Fields Forest And Family Womens Work And Power In Rural Laos:

Fields, Forest, And Family Carol Ireson, 2018-02-19 After the Vietnam War socialist governments ascended to power in all the countries of the former Indochina In Laos more than a decade of socialist reorganization was followed by economic liberalization in the late 1980s Laotian women had traditionally sustained the household and local economy with their work in field forest and family but political and economic changes markedly affected the context of rural women s prevailing sources of power and subordination Socialist policies for example curtailed women s commercial activities while recognizing women s work in agriculture and child care In this richly detailed volume Carol Ireson draws on ten years of fieldwork and research to explore this metamorphosis among Laotian women Throughout she poses questions such as What has happened to women s traditional sources of control over their own and others activities since the 1975 socialist revolution Have their traditional sources of power or autonomy expanded or contracted as changing conditions have allowed other groups to appropriate women s traditional resources and roles Have the dramatic changes had different effects on rural women of differing ethnic backgrounds and varying economic means Focusing on women from three major ethnic groups the lowland Lao the Khmu and the Hmong Ireson examines the different ways they have responded to political and economic changes She shows us that the Laotian experience reveals in microcosm the processes of change toward specialization and integration of women s work into national and global economies and explains how this shift deeply affects women s lives **Historical**

Dictionary of Laos Martin Stuart-Fox, 2008-02-06 Laos is the smallest state in terms of population the weakest militarily and the least developed economically in mainland Southeast Asia Yet a glance at the map shows how strategically it is positioned between Thailand and Vietnam and between Cambodia and China As in the past Laos was a crossroads for trade routes so in the future it will be a crossroads for communications in this rapidly developing region It is even possible to anticipate that the greatness of Laos in the past may be matched by the emergence of Laos in the future as a significant partner in the Association of Southeast Asian Nations of which it is already a member The third edition of the Historical Dictionary of Laos through its chronology introductory essay appendixes maps bibliography and hundreds of cross referenced dictionary entries on important persons places events and institutions and significant political economic social and cultural aspects traces Laos history and provides a compass for the direction the country is heading Encyclopedia of Women in Today's World Mary

Bayor, 2011-07-22 This encyclopedia contains 50 thorough profiles of the most numerically significant immigrant groups now making their homes in the United States telling the story of our newest immigrants and introducing them to their fellow Americans One of the main reasons the United States has evolved so quickly and radically in the last 100 years is the large number of ethnically diverse immigrants that have become part of its population People from every area of the world have come to America in an effort to realize their

