Youth and Higher Education in Africa. The Cases of Cameroon, South Africa, Eritrea and Zimbabwe P. Chimanikire, 2009-08-15 Student activism in Africa at least since the early 1990s has been preoccupied with popular struggles for democracy in both their respective countries and institutions of higher learning The changing socio economic and political conditions in many African countries characterized by the decline in economic growth and the introduction of multi party politics among several other factors have had different impact on students and student political organizations in African universities This book recounts the responses of students to these changes in their attempt to negotiate better living and studying conditions The four case studies contained in the book Cameroon South Africa Zimbabwe and Eritrea clearly reveal the very important aspects of the situation in which African students find themselves in many countries and underscores the need to understand the character and development of higher education on the continent Ministries of Higher Education Vice Chancellors Deans of Students Student Unions and parents will find this book very useful in terms of understanding the tensions that often arise at institutions of higher learning and why solutions seem to be elusive

Ethical Liberalism in Contemporary Societies Krzysztof Wojciechowski, Jan C. Joerden, 2009 In July 2007 a conference entitled Ethical Liberalism in Contemporary Societies was hosted by the Collegium Polonicum in Subice Poland The conference was organised through collaboration between the Interdisciplinary Centre for Ethics at the European University Viadrina Frankfurt Oder and the Collegium Polonicum a joint institution of the European University Viadrina Frankfurt Oder and the Adam Mickiewicz University Pozna This volume collects the contributions to this conference The problematics of liberalism affects ethicists and philosophers not only in Europe but also in Latin America and the Middle East Scholars from these three regions met to discuss the role that the ethical aspect of liberal thought can play in the contemporary world They also approached ethical liberalism from a historical

perspective Focusing on ethical liberalism s interconnectedness with politics globalisation and culture the conference participants not only elaborated on theoretical approaches but also turned their attention to empirical case studies This volume presents their thoughts and contributions which although naturally fragmentary are symptomatic of the present day and age *Education, Equality, and Meritocracy in a Global Age* Takehiko Kariya,Jeremy Rappleye,2020 Kariya and Rappleye focus on the Japanese model looking at the country s educational history and policy shifts They show how the Japanese experience can inform global approaches to educational reform and policymaking and how this kind of exploration can reinvigorate a more rigorous discussion of meritocracy equality and education This book is made available as an open access electronic publication with the generous support of the Suntory Foundation **Moral Minority** David R.

Swartz,2012-09-07 In 1973 nearly a decade before the height of the Moral Majority a group of progressive activists assembled in a Chicago YMCA to strategize about how to move the nation in a more evangelical direction through political action When they emerged the Washington Post predicted that the new evangelical left could shake both political and religious life in America The following decades proved the Post both right and wrong evangelical participation in the political sphere was intensifying but in the end it was the religious right not the left that built a viable movement and mobilized electorally How did the evangelical right gain a moral monopoly and why were evangelical progressives who had shown such promise left behind In *Moral Minority* the first comprehensive history of the evangelical left David R Swartz sets out to answer these questions charting the rise decline and political legacy of this forgotten movement Though vibrant in the late nineteenth century progressive evangelicals were in eclipse following religious controversies of the early twentieth century only to reemerge in the 1960s and 1970s They stood for antiwar civil rights and anticonsumer principles even as they stressed doctrinal and sexual fidelity Politically progressive and theologically conservative the evangelical left was also remarkably diverse encompassing groups such as Sojourners InterVarsity Christian Fellowship Evangelicals for Social Action and the Association for Public Justice Swartz chronicles the efforts of evangelical progressives who expanded the concept of morality from the personal to the social and showed the way organizationally and through political activism to what would become the much larger and more influential evangelical right By the 1980s although they had witnessed the election of Jimmy Carter the nation s first born again president progressive evangelicals found themselves in the political wilderness riven by identity politics and alienated by a skeptical Democratic Party and a hostile religious right In the twenty first century evangelicals of nearly all political and denominational persuasions view social engagement as a fundamental responsibility of the faithful This most dramatic of transformations is an important legacy of the evangelical left **Holy Wars and Holy Alliance** Manlio Graziano,2017-04-11 Religions are reemerging in the social political and economic spheres previously occupied and dominated by secular institutions and ideologies In the wake of crises exposing the limits of secular modernity religions have again become significant players in domestic and international politics At the same time the Catholic Church

has sought a holy alliance among the world's faiths to recentralize devout influence an important albeit little noticed evolution in international relations Holy Wars and Holy Alliance explores the nation state's current crisis in order to better understand the religious resurgence's implications for geopolitics Manlio Graziano looks at how the Catholic Church promotes dialogue and action linking world religions and examines how it has used its material financial and institutional strength to gain power and increase its profile in present day international politics Challenging the idea that modernity is tied to progress and secularization Graziano documents the return or the revenge of God in all facets of life He shows that tolerance pluralism democracy and science have not triumphed as once predicted To fully grasp the destabilizing dynamics at work today he argues we must appreciate the nature of religious struggles and political holy wars now unfolding across the international stage

Russia's Geoeconomic Strategy for a Greater Eurasia Glenn Diesen, 2017-07-06 Moscow has progressively replaced geopolitics with geoeconomics as power is recognised to derive from the state's ability to establish a privileged position in strategic markets and transportation corridors The objective is to bridge the vast Eurasian continent to reposition Russia from the periphery of Europe and Asia to the centre of a new constellation Moscow's Greater Europe ambition of the previous decades produced a failed Western centric foreign policy culminating in excessive dependence on the West Instead of constructing Gorbachev's Common European Home the leaning to one side approach deprived Russia of the market value and leverage needed to negotiate a more favourable and inclusive Europe Eurasian integration offers Russia the opportunity to address this overreliance on the West by using the Russia's position as a Eurasian state to advance its influence in Europe Offering an account steeped in Russian economic statecraft and power politics this book offers a rare glimpse into the dominant narratives of Russian strategic culture It explains how the country's outlook adjusts to the ongoing realignment towards Asia while engaging in a parallel assessment of Russia's interactions with other significant actors The author offers discussion both on Russian responses and adaptations to the current power transition and the ways in which the economic initiatives promoted by Moscow in its project for a Greater Eurasia reflect the entrepreneurial foreign policy strategy of the country

