Field Guide To Sprawl:

A Field Guide to Sprawl Dolores Hayden, 2004 A visual lexicon of the colorful slang from alligator investment to zoomburb that defines sprawl in America May well establish Ms Hayden as the Roger Tory Peterson of Sprawl New York Times

The Street Naa Oyo A. Kwate, 2021-05-14 Using MacArthur fellow Camilo Jos Vergara's intimate street photographs of Camden New Jersey as reference points the essays in this collection address everything from law enforcement to health care in order to analyze these images within the context of troubled histories and misguided policies that have exacerbated racial and economic inequalities

Sprawling Cities and Our Endangered Public Health Stephen Verderber, 2012-05-31 Sprawl is an unsustainable pattern of growth that threatens to undermine the health of communities globally It has been a dominant mid to late twentieth century growth pattern in developed countries and in the twenty first century has shown widespread signs of proliferation in India China and other growing countries The World Health Organization cites sprawl for its serious adverse public health consequences for humans and ecological habitats The many adverse impacts of sprawl on the health of individuals communities and biological ecosystems are well documented Architects have been rightly criticized for failing to grasp the aesthetic and functional challenge to create buildings and places that mitigate sprawl while simultaneously promoting healthier active lifestyles in neighbourhoods and communities *Sprawling Cities and Our Endangered Public Health* examines the past and present role of architecture in relation to the public health consequences of unmitigated sprawl and the ways in which it threatens our future Topics examined include the role of twentieth century theories of architecture and urbanism and their public health ramifications examples of current unsustainable practices design considerations for the creation of health promoting architecture and landscape urbanism a critique of recent case studies of sustainable alternatives to unchecked sprawl and prognostications for the future Architects public health professionals landscape architects town planners and a broad range of policy specialists will be able to apply the methods and tools presented here to counter unmitigated sprawl and to create architecture that promotes active healthier lifestyles Stephen Verderber is an internationally respected evidence based researcher practitioner educator in the emerging interdisciplinary field of architecture health and society This his latest book on the interactions between our buildings our cities and our health is an invaluable reference source for everyone concerned with sustainable architecture and landscape urbanism

The Aesthetics of Nostalgia TV Alex Bevan, 2019-02-07 The Aesthetics of Nostalgia TV explores the aesthetic politics of nostalgia for 1950s and 60s America on contemporary television Specifically it looks at how nostalgic TV production design shapes and is shaped by larger historical discourses on gender and technological change and America's perceived decline as a global power Alex Bevan argues that the aesthetics of nostalgic TV tell stories of their own about historical decline and progress and the place of the baby boomer television suburb in American national memory She contests theories on nostalgia that see it as stagnating regressive or a reversion to outdated gender and racial politics and the technophobic longing for a bygone era and instead argues nostalgia is an important form of historical memory and vehicle for negotiating periods of historical transition The book addresses how and why the shows construct the boomer era as a placeholder for gender racial technological and declensionist discourses of the present The book uses *Mad Men* AMC 2007 2015 *Ugly Betty* ABC 2006 2010 *Desperate Housewives* ABC 2004 2012 and film remakes of 1950s and 60s family sitcoms as primary case studies

