Lacanian Ink 8 Wooster Press, The, 1994 *Lacanian Ink*, 2004 The Subject of Psychosis: A Lacanian Perspective S. Vanheule, 2011-10-03 This book discusses what Jacques Lacan's oeuvre contributes to our understanding of psychosis Presenting a close reading of original texts Stijn Vanheule proposes that Lacan's work on psychosis can best be framed in terms of four broad periods The Unconcept Anneleen Masschelein, 2012-01-02 The Unconcept is the first genealogy of the concept of the Freudian uncanny tracing the development paradoxes and movements of this negative concept through various fields and disciplines from psychoanalysis literary theory and philosophy to film studies genre studies sociology religion architecture theory and contemporary art Anneleen Masschelein explores the vagaries of this unconcept in the twentieth century beginning with Freud's seminal essay The Uncanny through a period of conceptual latency leading to the first real conceptualizations in the 1970s and then on to the present dissemination of the uncanny to exotic fields such as hauntology the study of ghosts robotics and artificial intelligence She unearths new material on the uncanny from the English French and German traditions and sheds light on the specific status of the concept in contemporary theory and practice in the humanities This essential reference book for researchers and students of the uncanny is written in an accessible style Through the lens of the uncanny the familiar contours of the intellectual history of the twentieth century appear in a new and exciting light **Lacanian Psychoanalysis** Ian Parker, 2010-07-16 Lacanian Psychoanalysis looks at the current debates surrounding Lacanian practice and explores its place within historical social and political contexts It draws on Lacan's approach to shed light on issues relevant to current therapeutic practice *Lacan's Cruelty* Meera Lee, 2022-08-29 This collection written by leading Lacanian psychoanalytic theorists and practitioners is a unique exploration of the novel aspects of perversion from the perspective of cruelty a psychoanalytic study that has never been sufficiently undertaken in an English speaking world Instead of reducing the notion of perversion to cultural representations a historical discourse or a clinical diagnosis the authors in this collection draw on Freud Kant Hegel Marquis de Sade Derrida Deleuze and Iek to untie the knot of psychic cruelty intrinsic to perversion and therefore de sexualize perverted acts They do so by theorizing perversion in psychoanalytic concepts of the Oedipus complex the Name of the Father and jouissance and furthermore in the perspective of the clinics of neurosis and psychosis in dialogue with a clinical praxis philosophy and literature **Intermittency** Andrew Gibson, 2011-12-07 This book is about the concept of historical intermittency in five recent and contemporary French philosophers Alain Badiou Francoise Proust Christian Jambet Guy Lardreau and Jacques Ranciere **Badiou and Plato** A.J Bartlett, 2011-06-29 This book will help you to understand Badiou's central concepts the philosophical relation between Badiou and Plato and will rethink the importance of Badiou's Platonic claim that the only education is an education by truths **Badiou Reframed** Alex Ling, 2016-12-18 He has been regarded with suspicion by some as an anti postmodernist who dared to write about unfashionable concepts such as truth and meaning But in recent years the philosopher Alain Badiou has

