Fifteen Thousand Useful Phrases Grenville Kleiser, 2015-03-17 The study of words phrases and literary expressions is a highly interesting pursuit There is a reciprocal influence between thought and language What we think molds the words we use and the words we use react upon our thoughts Hence a study of words is a study of ideas and a stimulant to deep and original thinking We should not however study sparkling words and sonorous phrases with the object of introducing them consciously into our speech To do so would inevitably lead to stiltedness and superficiality Words and phrases should be studied as symbols of ideas and as we become thoroughly familiar with them they will play an unconscious but effective part in our daily expression

Excerpt from *Fifteen Thousand Useful Phrases A Practical Handbook of Pertinent Expressions Striking Similes Literary Commercial Conversational and Oratorical Terms for the Embellishment of Speech and Literature*

The most powerful and the most perfect expression of thought and feeling through the medium of oral language must be traced to the mastery of words. Nothing is better suited to lead speakers and readers of English into an easy control of this language than the command of the phrase that perfectly expresses the thought. Every speaker's aim is to be heard and understood. A clear, crisp articulation holds an audience as by the spell of some irresistible power. The choice word, the correct phrase are instruments that may reach the heart and awake the soul if they fall upon the ear in melodious cadence; but if the utterance be harsh and discordant they fail to interest, fall upon deaf ears and are as barren as seed sown on fallow ground. In language nothing conduces so emphatically to the harmony of sounds as perfect phrasing; that is, the emphasizing of the relation of clause to clause and of sentence to sentence by the systematic grouping of words. The phrase consists usually of a few words which denote a single idea that forms a separate part of a sentence. In this respect it differs from the clause which is a short sentence that forms a distinct part of a composition, paragraph or discourse. Correct phrasing is regulated by rests.
