Zelda Fitzgerald Sally Cline, 2013-07-04 Zelda Fitzgerald along with her husband F Scott Fitzgerald is remembered above all else as a personification of the style and glamour of the roaring twenties an age of carefree affluence such as the world has not seen since But along with the wealth and parties came a troubled mind at a time when a woman exploiting her freedom of expression was likely to attract accusations of insanity After 1934 Zelda spent most of her life in a mental institution outliving her husband by few years she died in a fire as she was awaiting electroconvulsive therapy in a sanatorium Zelda's story has often been told by detractors who would cast her as a parasite in the marriage most famously Ernest Hemingway accused her of taking pleasure in blunting her husband's genius when she wrote her autobiographical novel Fitzgerald himself complained she had used his material But was this fair when Fitzgerald's novels were based on their life together Sally Cline's biography first published in 2003 makes use of letters journals and doctor's records to detail the development of their marriage and to show the collusion between husband and doctors in a misdirected attempt to cure Zelda's illness Their prescription no dancing no painting and above all no writing left her creative urges with no outlet and was bound to make matters worse for a woman who thrived on the expression of allure and wealth

Women's Fiction 1945-2005 Deborah Philips, 2007-11-01 Organised around each decade of the post war period this book analyses novels written by and for women from 1945 to the present Each chapter identifies a specific genre in popular fiction for women which marked that period and provides case studies focusing on writers and texts which enjoyed a wide readership Despite their popularity these novels remain largely outside the canon of women's writing and are often unacknowledged by feminist literary criticism However these texts clearly touched a nerve with a largely female readership and so offer a means of charting the changes in ideals of femininity and in the tensions and contradictions in gender identities in the post war period Their analysis offers new insights into the shifting demands aspirations and expectations of what a woman could and should be over the last half century Through her analysis of women's writing and reading Philips sets out to challenge the distinction between popular and

literary fiction arguing that neat categories such as popular middle brow and serious fiction need more careful definition
