Lacan La Formation Du Concept De Sujet 19321949:

Lacan, la formation du concept de sujet Bertrand Ogilvie, 1988 Lacan, la formation du concept de sujet Bertrand Ogilvie, 1987 **Lacan and Levi-Strauss or The Return to Freud (1951-1957)** Markos Zafiroopoulos, 2018-05-08 Lacan and Levi Strauss are often mentioned together in reviews of French structuralist thought but what really links their distinct projects In this important study the author shows how Lacan's famous return to Freud was only made possible through Lacan's reading of Levi Strauss Via a careful and illuminating comparison of the work of the psychoanalyst and that of the anthropologist Zafiroopoulos shows how Lacan's theories of the symbolic function of the power of language of the role of the father and even of the unconscious itself owe a major debt to Levi Strauss Lacan and Levi Strauss is much more than an academic study of the relations between these two thinkers it is also a superb introduction to the work of Lacan setting out with detail and lucidity the major concepts of his work in the 1950s **Jacques Lacan: Dialectic of Desire and Structure of the sensorial Perception** Antonio Rainone, 2016-11-07 This book aims at outlining what the Dialectic of Desire is in Lacan Starting from the analysis of the concept of desire for desire I dwell on considering the function that the desire for the Other has in structuring both in the Logic of Fantasy or of Unconscious and in the way the phenomenic representation of the Real is established Moreover I examine how the classical aesthetic theory subjected to the Logic of Fantasy is taken back to an ethic of intersubjectivity and how within this step a topological redefinition of language and of the space of subjectivity is achieved **Key Concepts of Lacanian Psychoanalysis** Dany Nobus, 2020-10-13 By detailing the constitutive incompleteness of the Lacanian project the contributors have guaranteed the success of their book which will remain a major reference for a long time to come Joan Copjec Lacan on Society Edgar Miguel Juárez-Salazar, 2025-08-13 Lacan on Society is an exhaustive archeological and contingent review of Lacan's approaches to society throughout his work seminars and texts Through a systematic and chronological analysis of Lacan's work Edgar Miguel Juárez Salazar highlights critical structural and divergent surfaces as they emerge within the concept of society The book explores diverse manifestations of society to conjugate social and structural phenomena such as ideals the metamorphoses of social enjoyment the structural demand to produce social order and the political economy of the signifier and its abstract circulation Juárez Salazar's work evaluates Lacan's critique of the notion of the family complexes the relation between society and social modes of enjoyment and the homology between Marx and Lacan concluding with an invitation to subvert the understanding of society and its diatribes Lacan on Society will be of great interest to academics and scholars of psychoanalysis critical theory and Lacanian studies It will also be relevant to academics and scholars of political economy cybernetics post Marxist thought gender studies and sociology **Jacques Lacan and the Other Side of Psychoanalysis** Justin Clemens, Russell Grigg, 2006-05-23 Articles by noted Lacanian psychoanalysts and scholars discussing issues that emerge in Lacan's Seminar XVII newly translated that import fields of psychoanalysis philosophy political theory cultural studies and literary studies **Lacan and**

the Matter of Origins Shuli Barzilai,1999 This work traces the development of Lacan's thinking on the role of the mother in psychical formation. It shows that the mother occupies a key position in the Lacanian project widely held to emphasize the paternal dimension of human subjectivity. **The Seductions of Psychoanalysis** John Forrester,1991-10-25 Reflection on the history of psychoanalysis its conceptual foundations and its relation to other disciplines

Michel Pêcheux: Automatic Discourse Analysis Michel Pêcheux,2022-05-20 This volume offers the long awaited overview of the work of the French philosopher and discourse analyst Michel Pêcheux who was the leading figure in French discourse analysis until his death in 1983. The volume presents the first English publication of the work of Pêcheux and his coworkers on automatic discourse analysis. It is presented with extensive annotations and introductions written by former colleagues such as Françoise Gadet, Paul Henry and Denise Maldidier. Outside France French discourse analysis is almost exclusively known as the form of philosophical discourse presented by such authors as Michel Foucault and Jacques Derrida. The contemporary empirical forms of French discourse analysis have not reached a wider public to the degree they deserve. Through its combination of original texts, annotations and several introductory texts, this volume facilitates an evaluation of both results and weaknesses of French discourse analysis in general and of the work of Michel Pêcheux and his coworkers in particular. **Subjectivity**

and Identity Peter V. Zima,2015-06-18 Subjectivity and Identity is a philosophical and interdisciplinary study that critically evaluates critically the most important philosophical, sociological, psychological and literary debates on subjectivity and the subject. Starting from a history of the concept of the subject from modernity to postmodernity from Descartes and Kant to Adorno and Lyotard, Peter V. Zima distinguishes between individual, collective, mythical and other subjects. Most texts on subjectivity and the subject present the topic from the point of view of a single discipline: philosophy, sociology, psychology or theory of literature. In *Subjectivity and Identity*, Zima links philosophical approaches to those of sociology, psychology and literary criticism. The link between philosophy and sociology is social philosophy, e.g. Althusser, Marcuse, Habermas; the link between philosophy and literary criticism is aesthetics, e.g. Adorno, Lyotard, Vattimo. Philosophy and psychology can be related thanks to the psychological implications of several philosophical concepts of subjectivity: Hobbes, Stirner, Sartre.