dreams of more opportunity and better lives either for themselves or for their children This book provides a fascinating picture of the lives of immigrants from 50 countries who have contributed substantially to the diversity of the United States exploring all aspects of the immigrants lives in the old world as well as the new Each essay explains why these people have come to the United States how they have adjusted to and integrated into American society and what portends for their future Accounts of the experiences of the second generation and the effects of relations between the United States and the sending country round out these unusually rich and demographically detailed portraits Women's Rights to House and Land Irene Tinker, Gale Summerfield, 1999 The authors of this volume focus on such issues as property use and ownership efforts to recognize women s economic rights through development programming poverty and women headed households and household bargaining The impact of various development policies is also surveyed **Hmong-Related Works, 1996-2006** Mark Edward Pfeifer, 2007-09-13 The Hmong pronounced mong in English are a mountain dwelling subgroup of the Miao of southwest China In the 18th and 19th centuries the Hmong began migrating southeast to Vietnam Laos and Thailand Then in the second half of the 20th century due mainly to their participation in the Second Indochina War 1954 1975 the Hmong began migrating to the West Today the Hmong are one of the fastest growing ethnic origin populations in the United States growing from about 94 000 in the 1990 census to about 190 000 in the U S census bureau s 2005 American Community Survey With this rapid expansion in the population a substantially increased interest in Hmong related written works multimedia materials and websites among students scholars service professionals and the general public has arisen To help meet that interest author Mark E Pfeifer has compiled Hmong Related Works 1996 2006 An Annotated Bibliography which includes full reference information including internet links to articles where available and descriptive summaries for 610 Hmong related works **Women Working In The Environment** Carolyn E. anthropologists and ethnohistorians foreground the importance of questioning one's subjective gaze and of debating representations of the other. Reflecting on the realities of fieldwork in socialist regimes and analyzing their positionality and subjectivity in the field, they debate a range of ethical quandaries and the rewards that can be gained from critical reflection. Together, these unique contributions will advance the study of the practice of international fieldwork. **Making Globalization Work for Women** Valentine M. Moghadam, Suzanne Franzway, Mary Margaret Fonow, 2011-11-28 Explores the potential for trade unions to defend the socioeconomic rights of women. **The Legend of the Golden Boat** Andrew Walker, 1999-09-01 The Legend of the Golden Boat provides a new approach to the study of Southeast Asia's northern borderlands. Based on extensive travel in the upper Mekong hinterland, it is a fascinating account of the lives of the transport operators, traders, entrepreneurs, and government officials. This ethnographic study is set against an intriguing background of war, revolution, and reform, providing one of the most detailed histories of the upper Mekong borderlands ever written. Contemporary developments in the upper Mekong region are often interpreted in terms of the emergence of a trans-border Economic Quadrangle characterized by liberalization, integration, and cooperation. This book seeks to go beyond this promotional rhetoric and explore the ambiguities and contradictions in the Quadrangle's development. **ICGR 2018 International Conference on Gender Research** Dr Ana Azevedo, Dr Anabela Mesquita, 2018-04-12 **Grandmother Power** Paola Gianturco, 2012-09-18 Whether fighting for the environment, human rights, education, health, or cultural preservation, a new generation of activist grandmothers across the world are using their strength, wisdom, and hearts to make a difference. An unheralded grandmothers' movement is changing the world. Insurgent grandmothers are using their power to fight for a better future for grandchildren everywhere. And they are succeeding. Grandmother Power profiles activist grandmothers in fifteen countries on five continents who tell their compelling stories in their own words. Grandmothers in Canada, Swaziland, and South Africa collaborate to care for AIDS orphans. Grandmothers in Senegal convince communities to abandon female genital mutilation. Grandmothers in India become solar engineers and bring light to their villages, while those in Peru, Thailand, and Laos sustain weaving traditions. Grandmothers in Argentina teach children to love books and reading. Other Argentine grandmothers continue their 40-year search for grandchildren who were kidnapped during the nation's military dictatorship. Irish grandmothers teach children to sow seeds and cook with fresh local ingredients. Filipino grandmothers demand justice for having been forced into sex slavery during World War II. Guatemalan grandmothers operate a hotline and teach parenting. In the Middle East, Israeli grandmothers monitor checkpoints to prevent abuse, and the UAE's most popular television show stars four animated grandmothers who are surprised by contemporary life. Indigenous grandmothers from thirteen countries conduct healing rituals to bring peace to the world. Gianturco's full-color images and her heroines' amazing tales make Grandmother Power an inspiration for everyone, and it cements the power of grandmothers worldwide. Society in Contemporary Laos Boike Rehbein, 2017-04-21 Over the past decade Laos exposure to global capitalism has resulted in extensive economic and social transformations Precapitalist social structures both persist and are transformed into a particular configuration of classes This entails increasing social inequality a widening range of habitus and new forms of ethos This book pursues the theoretical aim of shedding light on the old question raised by Max Weber about the relation between capitalism ethos and society The empirical study consists of a description of the social structures their embodiment in the habitus and world views in Laos against the background of a critical revision of Pierre Bourdieu's sociology To achieve these aims the author develops a qualitative methodology as neither Weber nor Bourdieu explained how to empirically study habitus and ethos The empirical material for the book was gathered over a period of more than five years and comprises several hundred life course interviews in all sections of Lao society as well as a representative quantitative survey The author argues that precapitalist social structures persist and continue to shape the social fabric of contemporary Laos At the same time they are transformed by global and local capitalism The book shows how the hierarchies contained in each structure shape the habitus of the Lao population and how these in turn influence the development of a capitalist and a religious ethos The argument makes use of Pierre Bourdieu's sociology and adapts it to the setting of Laos by introducing new as well as indigenous concepts While social structure habitus and beliefs are subject to a capitalist transformation and unification the newly emerging classes and milieus are not copies of Western forms but retain their local history Filling a gap in the literature on Laos and offering new perspectives on core concepts such as habitus class lifestyle work ethic and its religious underpinnings this book will be of interest to academics in the fields of Sociology Religious Studies and Southeast Asian Studies

