Eva Jane Neumann Fridman, 2004-12-15 A guide to worldwide shamanism and shamanistic practices emphasizing historical and current cultural adaptations This two volume reference is the first international survey of shamanistic beliefs from prehistory to the present day In nearly 200 detailed readable entries leading ethnographers psychologists archaeologists historians and scholars of religion and folk literature explain the general principles of shamanism as well as the details of widely varied practices What is it like to be a shaman Entries describe region by region the traits such as sicknesses and dreams that mark a person as a shaman as well as the training undertaken by initiates They detail the costumes music rituals artifacts and drugs that shamans use to achieve altered states of consciousness communicate with spirits travel in the spirit world and retrieve souls Unlike most Western books on shamanism which focus narrowly on the individual s experience of healing and trance Shamanism also examines the function of shamanism in society from social political and historical perspectives and identifies the ancient continuous thread that connects shamanistic beliefs and rituals across cultures and millennia The Indecent Theologies of Marcella Althaus-Reid Lisa Isherwood, Hugo Córdova Quero, 2020-12-30 This book celebrates the legacy of theologian Marcella Althaus Reid 1952 2009 and her particular influence in Asia and South America Her work has served as a significant source of inspiration to many scholars ministers and activists challenging heteronormative theologies but her sudden death in 2009 cut short the nascent and elegant theological thought for which she so valued Contributors to this book succinctly investigate aspects of the vast work of Althaus Reid by discussing issues of gender race and sexuality in Asia and South America utilising the liberation queer and indecent theologies she espoused Each chapter demonstrates how her legacy is alive and thriving today but also points towards to the potential future impact of her prolific theological output By highlighting the ground breaking work of Althaus Reid this book will serve as a key reference for scholars of Liberation Queer and Indecent Theology as well as Asian and Latinx religions An Encyclopedia of Shamanism Volume 2 Christina Pratt, 2007-08-01 Shamanism can be defined as the practice of initiated shamans who are distinguished by their mastery of a range of altered states of consciousness Shamanism arises from the actions the shaman takes in non ordinary reality and the results of those actions in ordinary reality It is not a religion yet it demands spiritual discipline and personal sacrifice from the mature shaman who seeks the highest stages of mystical development Iban Ritual Textiles Traude Gavin, 2022-07-04

King, Zawawi Ibrahim, Noor Hasharina Hassan, 2016-08-12 This edited book is the first major review of what has been achieved in Borneo Studies to date Chapters in this book situate research on Borneo within the general disciplinary fields of the social sciences with the weight of attention devoted to anthropological research and related fields such as development studies gender studies environmental studies social policy studies and cultural studies Some of the chapters in this book are extended versions of presentations at the Borneo Research Council's international conference hosted by Universiti Brunei Darussalam in June 2012 and a Borneo Studies workshop organised in Brunei in 2012 The volume examines some of the major debates and controversies in Borneo Studies including those which have served to connect post war research on Borneo to wider scholarship It also assesses some of the more recent contributions and interests of locally based researchers in universities and other institutions in Borneo itself The major strength of the book is the inclusion of a substantial amount of research undertaken by scholars working and teaching within the Southeast Asian region In particular there is an examination of research materials published in the vernacular notably the outpouring of work published in Indonesian by the Institut Dayakologi in Pontianak In doing so the book also addresses the urgent matters which have not received the attention they deserve specifically subjects themes and issues that have already been covered but require further contemplation elaboration and research and the scope for disciplinary and multidisciplinary collaboration in Borneo Studies The book is a valuable resource and reference work for students and researchers interested in social science scholarship on Borneo and for those with wider interests in Indonesia Spirits Captured in Stone Jay H. Bernstein, 1997 This fascinating case and Malaysia and in the Southeast Asian region study focuses on shamanism and the healing practices of the Taman a formerly tribal society indigenous to the interior of Borneo The Taman typically associate illness with an encounter with spirits that both seduce and torment a person in dreams or waking life Rather than use medicines to counter the effect of these discomforting visitors the shamans called baliens use stones that are said to contain the convergence of wild spirits that have come into being during the initiation ceremony P 209

