**Knowledge and Imagination in 19th Century Philological Research on Northern Europe** Joachim Grage, Thomas Mohnike, 2017-08-21 Comparative philology was one of the most prolific fields of knowledge in the humanities during the 19th century. Based on the discovery of the Indo-European language family, it seemed to admit the reconstruction of a common history of European languages and even mythologies, literatures, and people. However, it also represented a way to establish geographies of belonging and difference in the context of 19th-century nation building and identity politics. In spite of a widely acknowledged consensus about the principles and methods of comparative philology, the results depended on local conditions and practices. If Scandinavians were considered to be Germanic or not, for example, was up to identity politics that differed in Berlin, Strasbourg, Copenhagen, and Paris. The contributors here elaborate these dynamics through analyses of the changing and conflicting versions of imaginative geographies that the actors of comparative philology evoked by using Scandinavian literatures and cultures. They also show how these seemingly delocalized scientific models depended on ever different local needs and practices. Through this, the book represents the first distinctly transnational dynamic geography and history of the philological knowledge of the North, not only as a history of a scientific discourse but also as a result of doing and performing scientific work.

**Performing Arts in Changing Societies** Randi Margrete Selvik, Svein Gladsø, Anne Margrete Fiskvik, 2020-05-07 Performing Arts in Changing Societies is a detailed exploration of genre development within the fields of dance, theatre, and opera in selected European countries during the decades before and after 1800. An introductory chapter outlines the theoretical and ideological background of genre thinking in Europe, starting from antiquity. A further fourteen chapters cover the performing genres as they developed in England, France, Germany, and Austria, and follow the dissemination and adaptation of the corresponding genres in minor and major cities in the Nordic countries. With a strong emphasis on the role that pragmatic and contextual factors had in defining genres, the book examines such subjects as the dancing masters in Christiania (Oslo) circa 1800, the repertory and travels of an itinerant acrobat and his wife in Norway in the 1760s, and the influence of Enlightenment ideas on bourgeois drama in Denmark. Including detailed analyses in the light of material, political, and social factors, this is a valuable resource for scholars and researchers in the fields of musicology, opera studies, and theatre and performance studies.

**Chinese Ibsenism** Kwok-kan Tam, 2019-09-10 This book is a study of the relation between theatre art and ideology in the Chinese experimentations with new selfhood as a result of Ibsen's impact. It also explores Ibsenian notions of self, women, and gender in China and provides an illuminating study of Chinese theatre as a public sphere in the dissemination of radical ideas. Ibsen is the major source of modern Chinese selfhood, which carries notions of personal and social liberation and has exerted great impacts on Chinese revolutions since the beginning of the twentieth century. Ibsen's idea of the self as an individual has led to various experimentations in theatre, film, and fiction to project new notions of selfhood, in particular women's selfhood, throughout the history of modern China. Even today, China is experimenting with Ibsen's notions of gender, power, individualism, and self. Kwok-kan Tam is Chair Professor of English and