see America for what it really is There is something deeply strange and finally unknowable about this book in the very best way Ben Marcus author of *The Flame Alphabet* *Look Closer* David R. Coon,2013-12-17 In recent years the media landscape in the United States has followed a pattern similar to that of the physical landscape by becoming increasingly suburbanized Although it is a far cry from reality the fantasy of a perfect suburban life still exists in the collective imagination of millions of Americans This dream of suburban perfection is built around a variety of such ideologically conservative values and ideals as the importance of tradition the centrality of the nuclear family the desire for a community of like minded neighbors the need for clearly defined gender roles and the belief that with hard work and determination anyone can succeed Building on the relationships between suburban life and American identity *Look Closer* examines and interprets recent narratives that challenge the suburban ideal to reveal how directors and producers are mobilizing the spaces of suburbia to tell new kinds of stories about America David R Coon argues that the myth of suburban perfection popularized by postwar sitcoms and advertisements continues to symbolize a range of intensely debated issues related to tradition family gender race and citizenship Through close examinations of such films as *American Beauty* *The Truman Show* and *Mr Mrs Smith* as well as such television series as *Desperate Housewives* *Weeds* and *Big Love* the book demonstrates how suburbia is used to critique the ideologies that underpin the suburban American Dream *The New American Landscape* Thomas Christopher,2011-04-21 Gardeners are the front line of defense in our struggle to tackle the problems of global warming loss of habitat water shortages and shrinking biodiversity In *The New American Landscape* author and editor Thomas Christopher brings together the best thinkers on the topic of gardening sustainably and asks them to describe the future of the sustainable landscape The discussion unfolds from there and what results is a collective vision as eloquent as it is diverse *The New American Landscape* offers designers a roadmap to a beautiful garden that improves not degrades the environment It s a provocative manifesto about the important role gardens play in creating a more sustainable future that no professional garden designer can afford to miss John Greenlee and Neil Diboll on the new American meadow garden Rick Darke on balancing natives and exotics in the garden Doug Tallamy on landscapes that welcome wildlife Eric Toensmeier on the sustainable edible garden David Wolfe on gardening sustainably with a changing climate Elaine Ingham on managing soil health David Deardorff and Kathryn Wadsworth on sustainable pest solutions Ed Snodgrass and Linda McIntyre on green roofs in the sustainable residential landscape Thomas Christopher on waterwise gardens Toby Hemenway on whole system garden design *The Sustainable Site Initiative* on the managing the home landscape as a sustainable site *The Hub's Metropolis* James C. O'Connell,2013-03-22 The evolution of the Boston metropolitan area from country villages and streetcar suburbs to exurban sprawl and smart growth Boston s metropolitan landscape has been two hundred years in the making From its proto suburban village centers of 1800 to its far flung automobile centric exurbs of today Boston has been a national pacesetter for suburbanization In *The Hub s Metropolis* James O Connell charts the evolution of Boston s suburban

development The city of Boston is compact and consolidated famously the Hub Greater Boston however stretches over 1 736 square miles and ranks as the world s sixth largest metropolitan area Boston suburbs began to develop after 1820 when wealthy city dwellers built country estates that were just a short carriage ride away from their homes in the city Then as transportation became more efficient and affordable the map of the suburbs expanded The Metropolitan Park Commission s park and parkway system developed in the 1890s created a template for suburbanization that represents the country s first example of regional planning O Connell identifies nine layers of Boston s suburban development each of which has left its imprint on the landscape traditional villages country retreats railroad suburbs streetcar suburbs the first electric streetcar boulevard Beacon Street in Brookline was designed by Frederic Law Olmsted parkway suburbs which emphasized public greenspace but also encouraged commuting by automobile mill towns with housing for workers upscale and middle class suburbs accessible by outer belt highways like Route 128 exurban McMansion dotted sprawl and smart growth Still a pacesetter Greater Boston has pioneered antisprawl initiatives that encourage compact mixed use development in existing neighborhoods near railroad and transit stations O Connell reminds us that these nine layers of suburban infrastructure are still woven into the fabric of the metropolis Each chapter suggests sites to visit from Waltham country estates to Cambridge triple deckers

American Democracy and the Pursuit of Equality Merlin Chowkwanyun, Randa Serhan, 2016-01-08

This collection assembles some of the country s foremost social scientists in one volume It contains diverse investigations of metropolitan transformation recent education policy the in justice of disaster relief the politics of aesthetics and design immigration the mass media social movements and the practice of social science itself among others Whatever their subjects the writers investigate the promise and constraints of democratic practice in a time of disturbing growth in inequality and political disempowerment Although they at times differ from one another more often they challenge popular received wisdom on a number of these topics Cumulatively the volume amounts to a critical sociological excavation of the United States from its leading social critics that will prove useful to specialists and general readers alike

