Idearium Espanol El Porvenir De Espana:

Idearium español Angel Ganivet, Loretta Frattale, 2003 **El porvenir de España** Miguel de Unamuno, Angel Ganivet, 1912 **Imperial Emotions** Javier Krauel, 2013-11-13 A ground breaking work that considers myths of the Spanish empire from the perspective of cultural responses to its demise *Interpreting Spanish Colonialism* Christopher Schmidt-Nowara, John M. Nieto-Phillips, 2005 Scholars from Spain Latin America the Caribbean and the United States discuss historical writings of the past and how our understanding of the colonial era has been influenced by the expectations of the day **Iberianism and Crisis** Robert Patrick Newcomb, 2018-08-08 Iberianism refers to a minority intellectual current which emerged in Spain and Portugal during the mid nineteenth century and developed in step with the Iberian Peninsula's successive crises Iberianism sought to upend the peninsula's political and intellectual status quo by advocating closer ties between the two peninsular kingdoms and more equitable relations between the Spanish state's constituent regions including Castile Catalonia Basque Country and Galicia Robert Patrick Newcomb's *Iberianism and Crisis* examines how prominent peninsular essay writers and public intellectuals active around the turn of the twentieth century looked to Iberianism to address a succession of political economic and social crises that shook the Spanish and Portuguese states to their foundations Bringing into dialogue prominent fin de siècle peninsular literary intellectuals including Joan Maragall Oliveira Martins Emilia Pardo Bazán Antero de Quental and Miguel de Unamuno Newcomb engages in a comparative analysis of textual sources across national and regional borders languages and literary canons **An Ibero-American Perspective on Narratives of Pandemics** Zélia M. Bora, Animesh Roy, Ricardo de la Fuente Ballesteros, 2023-08-08 An Ibero American Perspective on Narratives of Pandemics is a critique of the realities of the pandemic in the Ibero American world and its intertwined relationship with the environment Through a critical gaze into the history of the region as it has evolved through periods of socio environmental and cultural conflicts the book chronicles multiple experiences of how people managed to negotiate multiple crises on a daily basis by often clinging to their age old cultural and healing practices as well as the humanistic representation of such experiences in various fictional and nonfictional writings The contributors expose the biopolitics around COVID 19 and its effects particularly on marginalised populations and the environment in an effort to consider the complexity of the pandemic in its multiple dimensions They evaluate it through climatic socioeconomic political scientific and cultural lenses that they argue shaped the realities of the pandemic They also take a close look at the use and effects of language in virtual spaces implying it has the ability to construct mis construct reality in this postmodern world arguing there is a need for a new environmental ethic post pandemic **Law and Development in Latin America** Kenneth L. Karst, Keith S. Rosenn, 2023-11-15 The Spirit of Hispanism Diana Arbaiza, 2020-03-30 In the late nineteenth century Spanish intellectuals and entrepreneurs became captivated with Hispanism a movement of transatlantic rapprochement between Spain and Latin America Not only was this movement envisioned as a form of cultural empire to symbolically

compensate for Spain's colonial decline but it was also imagined as an opportunity to materially regain the Latin American markets. Paradoxically a central trope of Hispanist discourse was the antimaterialistic character of Hispanic culture allegedly the legacy of the moral superiority of Spanish colonialism in comparison with the commercial drive of modern colonial projects. This study examines how Spanish authors, economists and entrepreneurs of various ideological backgrounds strove to reconcile the construction of Hispanic cultural identity with discourses of political economy and commercial interests surrounding the movement. Drawing from an interdisciplinary archive of literary essays, economic treatises and political discourses, *The Spirit of Hispanism* revisits Peninsular Hispanism to underscore how the interlacing of cultural and commercial interests fundamentally shaped the Hispanist movement. *The Spirit of Hispanism* will appeal to scholars in Hispanic literary and cultural studies as well as historians and anthropologists who specialize in the history of Spain and Latin America.

Angel Ganivet Judith Ginsberg, 1985 *Idearium español* Angel Ganivet, 1999 **En busca del padre Alfons Roig Izquierdo** Jeremy Foz, Goulden, 2023-03-03

En busca del padre Alfons Roig Izquierdo no es una biografía convencional. Es un libro de memorias, un esfuerzo personal por comprender, capturar y conmemorar la esencia de alguien que nació en circunstancias humildes, se preparó para una carrera modesta como pírroco y terminó siendo una figura significativa como pedagogo, defensor del arte moderno y confidente de un número mero sorprendente de artistas, poetas y escritores tanto españoles como europeos, así como un padre espiritual para entre otros el autor de este libro. Su defensa del arte moderno le valió una reputación de revolucionario dentro de la jerarquía eclesiástica y parece la razón por la que fue relevado de su cargo de pírroco y sin ser expulsado formalmente, privado de toda posibilidad de ejercer un papel formal dentro de la Iglesia. La época que vivió Roig fue sin duda una de las más turbulentas de la historia del país. Revolucionario en su forma de pensar y simpatizante de la Segunda República durante la Guerra Civil, se vio obligado a refugiarse en la zona rebelde para salvar su vida, escapando del destino de muchos sacerdotes que fueron asesinados durante aquel terrible período. El padre Alfons Roig (1903-1987) debe ser considerado una de las figuras más destacadas de la historia cultural y pedagógica del siglo XX en España y más allá de las fronteras del país en Europa Occidental.

