Women's Somatic Training in Early Modern Spanish Theater Elizabeth Marie Cruz Petersen, 2016-11-03 Drawing from early modern plays and treatises on the precepts and practices of the acting process this study shows how the early modern Spanish actress subscribed to various somatic practices in an effort to prepare for a role It provides today's reader not only another perspective to the performance aspect of early modern plays but also a better understanding of how the woman of the theater succeeded in a highly scrutinized profession Elizabeth Marie Cruz Petersen examines examples of comedias from playwrights such as Lope de Vega Luis Vélez de Guevara Tirso de Molina and Ana Caro historical documents and treatises to demonstrate that the women of the stage transformed their bodies and their social and cultural environment in order to succeed in early modern Spanish theater *Women's Somatic Training in Early Modern Spanish Theater* is the first full length in depth study of women actors in seventeenth century Spain Unique in the field of comedia studies it approaches the topic from a performance perspective using somaesthetics as a tool to explain how an artist's lived experiences and emotions unite in the interpretation of art reconfiguring her self via the transformation of habit **Los orígenes de la**

nacionalidad española y su cultura Juan Fernández Amador de los Ríos, 1903 *Phoenicia* J. Brian Peckham, 2014-10-30 *Phoenicia* has long been known as the homeland of the Mediterranean seafarers who gave the Greeks their alphabet But along with this fairly well known reality many mysteries remain in part because the record of the coastal cities and regions that the people of *Phoenicia* inhabited is fragmentary and episodic In this magnum opus the late Brian Peckham examines all of the evidence currently available to paint as complete a portrait as is possible of the land its history its people and its culture In fact it was not the Phoenicians but the Canaanites who invented the alphabet what distinguished the Phoenicians in their turn was the transmission of the alphabet which was a revolutionary invention to everyone they met The Phoenicians were traders and merchants the Tyrians especially thriving in the back and forth of barter in copper for Levantine produce They were artists especially the Sidonians known for gold and silver masterpieces engraved with scenes from the stories they told and which they exchanged for iron and eventually steel and they were builders like the Byblians who taught the alphabet and numbers as elements of their trade When the Greeks went west the Phoenicians went with them Italy was the first destination settlements in Spain eventually followed but Carthage in North Africa was a uniquely Phoenician foundation The Atlantic Spanish settlements retained their Phoenician character but the Mediterranean settlements in Spain Sicily Sardinia and Malta were quickly converted into resource centers for the North African colony of Carthage a colony that came to eclipse the influence of the Levantine coastal city states An emerging independent Western *Phoenicia* left Tyre free to consolidate its hegemony in the East It became the sole west Asiatic agent of the Assyrian Empire But then the Babylonians

let it all slip away and the Persians intent on war and world domination wasted their own and everyone's time trying to dominate the irascible and indomitable Greeks The Punic West Carthage made the same mistake until it was handed off to the Romans But Phoenicia had been born in a Greek matrix and in time had the sense and good grace to slip quietly into the dominant and sustaining Occidental culture This complicated history shows up in episodes and anecdotes along a frangible and fractured timeline Individual men and women come forward in their artifacts amulets or seals There are king lists and alliances companies and city assemblies Years or centuries are skipped in the twinkling of any eye and only occasionally recovered Phoenicia like all history is a construct a product of historiography an answer to questions The history of Phoenicia is the history of its cities in relationship to each other and to the peoples cities and kingdoms who nourished their curiosity and their ambition It is written by deduction and extrapolation by shaping hard data into malleable evidence by working from the peripheries of their worlds to the centers where they lived by trying to uncover their mentalities plans beliefs suppositions and dreams in the residue of their products and accomplishments For this reason the subtitle *Episodes and Anecdotes from the Ancient Mediterranean* is a particularly appropriate description of Peckham's masterful posthumous volume the fruit of a lifetime of research into the history and culture of the Phoenicians