Catherine M. Soussloff, 2006-10-04 Argues that the modern subject did not emerge from psychoanalysis or existential philosophy but rather within early twentieth century Viennese portraiture **Law and the Postmodern Mind** Peter Goodrich, 1998-03-03 Explores the connections between psychoanalysis and law The Ethical Subject of Security J. Peter Burgess, 2011-02-15 While critical security studies largely concentrates on objects of security this book focuses on the subject position from which securitization and other security practices take place First it argues that the modern subject itself emerges and is sustained as a function of security and insecurity It suggests consequently that no analytic frame can produce or reproduce the subject in some original or primordial form that does not already reproduce a fundamental or structural insecurity It critically returns through a variety of studies to traditionally held conceptions of security and insecurity as simple predicates or properties that can be associated or not to some more essential more primeval more true or real subject It thus opens and explores the question of the security of the subject itself locating through a reconstruction of the foundations of the concept of security in the modern conception of the subject an irreducible insecurity Second it argues that practices of security can only be carried out as a certain kind of negotiation about values The analyses in this book find security expressed again and again as a function of value cast in terms of an explicit or implicit philosophy of life of culture of individual and collective anxieties and aspirations of expectations about what may be sacrificed and what is worth preserving By way of a critical examination of the value function of security this book discovers the foundation of values as dependent on a certain management of their own vulnerability continuously under threat and thus fundamentally and necessarily insecure This book will be an indispensable resource for students of Critical Security Studies Political Theory Philosophy Ethics and International Relations in general Althusser and His Contemporaries Warren Montag, 2013-05-01 Althusser and His Contemporaries alters and expands understanding of Louis Althusser and French philosophy of the 1960s and 1970s Thousands of pages of previously unpublished work from different periods of Althusser's career have been made available in French since his death in 1990 Based on meticulous study of the philosopher's posthumous publications as well as his unpublished manuscripts lecture notes letters and marginalia Warren Montag provides a thoroughgoing reevaluation of Althusser's philosophical project Montag shows that the theorist was intensely engaged with the work of his contemporaries particularly Foucault Derrida Deleuze and Lacan Examining Althusser's philosophy as a series of encounters with his peers thought Montag contends that Althusser's major philosophical confrontations revolved around three themes structure subject and beginnings and endings Reading Althusser reading his contemporaries Montag sheds new light on structuralism poststructuralism and the extraordinary moment of French thought in the 1960s and 1970s **Citizen Subject** Étienne Balibar, 2016-11-01 What can the universals of political philosophy offer to those who experience the living paradox of an unequalitarian construction of egalitarian citizenship Citizen Subject is the summation of Étienne Balibar's career long project to think the necessary and necessarily antagonistic relation between the categories of citizen and subject In this magnum opus

the question of modernity is framed anew with special attention to the self enunciation of the subject in Descartes Locke Rousseau and Derrida the constitution of the community as we in Hegel Marx and Tolstoy and the aporia of the judgment of self and others in Foucault Freud Kelsen and Blanchot After the humanist controversy that preoccupied twentieth century philosophy Citizen Subject proposes foundations for philosophical anthropology today in terms of two contrary movements the becoming citizen of the subject and the becoming subject of the citizen The citizen subject who is constituted in the claim to a right to have rights Arendt cannot exist without an underside that contests and defies it He or she because Balibar is concerned throughout this volume with questions of sexual difference figures not only the social relation but also the discontent or the uneasiness at the heart of this relation The human can be instituted only if it betrays itself by upholding anthropological differences that impose normality and identity as conditions of belonging to the community The violence of civil bourgeois universality Balibar argues is greater and less legitimate therefore less stable than that of theological or cosmological universality Right is thus founded on insubordination and emancipation derives its force from otherness Ultimately Citizen Subject offers a revolutionary rewriting of the dialectic of universality and differences in the bourgeois epoch revealing in the relationship between the common and the universal a political gap at the heart of the universal itself

Deafness, Gesture and Sign Language in the 18th Century French Philosophy Josef Fulka, 2020-04-15 The book represents a historical overview of the way the topic of gesture and sign language has been treated in the 18th century French philosophy The texts treated are grouped into several categories based on the view they present of deafness and gesture While some of those texts obviously view deafness and sign language in negative terms i e as deficiency others present deafness essentially as difference i e as a set of competences that might provide some insights into how spoken language works One of the arguments of the book is that these two views of deafness and sign language still represent two dominant paradigms present in the current debates on the issue The aim of the book therefore is not only to provide a historical overview but to trace what might be called a history of the present Transcultural Graffiti Russell

West-Pavlov, 2005-01-01 Transcultural Graffiti reads a range of texts prose poetry drama in several European languages as exemplars of diasporic writing The book scrutinizes contemporary transcultural literary creation for the manner in which it gives hints about the teaching of literary studies in our postcolonial globalizing era Transcultural Graffiti suggest that cultural work in particular transcultural work assembles and collates material from various cultures in their moment of meeting The teaching of such cultural collage in the classroom should equip students with the means to reflect upon and engage in cultural bricolage themselves in the present day The texts read from C saire s adaptation of Shakespeare s *Tempest* via the diaspora fictions of Marica Bodro ic or David Dabydeen to the post 9 11 poetry of New York poets are understood as graffiti like inscriptions the result of fleeting encounters in a swiftly changing public world Such texts provide impulses for a performative risk pedagogy capable of modelling the ways in which our constitutive individual and social
