Ibn Khalduns Philosophy Of History:

Ibn Khaldûn's Philosophy of History Muhsin Mahdi, 2015-10-14 This book first published in 1957 is the study of 14th century Arab historian Ibn Khaldun who founded a special science to consider history and culture based on the philosophy of Plato and Aristotle and their Muslim followers In no other field has the revolt of modern Western thought against traditional philosophy been so far reaching in its consequences as in the field of history Ibn Khaldun realized that history is more immediately related to action than political philosophy because it studies the actual state of man and society He found that the ancients had not made history the object of an independent science and thought it was important to fill this gap A factual acquaintance with the conclusions of Ibn Khaldun s reflections on history is not the same as the full comprehension of their theoretical significance When these fundamental questions are answered it becomes possible to pose the specific question of the relation of Ibn Khaldun s philosophy of history or his new science of culture to other practical sciences and particularly to the art of history After an exposition of the major trends of Islamic historiography part of this book attempts to answer this question through the analysis of the method and intention of the sections of the History where Ibn Khaldun himself examines the works of major Muslim historians shows the necessity of the new science of culture and distinguishes it from other practical sciences

Ibn Khaldun's Philosophy of History, 2007 **Ibn Khaldûn's Philosophy of History** Muhsin Mahdî, 1964 *Asabiyya and State* Kamal Mirawdeli, 2015-07-10 Ibn Khalduns chief contribution lies in philosophy of history and sociology He sought to write a world history pre ambled by a first volume aimed at offering a theoretical analysis of historical events This volume commonly known as Muqaddimah or Prolegomena was based on Ibn Khalduns unique theoretical approach and original scientific contribution and became a masterpiece in literature on philosophy of history and sociology In this book Dr Kamal Mirawdeli reconstructs Ibn Khalduns theory of history in a clear systematic way grasping not only his original themes and innovative ideas but also offering a very accessible analytical context which helps the reader to understand the conditions of the possibility of Ibn Khalduns philosophy of history its mode of existence and its political function as a tool for explaining the relationship between knowledge and power An Arab Philosophy of History Ibn

Ibn Khaldun and the Social Sciences Javad Tabatabai, 2024-10-16 Arabic and European studies of Ibn Khaldun the great medieval polymath follow one of two paths In one direction scholars interpret his Prolegomena written in 1377 as the point at which the new social sciences emerged They identify Ibn Khaldun s new science of culture as sociology or as an Islamic or Arab alternative to sociology In the other direction the interpretation of Khaldunian discourse is confined to the Islamic Aristotelian paradigm of its time The epistemological novelty of the Prolegomena is dismissed and the science of culture is perceived as a minor contribution to the Aristotelian curriculum Charting a different path Javad Tabatabai s highly original *Ibn Khaldun and the Social Sciences* is an inquiry into the condition of the impossibility of the social sciences in the Islamic Aristotelian paradigm Rather than identifying the science of culture as a forerunner of or alternative to

