Frederic Leighton KerenRosa Hammerschlag,2017-07-05 Keren Rosa Hammerschlag s Frederic Leighton Death Mortality Resurrection offers a timely reexamination of the art of the late Victorian period s most institutionally powerful artist Frederic Lord Leighton 1830 1896 As President of the Royal Academy from 1878 to 1896 Leighton was committed to the pursuit of beauty in art through the depiction of classical subjects executed according to an academic working method But as this book reveals Leighton s art and discourse were beset by the realisation that academic art would likely die with him Rather than achieving classical perfection Hammerschlag argues Leighton s figures hover in transitional states between realism and idealism flesh and marble life and death as gothic distortions of the classical ideal The author undertakes close readings of key paintings sculptures frescos and drawings in Leighton s oeuvre and situates them in the context of contemporaneous debates about death and resurrection in theology archaeology and medicine The outcome is a pleasurable macabre counter biography that reconfigures what it meant to be not just a late Victorian neoclassicist and royal academician but President of the Victorian Royal Academy **The Palgrave Handbook of Communist Women Activists around the World** Francisca de Haan,2023-01-23 This Handbook addresses the role of women in communism as a global social and political movement for the first time exploring their lives forms of activism political strategies and transnational networks Comprising twenty five chapters based on new and primary research the book presents the lives of self identified communist women from a truly international perspective and outlines their struggles against fascism and colonialism and for women s emancipation and national liberation By using the lens of transnational political biography the chapters capture the broader picture of these women s lives unpacking the links between the so called public and private the power structures and inequalities of their societies the formal networks and politics in which they were involved and the informal connections and

friendships that supported their activism both at the national and international level Challenging androcentric and Eurocentric narratives about communism this Handbook reveals the active and significant roles of women in nineteenth and twentieth century communist movements and regimes and highlights the importance of communist women in shaping the agenda for women's rights worldwide
