## **Fifties Style Than And Now:**

**The 1950s** William H. Young,2004-04-30 Have the 1950s been overly romanticized Beneath the calm conformist exterior new ideas and attitudes were percolating This was the decade of McCarthyism Levittowns and men in gray flannel suits but the 1950s also saw bold architectural styles the rise of paperback novels and the Beat writers Cinema Scope and film noir television variety shows the Golden Age of the automobile subliminal advertising fast food Frisbees and silly putty Meanwhile teens attained a more prominent role in American culture with hot rods rock n roll preppies and greasers and gasp juvenile delinquency At the same time a new technological threat the atom bomb lurked beneath the surface of the postwar decade This volume presents a nuanced look at a surprisingly complex time in American popular culture *Retro* Elizabeth E. Guffey,2006-11-15 Bell bottoms are in Bell bottoms are out Bell bottoms are back in again Fads constantly cycle and recycle through popular culture each time in a slightly new incarnation The term retro has become the buzzword for describing such trends but what does it mean Elizabeth Guffey explores here the ambiguous cultural meanings of the term and reveals why some trends just never seem to stay dead Drawing upon a wealth of original research and entertaining anecdotal material Guffey unearths the roots of the term retro and chronicles its evolving manifestations in culture and art throughout the last century Whether in art design fashion or music the idea of retro has often meant a reemergence of styles and sensibilities that evoke touchstones of memory from the not so distant past ranging from the drug induced surrealism of psychedelic art to the political expression of 1970s afros Guffey examines how and why the past keeps coming back to haunt us in a variety of forms from the campy comeback of art nouveau nearly fifty years after its original decline to the infusion of art deco into the kitschy glamor of pop art to the recent popularity of 1980s vogue She also considers how advertisers and the media have employed the power of such cultural nostalgia using recycled television jingles familiar old advertising slogans and famous art to sell a surprising range of products An engrossing unprecedented study *Retro* reveals the surprising extent to which the past is embedded in the future Historical Dictionary of the 1950s Bloomsbury Publishing,2000-07-30 Today Americans look back nostalgically at the 1950s an era when television and rock and roll revolutionized popular culture and Vietnam race riots drug abuse and protest movements were still in the future With homes in the suburbs new automobiles and the latest electrical gadgets many Americans believed they were the most prosperous people on earth Yet the era was tainted by the fear of thermonuclear war with the Soviet Union deepening racial tensions and discontent with rigid roles for women and the demands of corporate conformity A sense of rebellion had begun to brew behind the facade It manifested itself in rock and roll the budding civil rights movement and the appearance of a youth culture eventually exploding in the 1960s Providing a comprehensive overview this book includes entries on the prominent people major events issues scandals ideas popular culture and court cases of the decade that gave rise to the tensions of the 1960s Yesterday Tobias Becker,2023-12-05 Nostalgia supposedly is the sphere of the sentimentalist But also and most definitely it is a force in the creation of the

present and future and thus worth careful thought Yesterday argues that nostalgia's critics defend an idea of progress as naive as the longing they denounce while conflating nostalgia itself with historical whitewashing *As Seen on TV* Karal Ann Marling, 1996-03-01 From the painting by numbers fad to the public fascination with the First Lady's apparel to the television sensation of Elvis Presley to the sculptural refinement of the automobile Marling explores what Americans saw and what they looked for in the 1950s with a gaze newly trained by TV **New Socialist**, 1986 **Making Vintage 1950s Clothes for Women** Theresa Parker, 2018-08-03 Nothing epitomizes the look of the 1950s more for women than the hour glass silhouette of the tightly fitted bodice and full skirt This ubiquitous style first introduced in 1947 with Dior's New Look was so widely adopted by the mid 50s that it came to define the decade This practical book introduces and explores the styles and construction techniques used in the 1950s Step by step instructions and photographs demonstrate how to achieve a well finished and authentic look using equipment easily obtainable at home Chapters explain the processes from fabric selection cutting out and preparation through to garment assembly using traditional techniques for creating the silhouette of the day There are photographs and analysis of original pieces from private collections and museum archives and scaled patterns that have been standardized to a modern size 12 and can be graded up and down in size With patterns and instructions for making your own bullet bra and girdle each project includes a materials and equipment list and a section on specialist stockists and suppliers Additional chapters include practical advice on measuring and fitting and how to create the 1950s look Aimed at students teachers of costume re enactment societies and costume designers for TV theatre and film and superbly illustrated with 300 colour photographs and 14 patterns Classic Modern Deborah Dietsch, 2000 There is no hotter style today than the cooler than cool work of modern designers and architects from the 1940s and 50s Endlessly inventive and eminently livable mid century modernism has an optimism and confidence born of postwar abundance and a spirited elegance that appeals powerfully fifty years later In CLASSIC MODERN design expert Deborah Dietsch introduces readers to the basic tenets of modern design and explains how the simple yet inspired forms typical of this style were so readily disseminated into mainstream American culture Filled throughout with enticing examples of mid century pieces from such timeless designers as Charles and Ray Eames Eero Saarinen Arne Jacobsen and George Nelson this beautiful book recaptures the excitement of the period's brilliant designs **TV by Design** Lynn Spigel, 2008 From the Publisher While critics have long disparaged commercial television as a vast wasteland TV has surprising links to the urbane world of modern art that stretch back to the 1950s and 60s during that era the rapid rise of commercial television coincided with dynamic new movements in the visual arts a potent combination that precipitated a major shift in the way Americans experienced the world visually TV by Design uncovers this captivating story of how modernism and network television converged and intertwined in their mutual ascent during the decades of the cold war Whereas most histories of television focus on the way older forms of entertainment were recycled for the new medium Lynn Spigel shows how TV was instrumental in introducing

the public to the latest trends in art and design Abstract expressionism pop art art cinema modern architecture and cutting edge graphic design were all mined for staging techniques scenic designs and an ever growing number of commercials As a result TV helped fuel the public craze for trendy modern products such as tailfin cars and boomerang coffee tables that was vital to the burgeoning postwar economy And along with influencing the look of television many artists including Eero Saarinen Ben Shahn Saul Bass William Golden and Richard Avedon also participated in its creation as the networks put them to work designing everything from their corporate headquarters to their company cufflinks Dizzy Gillespie Ernie Kovacs Duke Ellington and Andy Warhol all stop by in this imaginative and winning account of the ways in which art television and commerce merged in the first decades of the TV age