risen in prominence pioneering new ways to produce conceptualise and discover art Badiou Reframed is an original book about an original thinker which applies for the first time Badiou's philosophy to the visual arts The six central concepts of this philosophy being and appearing event and subject and truth and ethics are elucidated through detailed analysis of a range of visual artworks including Marcel Duchamp's readymades the abstract paintings of Kazimir Malevich and Mark Rothko Banksy's contemporary street art the sculpture of Alberto Giacometti Stephane Mallarme's visual poetry and Victor Fleming's classic film The Wizard of Oz In focusing on Badiou's critical relationship with the visual arts Alex Ling reinterprets and represents not only the man but art itself **Alain Badiou** A. J. Bartlett, Justin Clemens, 2014-12-05 Alain Badiou is one of the world's most influential living philosophers Few contemporary thinkers display his breadth of argument and reference or his ability to intervene in debates critical to both analytic and continental philosophy Alain Badiou Key Concepts presents an overview of and introduction to the full range of Badiou's thinking Essays focus on the foundations of Badiou's thought his key concepts truth being ontology the subject and conditions and on his engagement with a range of thinkers central to his philosophy including Plato Descartes Spinoza Heidegger and Deleuze **Towards a Poetics of Creative Writing** Dominique Hecq, 2015-03-06 This book offers an in depth study of the poetics of creative writing as a subject in the dramatically changing context of practice as research taking into account the importance of the subjectivity of the writer as researcher It explores creative writing and theory while offering critical antecedents theoretical directions and creative interchanges The book narrows the focus on psychoanalysis particularly with regard to Lacan and creative practice and demonstrates that creative writing is research in its own right The poetics at stake neither denotes the study or the techniques of poetry but rather the means by which writers formulate and discuss attitudes to their work **Beckett, Lacan and the Mathematical Writing of the Real** Arka Chattopadhyay, 2019-01-01 Beckett Lacan and the Mathematical Writing of the Real proposes writing as a mathematical and logical operation to build a bridge between Lacanian psychoanalysis and Samuel Beckett's prose works Arka Chattopadhyay studies aspects such as the fundamental operational logic of a text use of mathematical forms like geometry and arithmetic the human obsession with counting the moving body as an act of writing and love and sexuality as a challenge to the limits of what can be written through logic and mathematics Chattopadhyay reads Beckett's prose works including How It Is Company Worstward Ho Malone Dies and Enough to highlight this terminal writing which halts endless meanings with the material body of the word and gives Beckett a medium to inscribe what cannot be written otherwise **Badiou and Cinema** Alex Ling, 2013-03-31 Alex Ling employs the philosophy of Alain Badiou and examples ranging from Hiroshima mon amour to Vertigo to The Matrix to answer the question central to all serious film scholarship can cinema be thought **Radical Intimacy in Contemporary Art** Keren Moscovitch, 2023-09-07 Radical Intimacy in Contemporary Art focuses on practices that operate at the edges of sexuality and its socially sanctioned expressions Using psychoanalysis and object oriented feminism Keren Moscovitch focuses on the work of several

contemporary provocative artists to initiate a dialogue on the role of intimacy in challenging and reimagining ideology. Moscovitch suggests that intimacy has played an underappreciated role in the shifting of social and political consciousness. She explores the work of Leigh Ledare, Genesis P. Orridge, Ellen Jong, Barbara DeGenevieve, Joseph Maida, and Lorraine O'Grady, who through their radical practices engage in such consciousness-shifting in elegant, surprising, and provocative ways. Guided by the feminist psychoanalytic canon of Julia Kristeva throughout, as well as being informed by the philosophy of Luce Irigaray and the critical theory of Judith Butler, Moscovitch situates these artists in the emerging lineage of feminist new materialism. She argues that the instability of intimacy leads to radical and performative objecthood in their work that acts as a powerful expression of revolt. Through this line of argumentation, Moscovitch joins a growing group of philosophers exploring object-oriented theories and practices as a new language for a new era. In this era, the hegemony of subjectivity has been toppled, and a new world of human ontology is built creatively, expressively, and in the spirit of revolt. **The Žižek**

Dictionary Rex Butler, 2015-08-12 Slavoj Žižek is the most popular and discussed philosopher in the world today. His prolific writings across philosophy, psychoanalysis, political and social theory, film, music, and religion always engage and provoke. The power of his ideas, the breadth of his references, his capacity for playfulness and confrontation, his willingness to change his mind, and his refusal fundamentally to alter his argument all have worked to build an extraordinary international readership, as well as to elicit much critical reaction. The Žižek Dictionary brings together leading Žižek commentators from across the world to present a companion and guide to Žižekian thought. Each of the 60 short essays examines a key term and crucially explores its development across Žižek's work and how it fits in with other concepts and concerns. The dictionary will prove invaluable both to readers coming to Žižek for the first time and to those already embarked on the Žižekian journey. **Lacan and Race**

Sheldon George, Derek Hook, 2021-07-08 This edited volume draws upon Lacanian psychoanalytic theory to examine the conscious and unconscious forces underlying race as a social formation, conceptualizing race, racial identity, and racism in ways that go beyond traditional modes of psychoanalytic thought. Featuring contributions by Lacanian scholars from diverse geographical and disciplinary contexts, chapters span a wide breadth of topics, including white nationalism and contemporary debates over Confederate monuments, emergent theories of race rooted in Afropessimism and postcolonialism, analyses of racism in apartheid and American slavery, clinical reflections on Latinx and other racialized patients, and applications of Lacan's concepts of the *lamella*, drive, and sexualization to processes of racialization. The collection both reorients readers' understandings of race through its deployment of Lacanian theory and redefines the Lacanian subject through its theorizing of subjectivity in relation to race, racism, and racial identification. **Lacan and Race** will be a definitive text for psychoanalytic theorists and contemporary scholars of race, appealing to readers across the fields of psychology, cultural studies, humanities, politics, and sociology. **Negativity in Psychoanalysis** Duane Rousselle, Mark Gerard Murphy, 2023-12-22