The Politics of Public Space Setha Low, Neil Smith, 2013-01-11 Why is public space disappearing Why is this disappearance important to democratic politics and how has it become an international phenomenon Public spaces are no longer democratic spaces but instead centres of private commerce and consumption and even surveillance and police control The Politics of Public Space extends the focus of current work on public space to include a consideration of the transnational in the sense of moving people and transformations in the nation or state to expand our definition of the public and public space Ultimately public spaces are one of the last democratic forums for public dissent in a civil society Without these significant central public spaces individuals cannot directly participate in conflict resolution The Politics of Public Space assembles a superb list of contributors to explore the important political dimensions of public space as a place where conflicts over cultural and political objectives become concrete

Sprawling Places David Kolb, 2008-01-01 Theme parks suburban sprawl anonymous functional places

such as airports and parking lots are real human spaces contends Kolb emeritus philosophy Bates College He argues that they must be measured in terms of their own new forms of connection rather than against classic hierarchical unities The final section narrows the focus to suburban sprawl which he defends against many but not all criticisms and proposes policy changes to make suburbia more complex just and humane Annotation 2008 Book News Inc Portland OR booknews com

Freud/Lynch Stefan Marianski, Jamie Ruers, 2022-09-29 The films of David Lynch are sometimes said to be unintelligible They confront us with strange dreamscapes populated with bizarre characters obscure symbols and an infuriating lack of narrative consistency Yet despite their opacity they hold us transfixed Lynch who once told an interviewer I love dream logic would surely agree with Sigmund Freud's famous claim that before the problem of the creative artist psychoanalysis must lay down its arms But what else might the two agree on Rather than presuming to fill in what Lynch leaves open by positing some forbidden psychosexual reality lurking behind his trademark red curtains this book instead maintains a fidelity to the mysteries of his wonderful and strange filmic worlds finding in them productive spaces where thought and imagination can be set to work With contributions from scholars psychoanalysts cinephiles and filmmakers this collection of essays explores potential affinities and disjunctions between Lynch and Freud Encompassing themes such as art identity architecture fantasy dreams hysteria and the unconscious Freud Lynch takes as its point of departure the possibility that the enterprise in which these two distinct investigators are engaged might in some sense be a

Price, 2011-11-16 Although most people prefer not to think about the hazardous wastes munitions testing radioactive emissions and a variety of other issues affect the quality of land water and air in the Land of Enchantment as they do all over the world In this book veteran New Mexico journalist V B Price assembles a vast amount of information on more than fifty years of deterioration of the state s environment most of it hitherto available only in scattered newspaper articles and government reports Viewing New Mexico as a microcosm of global ecological degradation Price s is the first book to give the general public a realistic perspective on the problems surrounding New Mexico s environmental health and resources Conversions Emma O'Kelly, Corinna Dean, 2007 Addresses the growing trend in converting existing structures into a series of ingenious living spaces as it looks at varied projects from around the world in rural urban and civic buildings as well as lofts industrial spaces and other unique buildings examining such topics as what elements of the structure are left intact what are demolished how each building was converted into a dwelling budgets materials and impact on the surrounding environment **Dwell** , 2005-01 At Dwell we re staging a minor revolution We think that it s possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines Urban Land , 2007

Water David L. Feldman, 2013-04-26 Water is our planet s most precious resource It is required by every living thing yet a huge proportion of the world s population struggles to access clean water daily Agriculture aquaculture industry and energy all depend on it yet its provision and safety engender widespread conflict battles likely to intensify as threats to freshwater abundance and quality such as climate change urbanization new forms of pollution and the privatization of control continue to grow But must the cost of potable water become prohibitively expensive for the poor especially when supplies are privatized Do technological advances only expand supply or can they carry hidden risks for minority groups And who bears responsibility for managing the adverse impacts of dams funded by global aid organizations when their burdens fall on some while their benefits accrue to others In answering these and other pressing questions the book shows how control of freshwater operates at different levels from individual watersheds near cities to large river basins whose water when diverted is contested by entire countries Drawing on a rich range of examples from across the world it explores the complexity of future challenges concluding that nations must work together to embrace everyone s water needs while also establishing fair consistent criteria to promote available supply with less pollution