An Inventory of Archaic and Classical Poleis Mogens Herman Hansen, Thomas Heine Nielsen, 2004-11-11 This is the first ever documented study of the 1 035 identifiable Greek city states poleis of the Archaic and Classical periods c 650-325 BC Previous studies of the Greek polis have focused on Athens and Sparta and the result has been a view of Greek society dominated by Sophokles Plato's and Demosthenes' view of what the polis was This study includes descriptions of Athens and Sparta but its main purpose is to explore the history and organization of the thousand other city states The main part of the book is a regionally organized inventory of all identifiable poleis covering the Greek world from Spain to the Caucasus and from the Crimea to Libya This inventory is the work of 47 specialists and is divided into 46 chapters each covering a region Each chapter contains an account of the region a list of second order settlements and an alphabetically ordered description of the poleis This description covers such topics as polis status territory settlement pattern urban centre city walls and monumental architecture population military strength constitution alliance membership colonization coinage and Panhellenic victors The first part of the book is a description of the method and principles applied in the construction of the inventory and an analysis of some of the results to be obtained by a comparative study of the 1 035 poleis included in it The ancient Greek concept of polis is distinguished from the modern term city state which historians use to cover many other historic civilizations from ancient Sumeria to the West African cultures absorbed by the nineteenth century colonializing powers The focus of this project is what the Greeks themselves considered a polis to be

Funerary Practices in the Second Half of the Second Millennium BC in Continental Atlantic Europe Laure Nonat, M. Pilar Prieto-Martínez, 2022-02-04 This edited volume presents a selection of essays dedicated to funerary practices from Belgium to the north of Portugal It aims at filling gaps in

the documentation and helping to better understand the relationships between these Atlantic regions during the Bronze Age

Historia general de España, divida en tres tomos Juan de Mariana,1733 **Historia general de España, dividida en tres tomos**, Juan de Mariana,1733 **Historia general de España** Juan de Mariana,1780 **Sur les traces des Argonautes** Otar Lordkipanidze,Pierre Lévêque,1996 The Conquest of Santarém and Goswin's Song of the Conquest of Alcácer do Sal Jonathan Wilson,2021-05-26

Achieved at the height of the Crusades the Christian conquests of Santar m in 1147 by King Afonso I and of Alc cer do Sal in 1217 by Portuguese forces and northern European warriors on their way by sea to Palestine were crucial events in the creation of the independent kingdom of Portugal The two texts presented here survive in their unique thirteenth century manuscript copies appended to a codex belonging to one of Europe s most important monastic library collections accumulated in the Cistercian abbey of Alcoba a founded c 1153 by Bernard of Clairvaux Accompanied by comprehensive introductions and here translated into English for the first time these extraordinary texts are based on eyewitness testimony of the conquests They contain much detail for the military historian including data on operational tactics and the ideology of Christian holy war in the twelfth and early thirteenth centuries Literary historians too will be delighted by the astonishing styles deployed demonstrating considerable authorial flamboyance flair and innovation While they are likely written by Goswin of Bossut the search for authorship yields an impressive array of literary friends and associates including James of Vitry Thomas of Cantimpr Oliver of Paderborn and Caesarius of Heisterbach

Historia de Galicia José Vereá y Aguiar,1838 **Annales del Reyno de Navarra. Compuestos por el padre m. Ioseph de Moret, de la Compañia de Iesu, natural de Pamplona, chronista del mismo Reyno. Tomo 1. [-tercero]** José m. 1615 Moret,1684 *The Routledge Handbook of Archaeology and Globalization* Tamar Hodos,2016-11-18

This unique collection applies globalization concepts to the discipline of archaeology using a wide range of global case studies from a group of international specialists The volume spans from as early as 10 000 cal BP to the modern era analysing the relationship between material culture complex connectivities between communities and groups and cultural change Each contributor considers globalization ideas explicitly to explore the socio cultural connectivities of the past In considering social practices shared between different historic groups and also the expression of their respective identities the papers in this volume illustrate the potential of globalization thinking to bridge the local and global in material culture analysis The Routledge Handbook of Archaeology and Globalization is the first such volume to take a world archaeology approach on a multi period basis in order to bring together the scope of evidence for the significance of material culture in the processes of globalization This work thus also provides a means to understand how material culture can be used to assess the impact of global engagement in our contemporary world As such it will appeal to archaeologists and historians as well as social science researchers interested in the origins of globalization
