Country of Exiles William R. Leach,2011-08-10 In *Country of Exiles* William Leach whose *Land of Desire* was a finalist for the National Book Award explores the troubling effects of our national love affair with mobility He shows us how the impulse to pull up stakes and find a new frontier has always battled with the need to put down roots and how a new cosmopolitanism has seized our national identity Leach takes us across a featureless America where strip malls homogenize a

once varied and majestic landscape and where casinos displace the Native American spiritual connection to the land He shows us a culture where everyone from CEOs to office temps abandons the notion of company loyalty and where rootless academics posit a world without borders With compelling vision and insight Leach reveals the profound but often hidden impact of America's disintegrating sense of place on our national and individual psyche **The Undiscovered Country** Melek Ortabasi, 2020-05-11 Yanagita Kunio 1875-1962 was a public intellectual who played a pivotal role in shaping modern Japan's cultural identity A self-taught folk scholar and elite bureaucrat he promoted folk studies in Japan So extensive was his role that he has been compared with the fabled Grimm Brothers of Germany and the great British folklorist James G Frazer 1854-1941 author of *The Golden Bough* This monograph is only the second book-length English language examination of Yanagita and it is the first analysis that moves beyond a biographical account of his pioneering work in folk studies An eccentric but insightful critic of Japan's rush to modernize Yanagita offers a compelling array of rebuttals to mainstream social and political trends in his carefully crafted writings Through a close reading of Yanagita's interdisciplinary texts which comment on a wide range of key cultural issues that characterized the first half of Japan's twentieth century Melek Ortabasi seeks to reevaluate the historical significance of his work Ortabasi's inquiry simultaneously exposes discursively some of the fundamental assumptions we embrace about modernity and national identity in Japan and elsewhere Votes & Proceedings New South Wales. Parliament. Legislative Council, 1903 Management Challenges for Africa in the Twenty-First Century Felix M. Edoho, 2000-12-30 Edoho and his contributors examine the management challenges facing African governments and businesses on the eve of a new millennium As the authors make clear Africa's future is defined by how Africa does in the 21st century For Africa a major challenge is how to effectively and efficiently manage its vast wealth Africa is not poor because it is poor it is poor because it cannot manage its development process The shortages of managerial knowledge skills and talents are pervasive Consequently the region lacks the ability to organize production and run operations effectively and efficiently The task of developing managerial manpower in Africa is not only imperative it is urgent After outlining theoretical and applied perspectives on management the volume examines the public and private sector planning and management It then explores the globalization of management technology provides case studies of African management dilemmas looks at management ethics and morality and concludes with an analysis of the role of management in African national development As the authors make clear abundant resources will not of themselves usher in an African economic renaissance Africa needs skills to identify and analyze its resources to undertake investment and to establish and run all kinds of organizations Until Africa develops its indigenous managerial talents development will continue to be elusive and the process traumatizing An important resource for scholars students and policy makers involved with African economic development Societal Peace and Ideal Citizenship for Turkey Pinar Enneli, Rasim Özgür Dönmez, 2011-08-16 Globalisation and neo liberalism have been impacting the nation state and leading the full citizenship concept into crisis not only in Turkey

but also in the world While one reason for this crisis is the decline of the welfare state another reason stems from the fluidity of borders that distorts the classical patterns of the nation state such as meta identity The existing Turkish citizenship inherited a strong state idea with passive citizenship tradition from the Ottoman Empire However this understanding is no longer sustainable for Turkish society The definition of citizenship through state led nationalism secularism and a free market economy creates societal crises in politics and society The aim of this book is to find out the answer of what should be the ideal citizenship regime for Turkey Various scholars dealing with Turkish socio politics analyze different aspects and problems of Turkish citizenship regime that should be tackled for finding a recipe for ideal citizenship in Turkey

The Country Home, 1912 Sustainable Family Farming and Yeoman Ideals Rena R. Henderson, 2021-12-30 Within the frame of family farming this book offers a longitudinal study of the Castra district in North West Tasmania from first European settlement to the end of the twentieth century It draws upon historical sources for yeomanry characteristics from Britain Canada the USA New Zealand and Australian mainland colonies to show how these characteristics were persistently supportive of family farming Surveying farming communities over several generations this book explores a range of topics including colonial surveying practices settler families motivation attributes and demographics the role of Methodism the ways children were inculcated into yeoman farming enterprises the role of women as companionate wives and the political participation of farmers in the public sphere The book also offers a new perspective of three commonly held myths of settlement failure the settlement of retired Anglo Indian military and civil officers in the 1870s the settlement of soldiers on small farms after the Great War and the claims that the ideal of yeoman family farming was anachronistic to capitalist commodity production The book draws from a wide selection of previously underused primary source materials including oral histories from current and past residents to provide a comprehensive overview of an important aspect of rural Australian history The book is a valuable contribution to Australian historiography and will be a useful resource for students and scholars of rural history social history environmental history colonialism and sustainable agriculture **Organizing**

Muslims and Integrating Islam in Germany Kerstin Rosenow-Williams, 2012-10-19 In **Organizing Muslims and Integrating Islam in Germany** Kerstin Rosenow Williams analyzes the challenges faced by Islamic organizations in Germany since the beginning of the 21st century Outlining the expectations German political actors have of Islamic organizations and the internal interests of these organizations the author illustrates that organizational response strategies involve patterns not only of adaptation but also of decoupling and protest The study introduces an innovative research framework based on organizational sociology and provides empirical insights into three major Islamic umbrella organizations DITIB IGMG ZMD and their relationships with other actors The comprehensive analysis of the German institutional environment and related developments in Islamic organizations makes this study highly relevant to scholars and politicians as well as the general

public For God and Country Peter C. Mentzel, 2021-03-11 Religion and nationalism are both powerful and important markers of individual identity but the relationship between the two has been a source of considerable debate Much if not most of the early work done in Nationalism Studies has been based at least implicitly on the idea that religion as a genealogical carrier of identity was displaced with the advent of secular modernity which was caused by nationalism Or to put it another way national identity and its ideological manifestation nationalism filled the void left in people s self identification as religion retreated in the face of modernity Since at least the late 1990s this view has been increasingly challenged by scholars trying to account for the apparent persistence of religious identities Perhaps even more interestingly scholars of both religion and nationalism have noted that these two kinds of self identification while sometimes being tense as the earlier models explained are also frequently coexistent or even mutually supportive This collection of essays explores the current thinking about the relationship between religion and nationalism from a variety of perspectives using a number of different case studies What all these approaches have in common is their interest in complicating our understandings of nationalism as a primarily secular phenomenon by bringing religion back into the discussion
