Ladies May Now Leave Their Machines:

The History of British Women's Writing, 1920-1945 M. Joannou, 2016-01-03 Featuring sixteen contributions from recognized authorities in their respective fields this superb new mapping of women's writing ranges from feminine middlebrow novels to Virginia Woolf's modernist aesthetics from women's literary journalism to crime fiction and from West End drama to the literature of Scotland Ireland and Wales

To All The Living Monica Felton, 2022-10-27 In January 1941 Griselda Green arrives at Blimpton a place so far from anywhere as to be for all practical purposes nowhere Monica Felton's 1945 novel gives a lively account of the experiences of a group of men and women working in a munitions factory during the Second World War Wide ranging in the themes it touches on including class sexism socialism fear of communism workers rights anti semitism and xenophobia the novel gives a vivid portrayal of factory life and details the challenges triumphs and tragedies of a diverse list of characters Adding another crucial female voice to the Wartime Classics series *To All the Living* provides a fascinating insight into a vital aspect of Britain's home front

Blood, Sweat, and Toil Geoffrey G. Field, 2011-11-03 *Blood Sweat and Toil* is the first scholarly history of the British working class in the Second World War It integrates social political and labour history and reflects the most recent scholarship and debates on social class gender and the forging of identities Geoffrey Field examines the war's impact on workers in the varied contexts of the family military service the workplace local communities and the nation Extensively researched using official documents diaries and letters the records of trade unions and numerous other institutions *Blood Sweat and Toil* traces the rapid growth of trade unionism joint consultation and strike actions in the war years It also analyses the mobilization of women into factories and the uniformed services and the lives of men conscripted into the army showing how these experiences shaped their aspirations and their social and political attitudes Previous studies of the Home Front have analysed the lives of civilians but they have neglected the importance of social class in defining popular experience and its centrality in public attitudes official policy and the politics of the war years Contrary to accounts that view the war as eroding class divisions and creating a new sense of social unity in Britain Field argues that the 1940s was a crucial decade in which the deeply fragmented working class of the interwar decades was remade achieving new collective status power and solidarity Employing a contingent non teleological conception of class identity and indicating the plural and shifting mix of factors that contributed to workers social consciousness he criticizes recent revisionist scholarship that has downplayed the significance of class in British society

Half the battle Robert Mackay, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license How well did civilian morale stand up to the pressures of total war and what factors were important to it This book rejects contentions that civilian morale fell a long way short of the favourable picture presented at the time and in hundreds of books and films ever since While acknowledging that some negative attitudes and behaviour existed panic and defeatism ration cheating and black marketeering it argues that these involved a very small minority of the

population In fact most people behaved well and this should be the real measure of civilian morale rather than the failing of the few who behaved badly The book shows that although before the war the official prognosis was pessimistic measures to bolster morale were taken nevertheless in particular with regard to protection against air raids An examination of indicative factors concludes that moral fluctuated but was in the main good right to the end of the war In examining this phenomenon due credit is accorded to government policies for the maintenance of morale but special emphasis is given to the invisible chain of patriotic feeling that held the nation together during its time of trial **Beyond the Home Front** Yvonne M.

Klein,2016-01-06 How women perceived the world wars of this century is markedly different from the common perception of how these wars affected their lives Drawing on a broad variety of sources many long out of print this anthology brings together the autobiographical accounts of both famous and ordinary women to provide a new view of the changing role of women as they experienced the sorrows the terrors and the occasional joys of war in the twentieth century **The Girl**

Now Leaving Betty Burton,2017-10-16 Featuring a typical Betty Burton heroine Strong independent this historical saga chronicles a woman s rise from her impoverished circumstances Dorset Echo A heart wrenching and powerful coming of age story set in the early twentieth century Lu Wilmott grows up in the Portsmouth slums of the 1920s Stricken by diphtheria she is sent to the Hampshire countryside where she discovers a robust fighting spirit and the first stirrings of attraction But then she must follow her mother into the city s grim corset making trade Lu realizes that things must change And she can make it happen Her journey from shy child to energetic woman encompasses love deep friendship and a growing political awareness Above all Lu is a survivor and one to be reckoned with It is encouraging when someone like Betty Burton manages against the odds to become a roaring success *The Guardian* **Literature of the 1940s: War, Postwar and 'Peace'** Gill

Plain,2013-09-10 A groundbreaking re reading of the literary response to a decade of trauma and transformation This study undoes the customary division of the 1940s into the Second World War and after Instead it focuses on the thematic preoccupations that emerged from writers immersion in and resistance to the conflict Through seven chapters Documenting Desiring Killing Escaping Grieving Adjusting and Atomising the book sets middlebrow and popular writers alongside residual modernists and new voices to reconstruct the literary landscape of the period Detailed case studies of fiction drama and poetry provide fresh critical perspectives on writers as diverse as Margery Allingham Alexander Baron Elizabeth Bowen Keith Douglas Henry Green Graham Greene Georgette Heyer Alun Lewis Nancy Mitford George Orwell Mervyn Peake J B Priestley Terence Rattigan Mary Renault Stevie Smith Dylan Thomas and Evelyn Waugh Key Features Detailed and theoretically informed case studies of canonical writers such as Bowen Orwell Greene and Waugh Case studies and critical re evaluations of popular genre writers and forgotten writers **BRITAIN'S WAR** Daniel Todman,2020 The second volume of

Daniel Todman s epic history of the British experience of World War II and its aftermath **Urban Gothic of the Second World War** S. Wasson,2015-12-04 This book examines writing in the Gothic mode which subverts the dominant national

narrative of the British home front Instead of seeing wartime experience as a site of fellowship and emotional resilience Elizabeth Bowen Anna Kavan Mervyn Peake Roy Fuller and others depict shadowy figures on the margin of the nation

West Point History of World War II, Vol. 1 The United States Military Academy, 2015-11-03 An outstanding new military history of the first half of World War II featuring a rich array of images exclusive graphics superb new maps and expert analysis commissioned by the United States Military Academy to teach the art of war to West Point cadets Since 1836 United States Military Academy texts have been the gold standard for teaching military history and the operational art of war Now the USMA has developed a new military history series for the public featuring the story of World War II in two volumes of which this is the first The West Point History of World War II combines the expertise of preeminent historians with hundreds of maps and images many created for this volume or selected from Army collections The first volume offers a balanced narrative analyzing the rising tide of Axis conquest from 1939 to mid 1942 ranging from battlefield decisions to operational and strategic plans all set in their proper political context The closing chapter provides a thematic treatment of the mobilization of the warring nations economies and home fronts for the conduct of total war The West Point History of World War II has been tested checked and polished by West Point cadets faculty and graduates to make this the best military history of its kind