<u>Borneo and Sulawesi</u> Ooi Keat Gin,2019-11-28 This book presents a great deal of new research findings on the history of Borneo the history of Sulawesi and the interrelationship between the two islands Some specific chapters focus on empires and colonizers including the activities of James Brooke in Sulawesi of Chinese mining communities in Borneo and of the the

quisling issue in immediate post war Sarawak Other chapters consider indigenous peoples and how different regimes have handled them The book is published in honour of Victor T King a leading scholar in the field of Southeast Asian studies and a final chapter discusses his contribution to scholarship in particular his views on how area studies should be approached and the implications of this for future research Healing Powers and Modernity Linda H. Connor, Geoffrey Samuel, 2001-02-28 What is the current state of traditional healing practices in contemporary Asian societies How are their practitioners faring in the encounter with Western science and its biomedical approach How are traditional healing practices being transformed by the politics of health within the modern nation state and by the processes of commodification typical of modern economies How do patients in Asian societies see the various healing options now open to them The authors all of whom are anthropologists observe the clashes and complementarities between traditional therapies and biomedicine which in its many manifestations is the dominant form of medicine supported by national governments and is emblematic of the modernity to which they aspire Some of the medical traditions such as the sophisticated herbal humoral systems of Tibetan medicine and Indian Ayurveda are becoming well known in the West both through scholarly study and through their increasing popularity with Western patients interested in their healing potential This book adds a new dimension to their study being focused unlike most previous writing on practice rather than textual tradition The Routledge Handbook of Religion, Gender and Society Caroline Starkey, Emma Tomalin, 2021-12-30 In an era which many now recognise as post secular the role that religions play in shaping gender identities and relationships has been awarded a renewed status in the study of societies and social change In both the Global South and the Global North in the 21st century religiosity is of continuing significance not only in people s private lives and in the family but also in the public sphere and with respect to political and legal systems The Routledge Handbook of Religion Gender and Society is an outstanding reference source to these key topics problems and debates in this exciting subject area Comprising over 40 chapters by a team of international contributors the Handbook is divided into 3 parts Critical debates for religions gender and society theories concepts and methodologies Issues and themes in religions gender and society Contexts and locations Within these sections central issues debates and problems are examined including activism gender analysis intersectionality and feminism oppression and liberation equality bodies and embodiment space and place leadership and authority diaspora and migration marriage and the family generation and aging health and reproduction education violence and conflict ecology and climate change and the role of social media The Routledge Handbook of Religion Gender and Society is essential reading for students and researchers in religious studies and gender studies The Handbook will also be very useful for those in related fields such as cultural studies area studies politics sociology anthropology and history Shamans in Asia Clark Chilson, Peter Knecht, 2003-12-08 Shamans throughout much of Asia are regarded as having the power to control and coerce spirits Many Asians today still turn to shamans to communicate with the world of the dead heal the sick and explain enigmatic events To understand Asian religions therefore a

