**Fifty Years of Medieval Technology and Social Change** Steven A. Walton, 2019-08-22 This volume brings together a series of papers at Kalamazoo as well as some contributed papers inspired by the fiftieth anniversary of the publication of Lynn White Jr s Medieval Technology and Social Change 1962 a slim study which catalyzed the study of technology in the Middle Ages in the English speaking world While the initial reviews and decades long fortune of the volume have been varied it is still in print and remains a touchstone of an idea and a time The contributors to the volume therefore both investigate the book itself and its fate and look at new research furthering and inspired by White s work The book opens with an introduction surveying White s career with a bibliography of his work as well as some opening thoughts on the study of medieval technology in the last fifty years Three papers then deal explicitly with the reception and longevity of his work and its impact on medieval studies more generally Then five papers look at new cast studies areas where White s work and approach has had a particular impact namely medieval technology studies and medieval rural ecological studies

**Fifty Years of Bangladesh, 1971-2021** Taj Hashmi, 2022-04-22 This book the first historical sociology of its kind concerning Bangladesh examines the country s what went wrong syndrome during the first fifty years of its existence 1971 2021 The work is an exception to the traditional studies on modern and contemporary Bangladesh The study is also a post history of united Pakistan Busting several myths it sheds light on many known and unknown facts about the history politics society and culture of the country Besides being a twice born country liberated twice from the British in 1947 and from West Pakistanis in 1971 it is also an artificial entity suffering from acute crises of culture development governance and identity Hashmi attributes the culture and identity crises

to the demographic byproducts of bad governance In addition to being overpopulated Bangladesh is also resource poor and has one of the most unskilled populations largely lumpen elements and peasants According to Marx these people represent the unchanging remnants of the past The second round of independence empowered these lumpen classes who suffer from an identity crisis and never learn the art of governance The proliferation of pseudo history about liberation has further divided the polity between the two warring tribes who only glorify their respective idols Mujib and Zia Pre political and pre capitalist peasants lumpen elements lack of mutual trust and respect have further plagued Bangladesh turning it into one of the least governable corrupt and inefficient countries It is essential to replace the pre capitalist order of the country run by multiple lumpen classes with capitalist and inclusive institutions

**Fifty Years of My Life** George Thomas Keppel Earl of Albemarle,1877 Fifty Years of My Life George Thomas Keppel Albemarle,2024-08-22 Reprint of the original first published in 1877 The Forty-Year War in Afghanistan Tariq Ali,2021-11-23 The occupation of Afghanistan is over and a

balance sheet can be drawn These essays on war and peace in the region reveal Tariq Ali at his sharpest and most prescient Rarely has there been such an enthusiastic display of international unity as that which greeted the invasion of Afghanistan in 2001 Compared to Iraq Afghanistan became the good war But a stalemate ensued and the Taliban waited out the NATO contingents Today with the collapse of the puppet regime in Kabul what does the future hold for a traumatised Afghan people Will China become the dominant influence in the country Tariq Ali has been following the wars in Afghanistan for forty years He opposed Soviet military intervention in 1979 predicting disaster He was also a fierce critic of its NATO sequel Operation Enduring Freedom In a series of trenchant commentaries he has described the tragedies inflicted on Afghanistan as well as the semi Talibanisation and militarisation of neighbouring Pakistan Most of his predictions have proved accurate The Forty Year War in Afghanistan A Chronicle Foretold brings together the best of his writings and includes a new introduction

**History of the Present** Timothy Garton Ash,2009-07-01 The 1990s An extraordinary decade in Europe At its beginning the old order collapsed along with the Berlin Wall Everything seemed possible Everyone hailed a brave new Europe But no one knew what this new Europe would look like Now we know Most of Western Europe has launched into the unprecedented gamble of monetary union though Britain stands aside Germany peacefully united with its capital in Berlin is again the most powerful country in Europe The Central Europeans Poles Czechs Hungarians have made successful transitions from communism to capitalism and have joined NATO But farther east and south in the territories of the former Soviet Union and the former Yugoslavia the continent has descended into a bloody swamp of poverty corruption criminality war and bestial atrocities such as we never thought would be seen again in Europe Timothy Garton Ash chronicles this formative decade through a glittering collection of essays sketches and dispatches written as history was being made He joins the East Germans for their decisive vote for unification and visits their former leader in prison He accompanies the Poles on their roller coaster ride from dictatorship to democracy He uncovers the motives for monetary union in Paris and Bonn He walks in

mass demonstrations in Belgrade and travels through the killing fields of Kosovo Occasionally he even becomes an actor in a drama he describes debating Germany with Margaret Thatcher or the role of the intellectual with Václav Havel in Prague Ranging from Vienna to Saint Petersburg from Britain to Ruthenia Garton Ash reflects on how the single great conflict of the cold war has been replaced by many smaller ones And he asks what part the United States still has to play Sometimes he takes an eagle's eye view considering the present attempt to unite Europe against the background of a thousand years of such efforts But often he swoops to seize one telling human story that of a wiry old farmer in Croatia a newspaper editor in Warsaw or a bitter beautiful survivor from Sarajevo His eye is sharp and ironic but always compassionate History of the Present continues the work that Garton Ash began with his trilogy of books about Central Europe in the 1980s combining the crafts of journalism and history In his Introduction he argues that we should not wait until the archives are opened before starting to write the history of our own times Then he shows how it can be done

