**A Global Forum on Fighting Corruption** ,1999      *Fighting Corruption, Promoting Good Governance* ,2000 This publication presents a framework for Commonwealth Principles on Promoting Good Governance and Combating Corruption It was endorsed by Heads of Government at their Summit in Durban in 1999 as the basis for pursuing concerted strategies based on zero tolerance for all types of corruption at national and global levels This publication includes the full report of the Expert Group It examines the nature of corruption and its different dimensions as well as appropriate responses to the problems it poses The book proposes actions at national and international levels which the Group sees as being necessary if countries are to successfully combat corruption and promote good governance      **Fighting Corruption in Public**

**Procurement** Sope Williams-Elegbe,2012-11-06 Anti corruption measures have firmly taken centre stage in the development agenda of international organisations as well as in developed and developing countries One area in which corruption manifests itself is in public procurement and as a result States have adopted various measures to prevent and curb corruption in public procurement One such mechanism for dealing with procurement corruption is to debar or disqualify corrupt suppliers from bidding for or otherwise obtaining government contracts This book examines the issues and challenges raised by the debarment or disqualification of corrupt suppliers from public contracts Implementing a disqualification mechanism in public procurement raises serious practical and conceptual difficulties which are not always considered by legislative provisions on disqualification Some of the problems that may arise from the use of disqualifications include determining whether a conviction for corruption ought to be a pre requisite to disqualification bearing in mind that corruption thrives in secret resulting in a dearth of convictions Another issue is determining how to balance the tension between granting adequate procedural safeguards to a supplier in disqualification proceedings and not delaying the procurement process A further issue is determining the scope of the disqualification in the sense of determining whether it applies to firms natural persons subcontractors subsidiaries or other persons related to the corrupt firm and whether disqualification will lead to the termination of existing contracts The book compares and contrasts the legal practical and institutional approaches to the implementation of the disqualification mechanism in the European Union the United Kingdom the United States the Republic of South Africa and the World Bank      **Fighting Corruption in Eastern Europe** Diana

Schmidt-Pfister,Holger Moroff,2013-09-13 Anti corruption programmes projects and campaigns have come to constitute an essential aspect of good governance promotion over the last two decades The post communist countries in Eastern Europe have presented one of the first key targets of transnational anti corruption efforts and indeed most of these countries have shown an impressive record of respective measures Yet path breaking institutional and policy developments have not set in before the mid 2000s both at the international level and in most Eastern European countries Are these the beginnings of a mutually synergetic success story In order to answer this question we need to better understand the complex interplay

between the international and domestic domains in this policy field and geographic region This book provides in depth and comparative insights about this interplay with a particular focus on the involvement of domestic social movements governmental political machines and international legal mechanisms We find that on all three levels of analysis political and material interests of relevant actors are complemented and at times contradicted by normative claims Moreover at the interfaces of the three levels coincidental and spontaneous developments have largely outweighed systematic implementation and coordination of appropriate anti corruption strategies This book is based on a special issue of Global Crime

**The EU Anti-Corruption Report** Andi Hoxhaj, 2019-10-16 This book analyses the development of anti-corruption as a policy field in the European Union, with a particular focus on the EU Anti-Corruption Report. It reconstructs the origins of anti-corruption policy in the 1990s when the EU started to recognise corruption as a serious crime with a cross-border dimension. It also analyses the processes surrounding the downfall of the Santer Commission on charges of corruption in 1999 and the enlargement of the EU. This incorporation of transitional new Member States was accompanied by a number of specific measures, instruments and monitoring mechanisms to combat corruption at the supranational level, finally leading to the introduction of the EU-wide Anti-Corruption Report in 2014. The book presents an in-depth analysis of its implementation, abandonment and the way forward under the European Semester as the new instrument for achieving EU anti-corruption reforms. It offers a new interpretation of the Report as a form of reflexive governance that operates at multiple levels and involves not only the European institutions and national governments but also the role of civil society actors in the process of developing anti-corruption policy. It applies the theory of reflexive governance in analysing the impact of the Report in the UK, Romania and Albania, including the involvement of non-state actors in anti-corruption policy making in these countries. The book concludes with a discussion on how future EU Anti-Corruption policy can make use of reflexive governance and offers recommendations to enhance anti-corruption policies of the EU, the Member States and Candidate States.
