Bush's Iraq invasion and occupation Final chapters delineate the role of the media in the highly contested and significant 2004 election campaign that many believe to be one of the key political struggles of the contemporary era Criticizing Bush's unilateralism Kellner argues for a multilateral and cosmopolitan globalization and the need for democratic media to help overcome the current crisis of democracy in the United States

Devastating Society Bernd Hamm, 2005-02-20 United in their opposition to the neo conservatism underpinning America's current political strategies the contributors offer a grounded critique of the real impact that these policies make at home and abroad Starting with a close analysis of the Bush administration and the neo conservative hold on power in Washington they move on to a broader historical analysis They set today's topical issues in the context of what they see as a gradual shift towards the right in American politics and the creeping corporatisation of American society The contributors show that September 11 was used by the Bush administration to clamp down on civil liberties at home and to step up an aggressive line in foreign policy The impact on American society and societies elsewhere has been deeply damaging Ranging over this and other topics including the US economy corporate crime and anti environmentalism this book is ideal for anyone who wants a critical introduction to current affairs issues set within the broader context of America's history of foreign interventions and global capitalism

Reality, Truth and Evil Thomas Meyer, 2005 Using the events of 9 11 and Pearl Harbor as his backdrop Meyer studies the issues of reality truth and evil Offering important new perspectives he shows that U S political practice under the influence of secret societies such as Skull and Bones is based on an ideology of polarity and conflict Meyer offers instances of this tendency encouraging what Huntington famously referred to as a clash of civilizations For example a week before George Bush Sr spoke in Congress about the need for a new world order a humorous cartoon map in the Economist divided the world's continents into religious and philosophical blocks creating a new region called Islamistan In 1997 National Security Advisor Zbigniew Brzezinski wrote openly of U S geo strategic plans stating that it would be hard to achieve such goals except in the circumstances of a truly massive and widely perceived direct external threat It seems that this was granted with the events of September 11 2001 and the consequent launch of the war on terror The immediate comparisons led by George W Bush with Pearl Harbor demand a reassessment of the events of 1941 Meyer points to conclusive evidence suggesting that Roosevelt deliberately provoked the attacks and failed to pass on intelligence to US Navy chiefs Could it be possible that certain members of the U S elite likewise deliberately remained passive before 9 11 Why only two weeks after the attacks were celebrations held at CIA headquarters in which Bush profusely thanked the secret services on behalf of the American people In contrast to the divisive thinking and conflict management of leading representatives of the Anglo American elite inspired by a contorted reading of