Embodied Nation Simon Creak, 2017-08-31 This strikingly original book examines how sport and ideas of physicality have shaped the politics and culture of modern Laos Viewing the country's extraordinary transitions from French colonialism to royalist nationalism to revolutionary socialism to the modern development state through the lens of physical culture Simon Creak's lively and incisive narrative illuminates a nation that has no reputation in sport and is typically viewed even from within as a country of cheerful but lazy people Creak argues that sport and related physical practices including physical education gymnastics and military training have shaped a national consciousness by locating it in everyday experience These practices are popular participatory performative and above all physical in character and embody ideas and ideologies in a symbolic and experiential way Embodied Nation takes readers on a brisk ride through more than a century of Lao history from a nineteenth century game of tikhi an indigenous game resembling field hockey to the country's unprecedented outpouring of nationalist sentiment when hosting the 2009 Southeast Asian Games En route we witness a Lao Vietnamese soccer brawl in 1936 the fascist inspired body ethic of the early 1940s the novel modes of military masculinity that blossomed with national independence the spectacular state theatrics of power represented by Olympic

inspired sports festivals and the high hopes and frequent failures of socialist sport in the 1970s and 1980s Of central concern in Creak's narrative are the twin motifs of gender and civilization Despite increasing female participation since the early twentieth century he demonstrates the major role that sport and physical culture have played in forming hegemonic masculinities in Laos Even with limited national sporting success Laos has never won an Olympic medal the healthy toned and muscular form has come to symbolize material development and prosperity Embodied Nation outlines the complex ways in which these motifs through sport and physical culture articulate with state power Combining cultural and intellectual history with historical thick description Creak draws on a creative array of Lao and French sources from previously unexplored archives newspapers and magazines and from ethnographic writing war photography and cartoons More than an imagined community or geobody he shows that Laos was also a body at work making substantive theoretical contributions not only to Southeast Asian studies and history but to the study of the physical culture nationalism masculinity and modernity in all modern societies The Flaming Womb Barbara Watson Andaya, 2006-01-01 The Princess of the Flaming Womb the Javanese legend that introduces this pioneering study symbolizes the many ambiguities attached to femaleness in Southeast Asian societies Yet despite these ambiguities the relatively egalitarian nature of male female relations in Southeast Asia is central to arguments claiming a coherent identity for the region This challenging work by senior scholar Barbara Watson Andaya considers such contradictions while offering a thought provoking view of Southeast Asian history that focuses on women's roles and perceptions Andaya explores the broad themes of the early modern era 1500 1800 the introduction of new religions major economic shifts changing patterns of state control the impact of elite lifestyles and behaviors drawing on an extraordinary range of sources and citing numerous examples from Thai Vietnamese Burmese Philippine and Malay societies

Globalization, Culture and Society in Laos Boike Rehbein, 2007-08-13 The book explores current tendencies of globalization in Laos and offers a theoretical framework for their interpretation **Routledge Handbook of Highland Asia** Jelle J.P. Wouters, Michael T. Heneise, 2022-08-09 The Routledge Handbook of Highland Asia is the first comprehensive and critical overview of the ethnographic and anthropological work in Highland Asia over the past half a century Opening up a grand new space for critical engagement the handbook presents Highland Asia as a world region that cuts across the traditional divides inherited from colonial and Cold War area divisions the Indian Subcontinent South Asia Southeast Asia China East Asia and Central Asia Thirty two chapters assess the history of research identify ethnographic trends and evaluate a range of analytical themes that developed in particular settings of Highland Asia They cover varied landscapes and communities from Kyrgyzstan to India from Bhutan to Vietnam and bring local voices and narratives relating trade and tribute ritual and resistance pilgrimage and prophecy modernity and marginalization capital and cosmos to the fore The handbook shows that for millennia Highland Asians have connected far flung regions through movements of peoples goods and ideas and at all times have been the enactors repositories and mediators of world historical processes Taken together the

contributors and chapters subvert dominant lowland narratives by privileging primarily highland vantages that reveal Highland Asia as an ecumene and prism that refracts and generates global history social theory and human imagination In the currently unfolding Asian Century this compels us to reorient and re envision Highland Asia in ethnography in theory and in the connections between this world region made of hills highlands and mountains and a planetary context The handbook reveals both regional commonalities and diversities generalities and specificities and a broad orientation to key themes in the region An indispensable reference work this handbook fills a significant gap in the literature and will be of interest to academics researchers and students interested in Highland Asia Zomia Studies Anthropology Comparative Politics Conceptual History and Sociology Southeast Asian Studies Central Asian Studies and South Asian Studies as well as Asian Studies in general
