Ibogaine Proceedings From The First International Conference:

Ibogaine: Proceedings of the First International Conference Kenneth R. Alper, 2001 Ibogaine Geoffrey A. Cordell, 2001-09-28 This book presents the Proceedings from the First International Conference on Ibogaines held in November of 1999 at New York University's School of Medicine. In essence it presents significant new data on neurobiological, clinical, sociocultural, and policy aspects of ibogaine. Ibogaine is a natural product derived from the bark of the root of the African shrub Tabernaemontana iboga. It has a history of use as a medicinal and ceremonial agent in West Central Africa and has been alleged to be effective as a treatment for substance dependence. The study of Ibogaine may shed light on the neurobiology of addiction and lead to the development of new medication for the treatment of addiction. Currently there is lack of formal approval for the use of ibogaine and the demand of the addicts themselves has led to a distinctive unofficial network which has provided ibogaine treatment in non medical settings. If critical safety concerns can be adequately addressed, ibogaine may provide an inexpensive and practical treatment approach well adapted to environments where resources are severely limited and there is pressing need for clinical services for heroin addicts such as Eastern Europe. This is a paperback edition of Volume 56 of The Alkaloids, ISBN 0 12 469556 6, edited by Geoffrey A. Cordell, University of Illinois at Chicago, U.S.A. Index Medicus, 2002 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings **Amazing Grace** Lee Albert, 2004-08-10 He was chosen meekly to die an inner death but had one gift hidden in his meek voice: the gift of editing. To starkness the quest that had entombed his captured soul. Now the world can hear this child's plea as he brings to life the Holy Grail Quest. Born into a culture of sexual ignorance and denial, he is unable to realize his deepest dreams due to inexplicable fears and a deep sense of shame. His life, however, is held together by a sense of the divine experience born from a love of singing. He is driven to succeed and travels through 36 countries over 21 years. Eventually realizing he is a captive prisoner, he turns for help to a little known African plant. He then watches in horror as his soul releases itself and begins a journey of reclamation. We see through the author's naked self the underlying factors which give rise to modern Ireland as he struggles and ultimately succeeds to free himself from their chains: the Irish psyche and its history are laid bare. This, the first of three books, paves the way for an eclectic look at spirituality in the modern world in the context of African Spirituality, Western History, and the banished Child within, and offers a powerfully effective old way adapted to the 21st century to heal the hurt and pain that lies in all of us. Research, Reference Service, and Resources for the Study of Africa Deborah Lafond, Gretchen Walsh, 2013-04-15 Experts present proven methods and techniques for studying about or in Africa. Research Reference Services and Resources for the Study of Africa helps you steer clear of washouts, cave-ins, and dead ends on the road to successful research on Africa. This one-of-a-kind research guide presents practical solutions to frequently occurring problems in the study of Africa, including Internet accessibility problems, errors that will affect a known item search, the imposition of colonial legacy, and dealing with gender and class bias. Unlike most references on Africa that concentrate on

collection development this unique book focuses on the study of Africa making it a must have for academic librarians Africanist scholars and Africana librarians Specialists generalist librarians and end users all depend on tools designed to provide access to information in libraries and on the web including OPACs databases and search engines In this book these tools research methods and the accessibility of information on Africa are examined offering students and professionals a thorough guide to the most successful researching route Research Reference Services and Resources for the Study of Africa provides assistance in the research process according to a variety of categories including evaluating OPACs and similar databases for known item searching using keywords subject headings bias indexing full text searching terminology cataloguing user centered information services and other search strategies to find what you are looking for using Internet resources to your advantage using the partnerships between the U S and African libraries and scholarly institutions to help improve information access using techniques for reference librarians to act as a force increasing women s roles in the study of Africa and much more Research Reference Services and Resources for the Study of Africa offers all the information necessary to avoid research hang ups that affect the study of Africa and the necessary information to pass these skills on to students

Ibogaine - Freedom From Addiction Naturally Shé D'Montford, 2014-10-21 This plant derived substance not only alleviates almost all if not all the withdrawals but also helps the addict understand the nature of the addiction Does this mean that this ancient sacred plant substance is the long sort after addiction vaccine Can such a thing exist Yes it most surely does

Iboga Lee Albert, 2013-07-18 Iboga a journey of the soul Albert Lee deftly combines real explanation of ibogaine a natural psychoactive substance from Africa with insights on personal spiritual development and self reflections on a changing Irish culture and a candid autobiography The author describes with power and emotion the experience that is growing up in a small town in the Irish Republic in a time when both the population and the institutions were controlled by the Catholic Church Having spent two years studying to become a priest the author gave a twist to his religious faith and embarked on a geographical and spiritual odyssey that culminated in an inner transformation performed by iboga a powerful sacred plant consumed in an African ceremony and in the West ibogaine substance is used to help overcome addiction to heroin Use a particular level has been banned in several countries including the United States although as demonstrated Albert is not at all a recreational substance and has amazing healing properties This first book on ibogaine for the general public of Albert Lee combines real information based on solid arguments about their experience with iboga along with personal recollections about how it gave him the opportunity to conduct an inner transformation This process allowed him to heal psychic wounds and get value the

spiritual world to achieve this through an integrated reality that Albert compared to Holy Grail of Arthurian legends connection Iboga a journey of the soul a unique and momentous book in line to get Carlos Castaneda fascinate and enlighten readers interested in personal development spirituality and nature of the therapeutic and transformative use of mind altering substances is all accompanied by reflections about the Irish culture and identity Highly recommended for all readers interested
