Fairtlough,2012-05-22 Set in England Italy and Spain during and after WWII Love War and Ice Cream paints a vivid portrait of Harry and Marina and their families revealing their triumphs and tragedies and the twists that ultimately bring them together Right from the start we realize that this is not the usual account of family life For one thing its in short story form and then there are the adorable photographs and hand sketched illustrations There are even instructions for many well loved family games and recipes a humble Northern Italian milk soupshares space with the quintessentially English ginger cake and also with the exuberant tortilla mixta from Southern Spain all of which serve to celebrate the people we meet in this refreshing and innovative memoir Harry s family membersthe

Fairtloughs were overwhelmed by the enormous social changes that occurred after the Great War and dismayed by the sudden disappearance of their way of life. Marina's people, the Campos, were resourceful, willing, and able to work hard to better their lot. As war simmered, they emigrated from Italy to Spain where they sold delicious ice cream. Then Harry met Marina. Blue Ink described the book as a superbly written memoir of two families who represent vastly different cultures. Readers will fall in love with the whole bunch of Fairtloughs and Campos. For more information, please go to <http://www.lovewarandicecream.com>

Linwae's Journal Dennis Ruiz Jr., 2019-02-12. In the age of fairies, Linwae is the sole survivor of a lost water fairy race and she narrates you through an extraordinary journey of how Princess Ethinia of the ice fairies and Prince Ardian of the fire fairies find each other, fall in love, and then learn that their two opposite worlds can coexist but they also realize that their love will also cause a war between the ice and fire fairies. Linwae has envisioned this fairy tale in a dream and she writes down her visions in this book that accurately shows the future. Since these visions haven't all happened yet, she can only call this her story about two fairies who will determine the fate of their races. They have the power to recreate a lost race of water fairies but at what cost? Hopefully, they won't suffer the same fate that the water fairies did and will make the right decision. They will have to make the biggest choice of their young lives: love for each other or life for their civilizations.

**Preventing Crime** Rick Sarre, 2024-07-02. This book summarises the latest findings of Australian and international crime prevention researchers and suggests how future policies based upon their evidence could and should be better shaped and employed by policymakers. Governments all over the world are constantly endeavouring to make their communities safer and the lives of their citizens less fearful. For decades now, criminological researchers challenged to assist in this task have been asking: What is working to reduce crime? What could work better in preventing crime before it erupts? What have we not tried but could try in the field of crime control? Pleasingly, the research outputs on this subject are voluminous and growing. They regularly inform policymaking in productive ways. This in turn has led and continues to lead to good crime prevention outcomes but a lot more could be done. The author sets out twelve key priorities designed to reduce victimisation and tackle street crime and white collar crime, especially each of them based upon a social justice framework. These priorities draw upon his extensive writings on the topic of law and criminology over the past forty years. There is, he concludes, far more value in tackling the societal factors that allow crime to emerge, grow, and persist than applying a strict application of the criminal law and the justice system that feeds upon it.
