Eisenhauer,2007 Aftermyths investigates fault lines in literary and visual representation from 1870 to the early twentieth century as they range from a faux essentialism often with ethnic overtones to a cadence of decadence reflecting the dissensions of modernity Reading Henry James and Mark Twain with side glances to the cartoon revolution of Rudolf Dirks and Richard Felton Outcault Robert Eisenhauer delves into the archive of frontier or histrionic decadence Americanness and Germanness Pastoral idiom and foreign words incomprehensible to us as so many dead languages reflect Hesperian micrology on the part of the bergossiper James a discursive katzenjammer effect while Twain s difficulties with German exemplify a strategy of emancipation informed by minstrel like showmanship and a river or streetwise skepticism In addition Eisenhauer applies key concepts of Walter Benjamin s Arcades Project to New York City after 1920 Mayor Jimmy Walker and urban planner Robert

Moses are seen as Dionysian and Apollonian instances contesting the meta arcades of Manhattan at the intersection of epic lyric and drama Outcault's Opera in Ryan's Arcade vernacularizes the difference between uptown and downtown high art and low un art With the premise that Freud's definition of caricature in Totem and Taboo remains valid Aftermyths goes on to investigate the bear as a mimetic paradigm for Nietzsche's not yet determined animal homo sapiens Finally Eisenhower suggests affinities between two fictions of immortality Grass's Flounder and Hamill's Forever before returning to the downtown scene for remarks on Richard Foreman's Ontological Hysteric Theatre

Ballou's Monthly Magazine ,1876 I Can Only Paint Irene Gammel, 2022-03-30 For Canadian impressionist Mary Riter Hamilton capturing the emotional landscape of battlefields and graveyards in the months after the Great War's armistice became an artistic calling and defined her work A woman alone after the storm had passed she found that her life after the war was indelibly marked by the experience Undeterred by a rejection from the Canadian War Memorials Fund who nominated only male war artists abroad in 1919 Hamilton received a commission from the Amputation Club of British Columbia now the War Amps to commemorate those lost at war She travelled from Victoria to the pre reconstruction battlefields and towns of the Somme Vimy Ridge and the Ypres Salient where amid harsh conditions inadequate shelter and food surroundings littered with unexploded shells she recorded with

determination pride and grace the ruins of war Based on intensive archival research in Canada France and Belgium and using many previously unpublished letters I Can Only Paint offers an insider s view of the artist s vast underexplored body of war work and the conditions in which she created it It places this period central though it was in the context of a full understanding of her life and restores the work she created there to its proper place in the canon of war art in Canada and abroad Irene Gammel argues that Hamilton s work encoded a female perspective that distinguishes her paintings from the work of official Canadian war artists The first reliable account of Hamilton s impressions of Canada s most haunting sites of conflict I Can Only Paint captures with detail and sensitivity an experience that defined her life and recovers a body of work that stands as a unique and enduring portrait of the effects of the Great War
