In preparing this guide, she has incorporated the experiences of twelve secondary school libraries across the country that have also moved to block scheduling. Step by step, this guide walks the library media specialist through planning, networking, curriculum and instruction, professional development, technology, and assessment. Practical suggestions, forms, lesson plans, and case studies of other media centers that have successfully adopted block scheduling will help the library media specialist to make the transition to the block. Block scheduling places a high demand on staff, materials, and information technologies. Shaw stresses that networking of people and resources is essential to successful adoption of block scheduling. She takes the reader through the planning and transitional phases of a high school adopting block scheduling and addresses concerns about instructional change, ongoing curriculum, and the role of the library media specialist as a teacher of information technology. She provides ideas on where to find professional development and how to network with other library media specialists with expertise in the block and offers practical suggestions on resource sharing, study hall, flexible scheduling, budget, collection development, substitute teachers, and assessment techniques. *Wisconsin Handbook for Reading Improvement* Wisconsin.