The Hundred Years War Vol 5 Jonathan Sumption, 2023-08-29 Sumption is that rare and precious thing a serious decent honest thinker and one of our finest historians Dan Jones Sunday Times Gripping and eminently readable a compelling justification for the enduring value of historical narrative The Times Unsurpassed and probably unsurpassable Daily Telegraph In this final volume of his epic history of the Hundred Years War Jonathan Sumption tells the story of the collapse of the English dream of conquest from the opening years of the reign of Henry VI until the loss of all of England's continental dominions except Calais thirty years later This sudden reversal of fortune was a seminal event in the history of the two principal nation states of western Europe ending four centuries of the English dynasty's presence in France and separating two countries whose fortunes had once been closely intertwined creating a new sense of national identity in both The legacy of these events would influence their divergent fortunes for centuries to come Behind the clash of arms stood some of the most remarkable personalities of the age the Duke of Bedford the English Regent who ruled much of France Charles VII of France who patiently rebuilt his kingdom after the disasters of his early years the captains populating the pages of Shakespeare Fastolf Montagu Talbot Dunois and above all the extraordinary figure of Joan of Arc who changed the course of the war in a few weeks at the age of seventeen The Hundred Years War ends in England's agonising defeat but triumph for Jonathan Sumption There is no doubting his achievement It is as everyone says a monumental work Spectator

*The San Francisco System and Its Legacies* Kimie Hara, 2014-11-20 In September 1951 Japan signed a peace treaty with forty eight countries in San Francisco in April 1952 the treaty came into effect The San Francisco Peace Treaty is an international agreement that in significant ways shaped the post World War II international order in the Asia Pacific With its associated security arrangements it laid the foundation for the regional structure of Cold War confrontation the San Francisco System fully reflected the strategic interests and policy priorities of the peace conference's host nation the United States The treaty fell far short of settling outstanding issues in the wake of the Pacific War or facilitating a clean start for the post war period Rather critical aspects of the settlement were left

equivocal and continue to have significant and worrisome implications for regional international relations This book examines the key developments of the contentious political and security issues in the Asia Pacific that share a common foundation in the post war disposition of Japan particularly the San Francisco Peace Treaty These include both tangible and intangible issues such as disputes over territories and history problems Taking the San Francisco System as its conceptual grounding the authors examine how these issues developed and have remained contentious long after the San Francisco arrangements To provide bases for producing solutions the chapters offer comprehensive accounts that explain and deepen our understanding of these complex regional issues and the San Francisco System as a whole By closely and systematically examining the legacy and various ramifications of the San Francisco System this fascinating book adds to our understanding of current and growing tensions in the region As such it will be of great interest to students and scholars of Asian studies history international relations and politics *Handbook of Ancient Geography and History by Wilhelm Pütz, Principal Tutor at the Gymnasium of Düren Wilhelm Pütz, 1853*

Theodore de Bary, 2007-02-15 Professor de Bary argues in these three lectures that China's Confucian tradition is still relevant in the democratic and pluralistic world order of today First Confucian tradition values free discourse and the pursuit of knowledge Second He goes into further details of the content and method by which the Chinese classics can be restored to a place in a modern humanities curriculum relevant to a global horizon Third de Bary envisions a global curriculum of great books through translation Throughout these lectures one can see de Bary's passion as a humanist and an educator and one who has had tremendous experience in conceiving and editing the Introduction to Oriental Civilizations Series which have had so much impact upon the teachings of Asia in America's colleges Two additional chapters by Professors Tze wan Kwan and Cheung Chan fai on the issues of Tang Chun I's concept of general education and language media in education respectively are added      **I Am Bexley** Melissa Ingoldsby, 2025-08-08 In a world ravaged by a zombie apocalypse humanity is under the tyrannical rule of the undead In the year 2071 humans are forced to live in bunkers and caves while zombies divided by class reign supreme in human settlements Elite gems dictate the rules everyone follows Amidst the chaos hope emerges in the form of Bexley a nineteen year old zombie girl with a heart of gold and a sharp katana Can she bridge the gap between the two societies and protect her family and friends from the deadly Bloodletters Though her heart may not be beating she has plenty of love to share      *Occasional Sermons and Addresses of Dr. C.F.W.