Islam in Asia Colin Rubenstein, 2017-09-04 While the collapse of the Soviet Union and the Eastern bloc has contributed to the decline of communism as a revolutionary political force religious and ethnic issues have now assumed renewed and increased

significance in South East Asia Since the Islamic resurgence of the early 1980s and 1990s elements of a more radical political Islam have migrated from the Middle East to Asia If left unchecked these radical elements could aggravate a number of security and political crises in countries weakened by the consequences of the devastating Asian financial crisis In an increasingly globalized world it is not only the exchange of tangible goods across borders that is transmitted with multiplying efficiency and speed but the exchange of ideas across seamless borders assisted by the ever improving communications technology of the Internet and electronic mail Paradoxically globalization both creates social change that can spark a backlash in the form of Islamic radicalism and provides improved means for the spread of Islamic ideals This critical volume examines the advance and contours of Islamicism and analyzes the potential consequences that such activity poses in South East Asian region The study tracks the activities of external countries such as Iran Libya Pakistan and Saudi Arabia and highlights the key roles these countries play in East Asian economies politics religion and weapons procurement It focuses on four locations in South East Asia Indonesia Malaysia the southern Philippines and southern Thailand The introduction treats the Islamic resurgence in Asia its links to Middle Eastern Islam and its external influences Chapters 1 and 2 examine Islam and Politics in the New Indonesia and Islam Society Politics and Change in Malaysia chapters 3 and 4 discuss in detail Militant Islamic Extremism in the Southern Philippines and Militant Islamic Separatism in Southern Thailand A conclusion follows with an assessment of religious ext

New Asian Disorder Lowell Dittmer, 2021-12-14 In New Asian Disorder Rivalries Embroiling the Pacific Century Lowell Dittmer and his team explore the recent political disorder in East Asia resulting from growing Sino American polarization The rise of China in recent years is widely regarded as a momentous shift in the global balance of power China is now extending sovereignty into the East China Sea and the South China Sea constructing a new set of global financial institutions and replacing universal values with technologically enhanced nationalism The country's Belt and Road Initiative is also tainted by the vast ambition to realize the China Dream within the foreseeable future In response to China's challenge the United States has abandoned its constructive engagement policy towards the rising power and engaged in a trade war Sino American relations have been at a historical trough since the normalization of their relationship in the late 1970s This book sheds new light on the current political disorder in the East Asian international arena The new Asian disorder is analyzed from three perspectives the first focuses on identity the second on political economy and the third on the triangular dynamic This collection of essays concludes that unless and until consensus can be reached on a coherent new framework for cooperation and rule enforcement among different stakeholders in East Asia the current disorder may be expected to persist Focusing on the impact of Xi Jinping and Donald Trump this book sees rivalries undermining the post Cold War order but not leading to a full breakdown Stress is on identities strategies and triangles related to the Sino US rivalry Dittmer argues that these factors will drive further changes Readers will find a diversity of approaches on a most critical bilateral relationship Gilbert Rozman Princeton University editor of The Asan

Hanami,2013-11-11 **Germany and Eastern Europe** ,2023-08-14 The opening up and subsequent tearing down of the Berlin Wall in 1989 effectively ended a historically unique period for Europe that had drastically changed its face over a period of fifty years and redefined in all sorts of ways what was meant by East and West For Germany in particular this radical change meant much more than unification of the divided country although initially this process seemed to consume all of the country's energies and emotions While the period of the Cold War saw the emergence of a Federal Republic distinctly Western in orientation the coming down of the Iron Curtain meant that Germany's relationship with its traditional neighbours to the East and the South East which had been essentially frozen or redefined in different ways for the two German states by the Cold War had to be rediscovered This volume which brings together scholars in German Studies from the United States Germany and other European countries examines the history of the relationship between Germany and Eastern Europe and the opportunities presented by the changes of the 1990's drawing particular attention to the interaction between the willingness of German and its Eastern neighbours to work for political and economic integration on the one hand and the cultural and social problems that stem from old prejudices and unresolved disputes left over from the Second World War on the other Russia's European Agenda and the Baltic States Janina Šleivyte,2009-12-16 Russian foreign policy has become an increasing concern in 21st century together with Russia's relations with its former Soviet neighbours but its relations with

the Baltic States are particularly sensitive given the Baltic membership of NATO and the EU and Russia's increasingly fractious relations with those institutions. This book discusses the development of Russia's approach to the new security architecture in Europe and assesses the prospects for a more active engagement of Russia in the Baltic Sea region and Europe as a whole. The book considers the full range of issues affecting security including energy economic relations the special position of Russia's Kaliningrad enclave and Russia's special interest in the Russian minorities in the former Soviet Baltic states. The evolution of Russian Baltic relations from 1990-2008 is set in the more general context of Russia's European agenda looking into the role and place of the Baltic States in this agenda. It provides a comparative analysis of the European agenda in of Russia's foreign policy under Boris Yeltsin Vladimir Putin and Dmitry Medvedev and concludes that despite the replacement of the former Cold War stand off with a more positive climate and a complicated array of bilateral and multilateral contacts much more still needs to be done to engage Russia fully with the new Europe.