Negativity in Psychoanalysis examines the role of negativity in psychoanalytic theory and its application in clinical settings. While theories

around negativity and death drive have become routinized within philosophical interpretations of Freudian and Lacanian psychoanalysis they often mask an inherent positivity This volume assembles highly esteemed psychoanalytic theorists and clinicians for an in depth discussion on the topic It features comprehensive introductions to Freudian and Lacanian perspectives alongside contemporary clinical and cultural issues The book also investigates how psychoanalytic negativity influences and is influenced by social theological and philosophical dialogues This work will prove invaluable for practicing psychoanalysts and those in training while also appealing to academics and scholars in critical and cultural theory continental and post continental philosophy and sociology especially those whose research intersects clinical and theoretical traditions

Post-Rationalism Tom Eyers, 2013-05-09 Post Rationalism takes the experimental journal of psychoanalysis and philosophy *Cahiers pour l'Analyse* as its main source Established by students of Louis Althusser in 1966 the journal has rarely figured in the literature although it contained the first published work of authors now famous in contemporary critical thought including Alain Badiou Jean Claude Milner Luce Irigaray Andr  Green and Jacques Alain Miller The *Cahiers* served as a testing ground for the combination of diverse intellectual sources indicative of the period including the influential reinvention of Freud and Marx undertaken by Lacan and Althusser and the earlier post rationalist philosophy of science pioneered by Gaston Bachelard Georges Canguilhem and Alexandre Koyr This book is a wide ranging analysis of the intellectual foundations of structuralism re connecting the work of young post Lacanian and post Althusserian theorists with their predecessors in French philosophy of science Tom Eyers provides an important corrective to standard histories of the period focussing on the ways in which French epistemological writing of the 1930s and 1940s especially that of Bachelard and Canguilhem laid the ground for the emergence of structuralism in the 1950s and 1960s thus questioning the standard historical narrative that posits structuralism as emerging chiefly in reaction to phenomenology and existentialism

Lacan and the Biblical Ethics of Psychoanalysis Itzhak Benyamini, 2023-12-08 In this fascinating and ground breaking book Itzhak Benyamini uses discourse analysis to lay out the way Lacan constructed his own intellectual discourse informed by Judeo Christianity Offering an understanding of Lacan's emergence and intellectual struggles with significant contemporary intellectuals the author builds a panoramic view of the entire psychoanalytic discourse at the time of the foundational post Freudian generation By engaging in close reading of texts and seminars given by Lacan between the 1930s and 50s Benyamini uncovers the coming into being of Lacan's key concepts The Mirror Stage the Imaginary the Real the Symbolic the Name of the Father the Other jouissance and das Ding The author argues that Lacan wished to regulate this process of conceptualization by connecting the concepts of the Father and the Other with themes from the Judeo Christian tradition especially the Biblical one to create a clinical ethic that does not reflect a worldview or ideology and is guided solely by the analysand's unconscious desire

Jacques Lacan and the Logic of Structure Ellie Ragland, 2015-06-26 Lacan postulated that the psyche can be understood by means of certain structures which control our lives and our desires and which operate

differently at different logical moments or stages of formation Jacques Lacan and the Logic of Structure offers us a reading of the major concepts of Lacan in terms of his later topological theory and aims to show how this was always a concern for Lacan and not only an issue in the last seminars Ellie Ragland discusses how various stages of formation can be uncovered topologically within language itself and operate to place certain properties fantasy the drive jouissance discourse and ethics in language itself In this way she explores not only how language actually works in tandem with the properties but also gives a different idea of what knowledge actually is and what implications that may have for reimagining and reworking differential diagnostic structures Jacques Lacan and the Logic of Structure is a compelling exponent of the innovative approaches Lacan takes to rethinking what psychoanalysis is and what it can do to enlighten psychoanalysts and treat patients It will be essential reading to psychoanalysts psychoanalytic psychotherapists training graduate students in the fields of film literary gender and cultural studies
