believed that all victims of intimate partner homicide are victims of intimate partner violence through physical abuse prior to

intimate partner homicide The book bases its critical examination on a content analysis of court filed Petitions for Injunction  
for Protection Against Domestic Violence Through these records as well as corresponding police and homicide reports the  
accounts of the victims and their relationships with their offenders come to life Recurring coercive control tactics are coded  
and analyzed across multiple accounts including intimidation isolation and humiliation to illustrate the ways in which  
individuals are threatened prior to homicide and the true extent of harm that happens in the absence of physical violence