sociology it investigates the Prolegomena within the epistemological framework established by the social sciences Javad Tabatabai theorizes the condition of impossibility of the scientific revolution as the epistemic obstacle to modernity in Islamic civilization This theorization revisits Michel Foucault's discussion of the condition of possibility of the human sciences in light of the history of Christian Aristotelian thought and the broader French debates about epistemology from Bachelard to Althusser Ibn Khaldun and the Social Science offers a critical theory of tradition and modernity in the Middle East elaborating on a historical situation where social and human sciences emerged by the way of colonial and post colonial translations of discourse from Europe and in a historical and epistemological break with inherited traditions of knowledge In this situation Tabatabai highlights the significance of reactivating Ibn Khaldun's critical reckoning with the limit of inherited traditions as the political theological horizon of renewal *An Arab Philosophy of History* Ibn Khaldūn, 1958 **An Arab Philosophy of History** Ibn Khaldūn, 1955 **An Arab Philosophy of History** Ibn Khaldūn, 1968 The Invention of Humanity Siep Stuurman, 2017-02-20 For much of history strangers were seen as barbarians seldom as fellow human beings The notion of common humanity had to be invented Drawing on global thinkers Siep Stuurman traces ideas of equality and difference across continents and civilizations from antiquity to present day debates about human rights and the clash of civilizations *Fifty Key Thinkers on History* Marnie Hughes-Warrington, 2007-10-31 *Fifty Key Thinkers on History* is a superb guide to historiography through the ages The cross section of debates and thinkers covered is unique in its breadth taking in figures from ancient China Greece and Rome through the Middle Ages to contemporary Europe America Africa and Australia from Bede to Braudel Marx to Michelet Ranke to Rowbotham Foucault to Fukuyama Each clear and concise essay offers biographical information a summary and discussion of the subject's approach to history and how others have engaged with it a list of their major works and a guide to diverse resources for further study including books articles films and websites An Arab Philosophy of History, 1950 **Methodology of History** Y. Topolski, 2012-12-06 No discipline has been more praised or more criticized than the writing of history Cicero claimed that history teaches men how to live Aristotle denied it the very name of science and regarded poetry as the higher wisdom At various times history has been assigned a commanding or a demeaning status in the hierarchy of sciences Today one can admire the increasing precision and sophistication of the methods used by historians On the other hand Thucydides' *History of the Peloponnesian War* still serves as the ideal model of how to reconstruct the historical past Even those who deny the possibility of an objective reconstruction of the past would themselves like to be recorded by historians objectively or not Dislike of history and fear of its verdict are not incompatible with reverence and awe for its practitioners the historians So man's attitude to history is ambiguous The controversy about history continues Widely differing issues are at stake Historians themselves however are the least engaged in the struggle Rarely does a historian decide to open the door of his study and join in the melee about the meaning of history More often he slams it shut and returns to his studies oblivious of the fact that with the passage of time the gap between his

scientific work and its audience might widen The historian does not shun the battle he merely chooses his own battleground

Global Intellectual History Samuel Moyn, Andrew Sartori, 2013-06-25 Where do ideas fit into historical accounts that take an expansive global view of human movements and events Teaching scholars of intellectual history to incorporate transnational perspectives into their work while also recommending how to confront the challenges and controversies that may arise this original resource explains the concepts concerns practice and promise of global intellectual history featuring essays by leading scholars on various approaches that are taking shape across the discipline The contributors to Global Intellectual History explore the different ways in which one can think about the production dissemination and circulation of global ideas and ask whether global intellectual history can indeed produce legitimate narratives They discuss how intellectuals and ideas fit within current conceptions of global frames and processes of globalization and proto globalization and they distinguish between ideas of the global and those of the transnational identifying what each contributes to intellectual history A crucial guide this collection sets conceptual coordinates for readers eager to map an emerging area of study

An Arab Philosophy of History, 1958 *An Arab Philosophy of History* 'Abd-ar-Raḥmān Ibn-Muḥammad Ibn-Ḥaldūn, 'Abdarrahmān b. Muḥammad Ibn Ḥaldūn, 1958

The History of the Maghrib Abdallah Laroui, 2015-03-08 This survey of North African history challenges both conventional attitudes toward North Africa and previously published histories written from the point of view of Western scholarship The book aims in Professor Laroui's words to give from within a decolonized vision of North African history just as the present leaders of the Maghrib are trying to modernize the economic and social structure of the country The text is divided into four parts the origins of the Islamic conquest the stages of Islamization the breakdown of central authority from the sixteenth to the eighteenth centuries and the advent of colonial rule Drawing on the methods of sociology and political science as well as traditional and modern historical approaches the author stresses the evolution marked by these four stages and the internal forces that affected it Until now the author contends North African history has been written either by colonial administrators and politicians concerned to defend foreign rule or by nationalist ideologues Both used an old fashioned historiography he asserts focusing on political events dynastic conflicts and theological controversies Here Abdallah Laroui seeks to present the viewpoint of a Maghribi concerning the history of his own country and to relate this history to the present structure of the region Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