knowledge of shamanism is essential Shamans in Asia provides an introduction to the study of shamans and six ethnographic studies each of which describes and analyses the lives and activities of shamans in five different regions Siberia China Korea and the Ryukyu islands of southern Japan Bangladesh and Pakistan The essays show what type of people become shamans what social roles they play and how shamans actively draw from the worldviews of the communities in which they operate As the first book in English to provide in depth accounts of shamans from different regions of Asia it allows students and scholars to view the diversity and similarities of shamans and their religions Those interested in spiritual specialists the anthropological study of religion and local religions in Asia will be intrigued if not entranced by Shamans in Asia **Flaming Womb** Barbara Watson Andaya,2006-07-31 The Princess of the Flaming Womb the Javanese legend that introduces this pioneering study symbolizes the many ambiguities attached to femaleness in Southeast Asian societies Yet despite these ambiguities the relatively egalitarian nature of male female relations in Southeast Asia is central to arguments claiming a coherent identity for the region This challenging work by senior scholar Barbara Watson Andaya considers such contradictions while offering a thought provoking view of Southeast Asian history that focuses on women s roles and perceptions Andaya explores the broad themes of the early modern era 1500 1800 the introduction of new religions major economic shifts changing patterns of state control the impact of elite lifestyles and behaviors drawing on an extraordinary range of sources and citing numerous examples from Thai Vietnamese Burmese Philippine and Malay societies In the process she provides a timely and innovative model for putting women back into world history Andaya approaches the problematic issue of Southeast Asia by considering ways in which topography helped describe a geo cultural zone and contributed to regional distinctiveness in gender construction She examines the degree to which world religions have been instrumental in re constructing conceptions of gender an issue especially pertinent to Southeast Asian societies because of the leading role so often played by women in indigenous ritual She also considers the effects of the expansion of long distance trade the incorporation of the region into a global trading network the beginnings of cash cropping and wage labor and the increase in slavery on the position of women Erudite nuanced and accessible The Flaming Womb makes a major contribution to a Southeast Asia history that is both regional and global in content and perspective Incomplete Conquests Stephanie Joy Mawson, 2023-07-15 In Incomplete Conquests Stephanie Joy Mawson uncovers the limitations of Spanish empire in the Philippines unearthing histories of resistance flight evasion conflict and warfare from across the breadth of the Philippine archipelago during the seventeenth century The Spanish colonization of the Philippines that began in 1565 has long been seen as heralding a new era of globalization drawing together a multiethnic world of merchants soldiers sailors and missionaries Colonists sent reports back to Madrid boasting of the extraordinary number of souls converted to Christianity and the number of people paying tribute to the Spanish Crown Such claims constructed an imagined imperial sovereignty and were not accompanied by effective consolidation of colonial control in many of the regions where conversion and tribute

collection were imposed Incomplete Conquests foregrounds the experiences of indigenous Chinese and Moro communities and their responses to colonial agents weaving together stories that take into account the rich cultural and environmental diversity of this island world The Journal of Asian Studies ,1988 Kayan Religion J. Rousseau, 2022-07-04 Kayan Religion is an ethnographic account of the rituals and beliefs of Central Borneo swidden agriculturists written at the request of the Baluy Kayan of Sarawak to preserve their religion for future generations With its extensive agricultural rituals Kayan religion is organized around the agricultural cycle Both priests and shamans are present the latter limit themselves to curing rituals while priests manage the annual cycle life cycle rituals and familial rituals Like other groups in Southeast Asia the Kayan have elaborate death rituals The traditional Kayan religion adat Dipuy was characterized by ritual head hunting animal omens and a multiplicity of taboos In the 1940s a prophet revealed a new religion adat Bungan in Central Borneo with particular success in the Baluy area In its initial stage adat Bungan was a radical rejection of the old religion However in just a few years a kind of counter reformation occurred led by aristocrats and priests who reinstated most of the old rituals in a simplified and less onerous form Powers of Blessing from the Wilderness and from Heaven C.W. Buijs, 2021-10-01 Women run screaming from their village at night leaving all their clothes behind possessed by spirits of the wilderness they climb up a barana tree It is but one of the fascinating rituals of the Toraja people described in this study The Toraja people live in the mountainous region of South Sulawesi Indonesia Their religion is an ancient one predating the Hindu and Buddhist religions that arrived in Indonesia some 1 500 years ago It is marked by a dualism in male and female elements a characteristic of rituals the older people in the western Toraja region Mamasa still remember Three rituals the headhunting fertility and tree climbing rites are dealt with in detail while in the marriage childbirth and mortuary rituals point to a shift in Toraja beliefs Where once both earth and celestial deities were expected to bless ritual participants the Toraja influenced by developments in their physical environment now devote their attention to the deities of the heavens while those of the earth are disappearing Borneo Research Bulletin, 1987