Historia Patria Carolyn P. Boyd, 2020-12-08

Beginning with the restoration of the Bourbon monarchy in 1875 and ending with the death of General Francisco Franco in 1975, this book explores the intersection of education and nationalism in Spain. Based on a broad range of archival and published sources, including parliamentary and ministerial records, pedagogical treatises and journals, teachers' manuals, memoirs and a sample of over two hundred primary and secondary school textbooks, the study examines ideological and political conflict among groups of elites seeking to shape popular understanding of national history and identity through the schools, both public and private. A burgeoning literature on European nationalisms has posited that educational systems in general and an instrumentalized version of national history in particular have contributed decisively to the articulation and transmission of nationalist ideologies. The Spanish case reveals a different dynamic. In Spain, a chronically weak state, a

divided and largely undemocratic political class and an increasingly polarized social and political climate impeded the construction of an effective system of national education and the emergence of a consensus on the shape and meaning of the Spanish national past. This in turn contributed to one of the most striking features of modern Spanish political and cultural life: the absence of a strong sense of Spanish as opposed to local or regional identity. Scholars with interests in modern European cultural politics, processes of state consolidation, nationalism and the history of education will find this book essential reading.

Public Intellectuals and Nation Building in the Iberian Peninsula, 1900-1925 Thomas S. Harrington, 2014-12-11

This book provides a detailed analysis of the core concepts of national identity articulated by Iberian writers during the period between 1900 and 1925. It is centered on four pedagogical essays written in these decades previous to the onset of authoritarian dictatorships in Spain and Portugal, works that are absolutely central to understanding the discursive architecture of collective identity in these same places today. They are as follows: Enric Prat de la Ribes's *La Nacionalitat Catalana* (1906), Teixeira de Pascoaes's *Arte de Ser Português* (1915), Vicente Risco's *Teoría del Nacionalismo Galego* (1920), and José Ortega y Gasset's *España invertebrada* (1921). The study consists of a discussion of some of the more important theoretical issues connected to social articulation of cultural identities, four chapter-long analyses of the textual manifestations of national identity within the major Romance language communities of the Iberian peninsula, and a conclusion which underscores the key function played by these public intellectuals in establishing the parameters of the Imagined Communities with which they felt primarily identified. On the most basic level, the study of these catechistic visions of national individuality provides a heightened sense of both the differences and commonalities inherent in the cultural traditions of these core nationality groups of the Iberian Peninsula. On another level, the study reminds us of the important pedagogical function of literature understood here in the broadest possible sense in the formation and maintenance of nationality identities then as well as now.

Ideas estéticas y pedagógicas en la España finisecular: Ángel Ganivet José Manuel de Amo Sánchez-Fortún, 2003-06-05

Con este trabajo de investigación hemos pretendido estudiar la figura literaria de Ángel Ganivet como una pieza clave del modernismo español. Su obra ha significado un pilar esencial en el proceso de renovación tanto literario como técnico desde finales del XIX. Una de las grandes carencias a este respecto era un estudio que profundizara acerca de la estética del escritor granadino y su influencia en la construcción de un sólido proyecto de regeneración nacional. Este es el punto de partida de este trabajo: la teoría poética de Ganivet en el contexto de la Estética Moderna. Lo hemos abordado desde un planteamiento interdisciplinar. Por un lado se ha reformulado el marchamo Modernismo español con el fin de enmarcar la extensa producción ganivetiana en una compleja encrucijada cultural de fin de siglo caracterizada por la permeabilidad de los grandes sistemas de pensamiento. Asimismo se han analizado los presupuestos estéticos en el ámbito de una literatura de crisis que repudiaba la ficción realista, naturalista y en el ámbito, sobre todo, de una modernidad est

tica que se opone dial cticamente al proceso de modernizaci n Y por ltimo hemos pretendido que estas investigaciones pudieran tener aplicaciones did cticas por esta raz n se ha analizado detenidamente el corpus textual ganivetiano y se ha subrayado su idoneidad dentro de un canon literario formativo ya que se ajusta perfectamente a la definici n de material cognitivo problem tico y a la de material did ctico de ayuda para la intervenci n pedag gica del profesor Estos tres ejes de rotaci n an posibilitado un abordaje cr tico donde ha quedado patente el compromiso de nuestro escritor hacia la restauraci n de la vida espiritual y la importancia y actualidad de su propuesta tico est tica en la formaci n de personas aut noma y cr ticas
